

MANUAL OF PATENT OFFICE PRACTICE AND PROCEDURE

Version 01.11 As modified on March 22, 2011

PUBLISHED BY:

THE OFFICE OF CONTROLLER GENERAL OF PATENTS,

DESIGNS & TRADEMARKS

BOUDHIK SAMPADA BHAWAN, S. M. ROAD, ANTOP HILL, MUMBAI (INDIA)

Preface

The Patents Act, 1970 was amended in 1999, 2002 & 2005. The amended Act, in accordance with TRIPS, has provided for product patents in foods, medicines and chemical substances. India became signatory to PCT in 1998. As a consequence, patent filing including PCT National Phase Applications have increased exponentially.

Considerable changes have been made in the patenting procedure through the introduction of Patents Rules, 2003, which were further amended in 2005 and 2006, resulting in new practices and procedure.

Indian Patent Office has been modernized with office automation and electronic processing of patent applications during the past one decade. The objective of the modernization project was to increase the efficiency and streamline the functioning in tune with the international scenario, especially with regard to transparency. It has been ou2r constant endeavor to be more transparent in all the spheres of patenting process. IT enabled office process have enabled us to make all information relating to the status of patent application and contents of file, publicly available through the official website. This manual is yet another step to fulfill our commitment to be more efficient and transparent.

There has been a demand from the new inventors, patent practitioners and foreign applicants to codify the practices in Indian Patent Office in the form of a manual. A draft manual was published in 2009 in the official website inviting comments and suggestions from stakeholders. Taking into account the comments and suggestions received, that draft has been thoroughly revised to make it more precise and simple. It is our ardent hope that this manual will effectively meet the demands from stakeholders.

This manual may be considered as a practical guide for effective prosecution of patent applications in India. However, it does not constitute rule making and hence, does not have the force and effect of law.

The manual will be revised from time to time based on interpretations by a Court of Law, statutory amendments and valuable inputs from the stakeholders.

(P H Kurian) Controller General of Patents, Designs and Trademarks

Chapter 1 Introduction

- 1. This manual has been compiled with an intention to codify the practices and procedures being followed by the Indian Patent Office and is intended to serve as a procedural guide for the practitioners and other users of the Indian Patent System.
- 2. Indian Patent Office works from four locations *viz*. Delhi, Mumbai, Kolkata and Chennai with defined areas of territorial jurisdiction. Introduction of office automation and electronic processing of patent applications has resulted in a certain level of uniformity and transparency. Maximum amount of information has been made available to the public *viz*. information relating to patent applications, including the status, examination reports and other documents. This manual is expected to bring in further transparency and uniform practices in the four offices.
- 3. Processing of a patent application is a multi-stage process, involving filing of an application, electronic data processing, screening and classification, publication, examination, pre-grant opposition, grant / refusal. Different persons like Examiner of Patents, Controller of Patents, Applicant / Agent and general public are involved in the process. Rights, functions and responsibilities of all stakeholders have been explained to ensure smooth functioning of the Patent System.
- 4. This manual is expected to spell out patent office practices and procedure and bridge any information gap that currently exists in this regard. It is not intended to be an interpretation of the Indian Patent Law.
- 5. The procedure of filing of a Patent application and its processing up to grant / refusal, maintenance etc. is explained in the following chapters. This manual does not cover the infringement proceedings. Certain matters like exceptions to the rights of patentee, Government use, Compulsory Licensing etc. have also been included.
- 6. Some of the key definitions have been explained in Chapter-2.

- Chapters 3 to 7 deal with the procedure of filing a patent application, including Ordinary Application, PCT International Application, PCT National Phase Application, Convention Application, Application for Patent of Addition & Divisional Application.
- 8. Chapters 8 & 9 relate to examination, grant, pre-grant and post grant oppositions.
- 9. Chapters 10 to 14 cover the post-grant procedures such as maintenance of patent, appeal, revocation, compulsory licensing and use of patents for the purposes of Government.
- 10. Chapters 15 to 20 relate to Patent Agents, offences and penalties, general powers of Controller, general services, scientific advisors and miscellaneous provisions.
- 11. Time limits prescribed under the Act and Rules have been specifically dealt with separately in Chapter 21.
- 12. The Officers functioning under the Act have been vested with statutory powers. They also have some discretionary powers under the Act, which are to be exercised judiciously. As regards the patentability of any subject matter under consideration by an Officer empowered under the Act, he shall not be guided solely by the contents of this manual but shall take judicious decisions based on the Act, Rules and any judicial decisions on the matter. However, all officers of Patent Office shall follow the procedure set forth in the manual.

Chapter 2 Key definitions

02.01	General	
	For better appreciation of this manual, the user may require	
	to have clearx understanding of certain terms which are	
	defined in the Act or Rules. Some of the important	
	definitions are as under.	
02.02	Definitions	
02.02.01	"Controller" means the Controller General of Patents,	Section 2(1)(b),
	Designs and Trade Marks referred to in Section 73.	2(2)(a), 73
	Controller shall be construed as including a reference to	Section 3 of
	any officer discharging the functions of Controller in	Trademarks
	pursuance of Section 73.	Act, 1999
	The office of Controller General of Patents, Designs and	
	Trademarks is at Mumbai.	
	The Controller General of Patents, Designs and	
	Trademarks is appointed by the Government of India under	
	Section 3 of the Trademarks Act, 1999. The person so	
	appointed will be the Controller of Patents for the purposes	
	of Patents Act, 1970.	
	The Central Government may also appoint other officers	
	who shall discharge, under the superintendence and	
	directions of the Controller General of Patents, Designs	
	and Trademarks, such functions of the Controller under	
	this Act as he may authorize in writing, from time to time	

	by general or special order.	
	The Controller General has authorized the Assistant	
	Controllers, Deputy Controllers, Joint Controllers and	
	Senior Joint Controllers to discharge most of the functions	
	under the Act.	
	The Controller General has the power to withdraw any	
	matter pending before an officer, by an order in writing	
	and for reasons to be recorded therein, and deal with such	
	matter himself either <i>de novo</i> or from the stage it was so	
	withdrawn or transfer the same to another officer who may	
	subject to special directions in the order of transfer,	
	proceed with the matter either <i>de novo</i> or from the stage it	
	was so transferred.	
02.02.02	"Government undertaking" means any industrial	Section 2(1)(h)
	undertaking carried on –	
	a. by a department of the Government, or	Section 617 of
	b. by a corporation established by a Central,	the Companies
	Provincial or State Act, which is owned or	Act, 1956
	controlled by the Government, or	
	c. by a Government company as defined in	
	section 617 of the Companies Act, 1956 (1 of	
	1956), or	
	d. by an institution wholly or substantially	
	financed by the Government.	
02.02.03	"Invention" means a new product or process involving an	Section 2(1)(j)
	inventive step and capable of industrial application.	
02.02.04	"Inventive step" means a feature of an invention that	Section 2(1)(ja)
	involves technical advance as compared to the existing	

	knowledge or having economic significance or both and	
	that makes the invention not obvious to a person skilled in	
	the art.	
02.02.05	"Capable of industrial application", in relation to an	Section 2(1)(ac)
	invention, means that the invention is capable of being	
	made or used in an industry.	
02.02.06	"Legal representative" means a person who in law	Section 2(1)(k)
	represents the estate of a deceased person.	
02.02.07	"Assignee" includes an assignee of the assignee and the	Section 2(1)(ab)
	legal representative of a deceased assignee and references	
	to the assignee of any person include references to the	
	assignee of the legal representative or assignee of that	
	person.	
02.02.08	"Patentee" means the person for the time being entered on	Section 2(1)(p)
	the register as the grantee or proprietor of the patent.	
02.02.09	"Patent office" means the patent office referred to in	Section 2(1)(r),
	section 74.	2(2)(b), 74
	Unlike many other Countries, for the purpose of	
	facilitating the registration of patents, Indian Patent Office	
	functions from four locations viz. Kolkata, Delhi, Chennai	
	and Mumbai.	
02.02.10	"Appropriate office" means the appropriate office of the	Rule 2(b), 4
	patent office as specified in rule 4.	
02.02.11	"Person" includes the Government.	Section 2(1)(s)
02.02.12	"Person interested" includes a person engaged in, or in	Section 2(1)(t)
V Z. VZ.1Z	promoting, research in the same field as that to which the	Section 2(1)(1)
	invention relates.	
02 02 12		Section 2(1)(-)
02.02.13	"Prescribed" means prescribed by rules made under this	Section 2(1)(u)
	Act.	

02.02.14	"Prescribed manner" includes the payment of the Section 2(1)(v)
	prescribed fee.
02.02.15	"True and first inventor" does not include either the first Section 2(1)(y)
	importer of an invention into India, or a person to whom
	an invention is first communicated from outside India.

Chapter 3

Filing of Patent Application

03.01	Applicant	Section 6, 134,
		135
	An Application for a Patent for an invention may be	Form-1
	made by any of the following persons either alone or	
	jointly with any other person:	
	• True and first inventor	
	• True and first inventor's assignee	
	• Legal representative of deceased true and first	
	inventor or his/her assignee	
	The term "person" as defined in the Patents Act	
	includes Government. The term "person" as defined	
	in the General Clauses Act, 1897 includes any company	
	or association or body of individuals, whether	
	incorporated or not. In the case of a limited	
	partnership, the Application may be in the names of all	
	personally responsible partners.	
	True and first inventor does not include either the first	
	importer of an invention into India or a person to whom	
	an invention is first communicated from outside India.	
	The applicant is required to disclose the name, address	
	and nationality of the true and first inventor.	
	Assignee can be a natural person or other than a legal	
	person such as a registered company, a research	

	organization, an educational institute or Government.	
	Assignee includes assignee of an assignee also.	
	Wherever, the inventor(s) is/are not the applicant, a	
	proof of right to apply by way of an endorsement in the	
	Application form (Form 1) or an assignment deed shall	
	be submitted.	
	Legal representative means a person who in law	
	represents the estate of a deceased person. In such a	
	case, the Legal Representative may be required to file	
	appropriate legal instruments as Proof of Right.	
	In case of a convention application, the legal	
	representative or assignee of the applicant in the	
	Convention country can also file a Patent Application	
	in India.	
03.01.01	Procedure to be followed in case of death of applicant, or	Section 20
	in case the legal entity ceases to exist, substitution or	Form-6
	addition of applicant.	
	a. If the applicant dies before the grant of patent, a	
	request may be made by a person who would, by	
	virtue of an assignment or agreement made in	
	writing, or by operation of law, be entitled to an	
	interest in the patent. If one or more of the joint	
	applicant(s) die(s) before the grant of the patent,	
	the survivor(s) may, with the consent of the legal	
	representative of the deceased, request for	
	proceeding the application in the name of	
	proceeding the application in the name of survivor(s).	

	as well to joint applicants where one of the	
	applicants dies. In all these cases, when a request	
	is made in Form-6, the Controller may allow such	
	substitution. However, in case of joint applicants,	
	the substitution can only be made with the	
	consent of all the other joint applicants.	
	When there is a dispute between the joint applicants,	
	regarding such substitution, after giving opportunity to	
	all the applicants, the Controller may give such directions	
	as he thinks fit for enabling the application to proceed	
	with. Accordingly, the Controller may direct that the	
	application shall proceed in the name of one or more of	
	the parties alone. Such directions may also relate to the	
	manner in which the application should proceed.	
	Further, the Controller shall not issue any such direction	
	unless:	
	i. the invention is identified in the agreement or	
	assignment by reference to the number of	
	application for the patent, or	
	ii. an acknowledgement, indicating that the	
	assignment or agreement relates to the	
	invention in respect of which the application	
	is made, is produced before the Controller, or	
	iii. the rights of the claimant in respect of the	
	invention have been finally established by	
	decision of a court.	
03.02	Jurisdiction	Section 16, 74.
		Rule 4, 5.
	Unlike many other Countries, for the purpose of	
	facilitating the registration of patents, Indian Patent	
	Office functions from four locations viz. Kolkata, Delhi,	

Chennai and Mumbai.

having the	e appropriate jurisdiction. Territorial jurisdiction
•	office is decided based on the following:
i)	Place of residence, domicile or business of the
	applicant (first mentioned applicant in the case
	of joint applicants).
ii)	Place from where the invention actually
	originated.
iii)	Address for service in India given by the
	applicant, when the Applicant has no place of
	business or domicile in India (Foreign
	applicants).
Territorial Patent	jurisdictions are presented below: Territorial Jurisdiction
Patent	
	Territorial Jurisdiction
Patent Office	
Patent Office	Territorial Jurisdiction The States of Gujarat, Maharashtra, Madhya
Patent Office	Territorial Jurisdiction The States of Gujarat, Maharashtra, Madhya Pradesh, Goa, Chhattisgarh, the Union
Patent Office	Territorial Jurisdiction The States of Gujarat, Maharashtra, Madhya Pradesh, Goa, Chhattisgarh, the Union Territories of Daman & Diu and Dadra &

Kolkata Rest of India (States of Bihar, Orissa, West	
Bengal, Sikkim, Assam, Meghalaya, Manipur,	
Tripura, Nagaland, Arunachal Pradesh and	
Union Territory of Andaman and Nicobar	
Islands)	
When a patent application is filed with an appropriate	
office, it shall be processed by that office ordinarily.	
The appropriate office for filing a divisional patent	
application is the office where the main application is filed,	
as a divisional application needs to be examined vis-à-vis its	
main application.	
(for Divisional Applications, please see Chapter 6)	
A foreign applicant is required to give an address for service	
in India and the jurisdiction will be accordingly decided.	
Appropriate office in relation to International	
Applications under Patent Co-operation Treaty and the	
National Phase Applications (for the PCT Applications	
and National Phase Applications, please see Chapter 7):	
(1) The receiving office, designated office and	
elected office for the purposes of International	
Applications filed under the Treaty shall be the	
appropriate office in accordance with Rule 4.	
(2) An International Application under the PCT shall	
be filed at and processed by the appropriate	
office in accordance with the provisions of	
Chapter III of the Patents Rules, 2006, the Treaty	
and the Regulations established under the PCT.	

03.03	Type of Patent Applications	Section 7, 54,
	1. Ordinary Application, i.e., an Application which has	135
	been filed directly in the Indian Patent Office.	
	2. Convention Application.	
	3. PCT Application.	
	4. Divisional Application, which can result from division	
	of a Patent Application.	
	5. Patent of Addition, which may be filed subsequent to	
	the Filing of an Application for Patent, for an	
	improvement or modification.	
03.04	Filing of a patent application	Section 7
	A patent application shall be filed on Form-1 along with	First Schedule
	Provisional / Complete Specification, with the prescribed	
	fee as given in First Schedule at an appropriate office.	
	However, a provisional specification cannot be filed in case	
	of a Convention Application (either directly or through	
	PCT routes) (For further description of	
	Provisional/Complete Specifications please see Chapter 5)	
	Normal fee shall be applicable for applications containing	
	upto thirty pages in specification and upto 10 claims. If the	
	specification exceeds thirty pages or claims are more than	
	ten in number, additional fee as given in First Schedule is	
	payable.	
03.04.01	Contents of Patent Application	Section 7.
	A patent application should contain:	Rule 8, 12, 13,
	(for filing of International Application please see Chapter	135.
	7)	Form-1, 2, 3, 5,
	1. Application for grant of patent in Form-1.	26.
	2. Applicant has to obtain a proof of right to file the	Section 6 of the
	application from the inventor. The Proof of Right is	Biological
	either an endorsement at the end of the Application	Diversity Act,

	Form-1 or a separate assignment.	2002.
3.	Provisional / complete specification in Form-2.	Rule 17.1 of
4.	Statement and undertaking under Section 8 in Form-	Regulations
	3, if applicable.	made under the
	An applicant must file Form 3 either along with the	PCT.
	application or within 6 months from the date of	
	application.	
5.	Declaration as to inventorship shall be filed in Form	
	5 for Applications accompanying a Complete	
	Specification or a Convention Application or a PCT	
	Application designating India. However, the	
	Controller may allow Form-5 to be filed within one	
	month from the date of filing of application, if a	
	request is made to the Controller in Form-4.	
6.	Power of authority in Form-26, if filed through a	
	Patent Agent. In case a general power of authority	
	has already been filed in another application, a self	
	attested copy of the same may be filed by the Agent.	
	In case the original general power of authority has	
	been filed in another jurisdiction, that fact may also	
	be mentioned in the self attested copy.	
7.	Priority document is required in the following cases:	
	a. Convention Application (under Paris	
	Convention).	
	b. PCT National Phase Application wherein	
	requirements of Rule 17.1(a or b) of regulations	
	made under the PCT have not been fulfilled.	
	The priority document may be filed along with the	
	application or before the expiry of eighteen months	
	from the date of priority, so as to enable publication	
	of the application. In case of a request for early	

		1
	publication, the priority document shall be filed	
	before/along with such request.	
	8. Every application shall bear the Signature of the	
	applicant or authorized person / Patent Agent along	
	with name and date in the appropriate space	
	provided in the forms.	
	9. The Specification shall be signed by the	
	agent/applicant with date on the last page of the	
	Specification. The drawing sheets should bear the	
	signature of an applicant or his agent in the right	
	hand bottom corner.	
	10. If the Application pertains to a biological material	
	obtained from India, the applicant is required to	
	submit the permission from the National	
	Biodiversity Authority any time before the grant of	
	the patent. However, it would be sufficient if the	
	permission from the National Biodiversity	
	Authority is submitted before the grant of the	
	patent.	
	11. The Application form shall also indicate clearly the	
	source of geographical origin of any biological	
	material used in the Specification, wherever	
	applicable.	
03.04.02	E-filing:	Rule 6
	1. The Patent Office provides the facility to file a	
	Patent Application online from the native place of	
	the agent of the applicant or applicant through e-	
	filing.	
	2. For e-filing, applicant / agent must have a digital	
	signature. For the first time, applicant / agent has to	
	register as a new user and has to create login ID and	

	password on the Patent office portal.	
	(http://www.ipindia.nic.in).	
	3. A preliminary Software (Client Software) has to be	
	downloaded from the above-mentioned site and has	
	to be installed on the host computer. With the help	
	of said software, an XML file gets generated and all	
	the relevant documents (i.e. Form 1, Form 2, Form	
	3, etc.) in soft copy have to be uploaded. An	
	Application number and CBR receipt gets generated	
	after successful uploading.	
	4. Major objectives and purpose of providing the	
	facilities of e-filing is to save time and other hazards	
	to protect the priority date of Application and time	
	line to enter into National Phase Application, Patent	
	of Addition and Divisional Application within time	
	frame, in case of last moment instruction from	
	applicant to agent.	
	5. The applicant / agent will receive the filing receipt	
	and CBR immediately after acceptance of	
	Application in the software, with Patent Application	
	number, date and time of filing.	
	6. The Office is in the process of upgrading the e-	
	filing platform so as to enable an applicant to file all	
	subsequent papers electronically. It is also proposed	
	to make e-filing compulsory in the near future.	
03.04.02.01	Steps for e-filing of Patent Application	E-filing user
	1. For using this Portal click on link 'On-line	manual
	Registration for New User'.	
	2. Complete On-line Registration process for getting	
	User ID & Password.	
	3. Login to e-Patent portal after successful registration.	

	A Download Client Software for propering Detent	[]
	4. Download Client Software for preparing Patent	
	Application(s) offline.	
	5. Complete the Patent Application offline and	
	generate an XML file using Client Software .	
	6. After creating Application (XML) file offline,	
	digitally sign the XML file (Max. file size permitted	
	15 MB) for uploading to the IPO Server.	
	7. Login to e-Patent portal for uploading Application	
	XML file on IPO Server.	
	8. Upload & submit digitally signed XML file to IPO	
	Server.	
	9. Process the Application for EFT (Electronic Fee	
	Transaction).	
	10. Review Application Status on e-Patent Portal.	
	11. On successful EFT, acknowledgement details would	
	be displayed/ generated.	
	12. Print the Acknowledgement.	
	13. Detailed user manual in pdf format is uploaded on	
	the official website where Certifying Authority,	
	Authorised Bank, Prerequisites of e-filing,	
	Procedure and guidelines of e-filing of Patent	
	Applications are described in detail.	
03.04.03	Leaving and serving documents at Patent Office	Rule 6
	1. Any Application, notice or other document	
	authorised or required to be filed, left, made or	
	given at the Patent office, or to the Controller or	
	to any other person under the Act or these rules,	
	may be tendered by hand or sent by a letter	
	addressed to the Controller at the appropriate	
	Office or to that person through post or registered	
	post or speed post or courier service or by	
L		

electronic transmission duly authenticated.

- 2. If it is sent by post or registered post or speed post or courier service or by electronic transmission duly authenticated, it shall be deemed to have been filed, left, made or given at the time when the mail containing the same would have been delivered in the ordinary course of post or registered post or speed post or courier service, or by electronic transmission duly authenticated, as the case may be. In proving such sending, it shall be sufficient to show that the mail was properly addressed and transmitted.
- 3. In case of a postal or courier delay, the Controller follows the provisions of the above paragraph with regard to the date of receipt of the document.
- 4. Any written communication addressed to a patentee at his address as it appears on the register of patents or at his address for service given under rule 5, or to any applicant or opponent in any proceedings under the Act or these rules, at the address appearing on the Application or notice of opposition, or given for service, shall be deemed to be properly addressed.
- 5. All notices and all written communications addressed to a patentee, or to any applicant or opponent in any proceedings under the Act or these rules, and all documents forwarded to the patentee or to the said applicant or opponent, shall, except when they are sent by special messenger, be sent by registered post or speed post or courier service or by electronic transmission

duly authenticated.

6.	The date of a notice or a written communication
	addressed to a patentee or to any applicant or
	opponent in any proceedings under the Act and
	these rules shall be the date of dispatch of the
	said notice or written communication, by
	registered post or speed post or courier or fax or
	electronic transmission duly authenticated, as the
	case may be, unless otherwise specified under the
	Act or these rules.

7.	In case of delay in receipt of a document or a
	communication sent by the Patent office to a party
	to any proceedings under the Act or these rules, the
	delay in transmitting or resubmitting a document
	to the Patent office or doing any act by the party
	may be condoned by the Controller if a
	petition for such condoning of delay is made by
	the party to the Controller immediately after the
	receipt of the document or a communication
	along with a statement regarding the
	circumstances of the fact and evidence in support
	of the statement:

Provided that the delay condoned by the Controller shall not exceed the period between the date on which the party was supposed to have received the document or communication by ordinary course of mail or electronic transmission and the actual date of receipt of the same.

03.04.04	Receiving documents in Office:	
	1. The application and any other documents with	

	accompanying fees and/or without accompanying	
	fees is received at the Patent Office at separate	
	counters known as Fee Counter (FC) and Non-Fee	
	Counter (NFC) respectively.	
	2. Both the counters stand closed at 5 pm for	
	facilitating further processing and no papers will be	
	received after 5 pm .	
	3. All documents by post/courier are received at a	
	separate counter. The fee bearing documents are	
	sent to the fee counter and the non-fee bearing	
	documents are sent to the non-fee counter.	
	4. The staff at the fee counter makes relevant entries in	
	the module and generates the Cash Book Receipts	
	(CBRs). The staff at the non-fee counter makes	
	relevant entry in the document receipt module.	
	5. The staff at the fee counter stamps the documents so	
	received and enters the CBR number, date, amount	
	of fee received, application number, patent number	
	or other relevant entries. The staff at the non-fee	
	counter also stamps the documents after making	
	entries in the module.	
	6. The documents from both the counters are sent on	
	an hourly basis to the Electronic Data Processing	
	(EDP) Section for digitization.	
	7. Documents requiring no digitization are sent to the	
	concerned section on daily basis.	
03.04.05	Language and Paper size etc.	Rule 9
	All documents and copies of documents to be furnished	
	shall be written or typewritten or printed either in Hindi	
	or in English language in large and legible characters	
	with deep indelible ink with lines widely spaced upon	
	1	1

	one side only of strong white paper of a size A4 with a	
	margin of at least 4 centimeters on the top and left hand	
	part and 3 centimeters on the bottom and right hand part	
	thereof.	
	It is desirable that the documents are prepared with lines	
	spacing of 1 1/2 or double space in non-script type font	
	(e.g., Arial, Times Roman, or Courier), preferably in a	
	font size of 12.	
	Signature	
	Any signature which is not legible or which is written in	
	a script other than Hindi or English shall be accompanied	
	by a transcription of the name either in Hindi or in	
	English in block letters.	
03.04.06	Sequence listing	Rule 9
	In case the Application for Patent discloses sequence	
	listing of nucleotides and/or amino acids, the same shall be	
	filed in electronic form. However, the fee with respect to	
	the equivalent number of pages shall be payable.	
03.04.07	Fee:	Section 142
	1. Fee payable under the Act may either be paid in cash	Rule 7
	or through electronic means or may be sent by bank	First Schedule
	draft or cheque payable to the Controller of Patents	
	and drawn on a scheduled bank at the place where the	
	appropriate office is situated. If the draft or cheque is	
	sent by post, the fee shall be deemed to have been	
	paid on the date on which the draft or cheque would	
	have reached the Controller in the ordinary course of	
	mail.	
	2. Where a fee is payable in respect of a document, the	
	entire fee shall accompany the document.	
	1	
	3. Where a fee is payable in respect of the doing of an	

act by the Controller, the Controller shall not do that
act until the fee has been paid.
4. In case an application processed by a natural person
is fully or partially transferred to a person other than
a natural person, the difference, if any, in the scale of
fee(s) between the fee(s) charged from a natural
person and the fee(s) chargeable from the person
other than a natural person in the same matter shall be
paid by the new applicant with the request for
transfer.
5. Fee once paid in respect of any proceedings shall not
be ordinarily refunded whether the proceedings have
taken place or not.
6. Prescribed fee for various proceedings under the Act
is given in First Schedule.
Processing of Application
Initial processing
1. On receipt of an application, the Office accords a
date and serial number to it. PCT national phase
Applications and non-PCT Applications are
Applications and non-PCT Applications are identified by separate serial numbers.
identified by separate serial numbers.
identified by separate serial numbers.2. All applications and other documents are digitized,

	an examiner in the respective field.
	c. Relevance to defence or atomic energy.
	d. Correcting/completing the abstract, if
	required. If found not proper, the abstract
	will be recasted suitably, so as to provide
	better information to third parties. However,
	such amendments should not result in a
	change in the nature of invention.
	5. Requests for examination are also accorded separate
	serial number.
03.05.02	Scrutiny of application
	1. The Office checks whether the Application has been
	filed in appropriate jurisdiction (for jurisdiction
	please see 03.02). If the jurisdiction is not
	appropriate, the application shall not be taken on
	record and the applicant is informed accordingly.
	2. The Office checks for proof of right to file the
	application (See 03.04). If the proof of right is not
	filed along with the application, it shall be filed
	within a period of six months from the date of filing
	of the application. Otherwise, the applicant shall file
	the same along with a petition under Rule 137/138.
	3. The Office checks whether the application and other
	documents have been filed in the prescribed format
	i.e. prescribed forms, request, petitions, assignment
	deeds, translation etc. Further, the Office checks
	whether:
	a) the documents are prepared on a proper
	sized paper, typed in appropriate font with
	proper spacing,
	b) the documents are duly signed.

	c) abstract, drawings (if any) have been filed in	
	proper format,	
	d) meaningful Claim(s) are present in a	
	complete Specification,	
	e) Power of Attorney or attested copy of	
	General Power of Attorney (if any) is filed,	
	f) Form-5 has been filed(along with complete	
	after Provisional or for filing PCT-NP/	
	Convention Application),	
	g) the invention has been assigned to another	
	person and Form 6 has been duly filed. If the	
	right is assigned from an individual to a	
	legal entity, the legal entity is invited to pay	
	the balance fees.	
03.05.03	Secrecy Directions and consequences thereof Sect	tion 35, 36,
	1. If in the opinion of the Controller an invention 37, 3	38
	pertains to a subject matter relevant for the purpose	
	pertains to a subject matter relevant for the purpose of defence as notified by the Central Government,	
	of defence as notified by the Central Government,

	 of defence as notified by the Central Government, the Controller issues a secrecy direction prohibiting the publication of the application to the applicant and refers the matter to the Central Government for their consideration as to whether the application is prejudicial to the defence of India. 2. The Central Government, after considering the merits of the secrecy direction, may give notice to the Controller as to whether the secrecy direction needs to be continued or not. 3. The Central Government reviews the matter at an interval of six months. The applicant may request 	

	may request the Central Government for a review.	
	4. If the Central Government is of the opinion that an	
	invention in respect of which the Controller has not	
	imposed a secrecy direction and is relevant for	
	defence purposes, it may at any time before the	
	grant of the patent notify the Controller to that	
	effect. Thereupon, the Controller invokes the	
	provisions of Section 35(1).	
	5. So long as any directions under Section 35 are in	
	force, the Controller shall not take a decision on	
	grant/refusal of the application.	
03.05.04	Inventions relating to Atomic Energy Se	ction 4.
	1. No Patent is granted in respect of an invention Sec	ction 20 of
	relating to atomic energy falling within sub-section the	e Atomic
	(1) of Section 20 of the Atomic Energy Act, 1962. En	ergy Act,
	2. According to Section 20(1) of Atomic Energy Act, 19	63.
	atomic energy means energy released from atomic S.C.	D.61(E)
	nuclei as a result of any process including the	
	fission and fusion processes. Under this Act,	
	"prescribed substances" means any substance	
	including any mineral which the Central	
	Government may, by notification, prescribe, being a	
	substance which in its opinion is or may be used for	
	the production or use of atomic energy or research	
	into matters connected therewith and includes	
	uranium, plutonium, thorium, beryllium, deuterium	
	or any of these respective derivative or compounds	
	or any other materials containing any of the	
	aforesaid substances. The Act defines the term	
	"radioactive substances" or "radioactive material" as	
	any substance or material, which spontaneously	

	T	
	emits, radiation in excess of the levels prescribed by	
	notification by the Central Government. "Prescribed	
	Substances, Prescribed equipment and Technology"	
	have been notified by the Government of India,	
	Department of Atomic Energy vide S.O.61(E),	
	published in the Gazette of India (extraordinary,	
	Part II, Section 3, sub-section (ii), dated 20th	
	January, 2006.	
	3. Any person desiring to apply for a patent abroad for	
	an invention relating to or which he has reason to	
	believe relates to atomic energy shall obtain prior	
	permission from the Central Government before	
	making the application abroad or communicating	
	the invention to any person abroad, unless six weeks	
	have elapsed since his request for permission was	
	made to the Central Government and no reply was	
	received by him.	
	4. Upon screening, if an Application is found to be	
	falling within the purview of the Atomic Energy	
	Act, the Controller refers the Application to the	
	Central Government.	
	5. The Central Government upon consideration may	
	issue a direction to the Controller, which is binding.	
	6. The opinion of the Central Government is not open	
	to an appeal.	
03.06	Withdrawal of patent application	Section
	The applicant may, at any time after filing the application	11A(3)(c),
	but before the grant of a patent, withdraw the application by	11B(4).
	making a request in writing and by paying the prescribed	First Schedule
	fee.	
	However, if the applicant makes a request for withdrawal	
	1	

within 15 months from the date of filing or priority of the	
application, whichever is earlier, the application will not be	
published. It is desirable that the applicant specifies in the	
request that such withdrawal is under Section 11A(3)(c).	
	application, whichever is earlier, the application will not be published. It is desirable that the applicant specifies in the

Chapter 4

Publication of Application

04.01	Publication of Patent Application	Section 11A,
	(a) An Application for Patent is not open to public	Rule 24
	before the expiry of 18 months from the date of	
	filing or date of priority, whichever is earlier.	
	(b) At the end of 18 months period from the date of	
	filing or from the date of priority whichever is	
	earlier, the Application is published in the Official	
	Journal except in the cases where:	
	i. Secrecy direction u/s 35 is in force.	
	ii. Application abandoned u/s 9(1) (i.e.,	
	complete Specification not filed within	
	twelve months from the date of filing of	
	Provisional Specification).	
	iii. Withdrawn three months prior to the	
	publication period, i.e., before the end of	
	15 th month from the date of filing or	
	priority, whichever is earlier. This will	
	apply for National Phase entry of PCT	
	Applications as well, if such application	
	has been filed in India before the expiry	
	of 15 months from the date of priority.	
	(c) The Patent Office publishes the Application in the	
	Official e-Journal ordinarily within one month	
	from the date of expiry of 18 months from the date	
	of filing or priority, whichever is earlier.	
	(d) In cases, where a secrecy direction has been given,	

	the Application is published, when the secrecy	
	direction is revoked subject to the expiry of the 18-	
	month period.	
	(e) No application will be published unless a power of	
	authority, if applicable, is filed.	
04.02	Early Publication	Section 11A(2)
	(a) A request for early publication may be made in Form-9	Rule 24A
	with the prescribed fee of Rs.2,500/- for natural person(s)	Form-9
	or Rs.10,000 for legal entity other than natural person(s).	
	(b) The request for early publication will be considered if it	
	does not pertain to subject matter relevant for defence or	
	atomic energy.	
	(c) Where a request under (a) above is made, the application	
	is published within one month from the date of such	
	request.	
04.03	Particulars of Publication	Section 11A
	The official Patent Office Journal is published on every	
	Friday with the following particulars:	
	i. Application number	
	ii. Date of filing	
	iii. Title of invention	
	iv. Publication date	
	v. International Patent Classification	
	vi. Name and address of the applicant	
	vii. Name of the inventor(s)	
	viii. Priority details like priority document number, date,	
	country etc.	
	ix. Reference to Patent of Addition / Divisional	
	Application along with filing date of the parent	
	Application.	
	x. Abstract	

	xi. No. of claims	
	xii. Drawings (if any)	
04.04	Effects of Publication	Section 11A(6).
	(a) Upon publication, the Patent office makes the	Rule 27,
	Specification (complete as well as Provisional, if any),	55(1A).
	and drawings filed in respect of the Application available	
	to the public on its website or on payment of the	
	prescribed fee as given in the First Schedule if such a	
	request is filed.	
	(b) After publication of the Application for Patent the	
	depository institution will make the biological material	
	mentioned in the specification, available to the public.	
	(c) A patentee can claim damages from the date of	
	publication of his/her application. However, the patentee	
	can institute a suit for infringement only after a patent is	
	granted.	
	(d) The rights of patentee with respect to applications filed	
	under section 5(2) before 1st day of January, 2005 will	
	accrue from the date of grant of the patent. Further, in	
	such a case, after the grant of a patent, the patent-holder	
	shall only be entitled to receive reasonable royalty from	
	such enterprises which have made significant investment	
	and were producing and marketing the concerned product	
	prior to 1st day of January, 2005 and which continue to	
	manufacture the product covered by the patent on the date	
	of grant of the patent and no infringement proceedings	
	shall be instituted against such enterprises.	
	(e) No patent shall be granted before the expiry of six months	
	from the date of Publication of the Application.	

Chapter 05

Provisional and Complete Specification

05.01	Specification	
	In order to obtain a patent, an applicant must fully and particularly	Section 9, 10.
	describe the invention therein claimed in a complete specification.	Rule 13.
	The disclosure of the invention in a complete specification must be	Form-1, 2
	such that a person skilled in the art may be able to perform the	
	invention. This is possible only when an applicant discloses the	
	invention fully and particularly including the best method of	
	performing the invention. The Specification is a techno-legal	
	document containing full scientific details of the invention and	
	claims to the patent rights. The Specification, thus, forms a crucial	
	part of the Patent Application. It is mandatory on the part of an	
	applicant to disclose fully and particularly various features	
	constituting the invention. The Specification may be filed either as a	
	Provisional or as a complete Specification.	
	The Specification (provisional or complete) is to be submitted in	
	Form-2 along with the Application in Form-1 and other documents,	
	in duplicate, along with the prescribed fee as given in the First	
	Schedule. The first page of the Form 2 shall contain:	
	a) Title of the invention;	
	b) Name, address and nationality of each of the applicants for	
	the Patent; and	
	c) Preamble to the description.	
	The title of the invention shall sufficiently indicate the specific	
	features of the invention. Every Specification whether Provisional or	
	complete shall describe the invention. The applicant shall submit	
	drawings, wherever required. The Controller may also require the	
	applicant to submit drawings, if necessary at the examination stage.	

Such drawings shall form a part of the Specification and suitable references thereto shall be made in the Specification. The Controller may require the applicant to submit, anytime before the grant, models or samples related to the invention for better illustration of the invention. However, such models or samples shall not form part of the Specification.Section05.02Provisional Specification stage wherein it can be disclosed on paper, but has notSection	9,
 may require the applicant to submit, anytime before the grant, models or samples related to the invention for better illustration of the invention. However, such models or samples shall not form part of the Specification. 05.02 Provisional Specification a) When the applicant finds that his invention has reached a stage wherein it can be disclosed on paper, but has not 	9,
models or samples related to the invention for better illustration of the invention. However, such models or samples shall not form part of the Specification. Section 05.02 Provisional Specification Section a) When the applicant finds that his invention has reached a stage wherein it can be disclosed on paper, but has not 11A(3)(9,
the invention. However, such models or samples shall not form part of the Specification. Section 05.02 Provisional Specification Section a) When the applicant finds that his invention has reached a stage wherein it can be disclosed on paper, but has not 11A(3)(9,
of the Specification. 05.02 Provisional Specification Section a) When the applicant finds that his invention has reached a stage wherein it can be disclosed on paper, but has not 11A(3)(9,
05.02 Provisional Specification Section a) When the applicant finds that his invention has reached a stage wherein it can be disclosed on paper, but has not 11A(3)(9,
a) When the applicant finds that his invention has reached a 11A(3)(stage wherein it can be disclosed on paper, but has not	9,
stage wherein it can be disclosed on paper, but has not	
	(b)
attained the final stage, he may prepare a disclosure of the	
invention in the form of a written description and submit it to	
Patent Office as a Provisional Specification which describes	
the invention.	
b) A Provisional Specification secures a priority date for the	
application over any other application which is likely to be	
filed in respect of the same invention being developed	
concurrently.	
c) Immediately on receiving the Provisional Specification the	
Patent office accords a filing date and application number to	
the Application.	
d) An application accompanying a provisional specification is	
deemed to be abandoned if no complete specification is filed	
within twelve months from the date of filing of the	
provisional specification. However, the applicant has an	
option to post-date the provisional specification under	
Section 17, before the expiry of twelve months from the date	
of filing. Such request for post-dating shall not be allowed	
after the expiry of twelve months from the date of	
application. Such abandoned applications are not published.	
Once abandoned for reasons mentioned above, no priority	
can be claimed from such application, for any other	

application such as divisional application etc.

	application such as divisional application etc.	
	e) If two provisional specifications filed by an applicant are	
	cognate or if one is a modification of the other, the applicant	
	may file one complete specification covering both the	
	provisional applications. Such a complete specification shall	
	have to be filed within twelve months from the date of filing	
	of the first provisional application. In such cases, date of	
	filing of application is the date of filing of the earliest	
	provisional specification and shall bear the number of that	
	application.	
	f) An applicant may, within twelve months from the filing of a	
	complete specification (not being a convention application or	
	a PCT National Phase Application), convert the same into a	
	provisional specification. Consequently, the applicant has to	
	file a complete specification within twelve months from the	
	date of first filing.	
	g) A provisional specification (i.e. the one filed directly or the	
	one converted from a complete specification) may be post-	
	dated to the date of filing of the complete Specification.	
05.02.01	Provisional Specification – General	
	A Provisional Specification is not a rough draft or a skeleton of the	
	Complete Specification. The Complete Specification, which follows	
	a Provisional Specification, does not replace the latter. Both are	
	permanent and separate documents and remain so in the file.	
05.02.02	Contents of Provisional Specification	
	a) A Provisional Specification shall essentially contain the title	
	and description of the invention and shall start with a	
	preamble 'The following Specification describes the	
	invention.' Claims may not be included in the Provisional	
	Specification as the purpose of filing a Provisional	
	Specification is to claim a priority date.	

	b) The description starts from the second page starting with the	
	field of invention and containing the background of the	
	invention, object of the invention and statement of the	
	invention.	
	c) It is advisable to include in the Provisional Specification as	
	much information as the applicant has at the time of filing.	
	d) It may be noted that a Provisional Specification cannot be	
	filed in case of a Divisional, Convention or a PCT National	
	Phase Application. In such cases, filing a Complete	
	Specification is a mandatory requirement.	
05.03	Complete Specification	Section 10
	The Complete Specification is a techno-legal document which fully	
	and particularly describes the invention and discloses the best	
	method of performing the invention.	
	As the Complete Specification is an extremely important document	
	in the patent proceedings it is advised that it should be drafted with	
	utmost care without any ambiguity. The important elements of the	
	Complete Specification are further discussed below.	
05.03.01	Complete Specification	Section 10(4)
	Every complete specification shall:	
	a) fully and particularly describe the invention and its	
	operation or use and the method by which it is performed;	
	b) disclose the best method of performing the invention which	
	is known to the applicant for which he is entitled to claim	
	protection;	
	c) end with a claim or set of claims defining the scope of the	
	invention for which the protection is claimed;	
	d) make reference to deposit of the biological material in the	
	international depository authority, if applicable; and	
	e) be accompanied by an abstract.	

	In case of national phase applications, the title, description,	10(4A)
		10(4/1)
	drawings, abstract and claims filed with the international application	
	are taken as a complete specification. (For further details of the PCT	
	National Phase Applications, please see Chapter 7)	
05.03.03	Title	Rule 13(7)(a)
	The title should be sufficiently indicative of the subject matter of the	
	invention and shall disclose the specific features of the invention. It	
	need not be the same as the preamble of the main claim. It shall be	
	brief, free from fancy expressions or ambiguity and as precise and	
	definite as possible, but it need not go into the details of the	
	invention itself and should not ordinarily exceed fifteen words.	
	The following are not permissible in the title:	
	Inventor's name, the word 'Patent', words in other languages, the	
	abbreviation "etc", fancy words e.g. "Washwell Soap",	
	"Universal Rest Easy Patent Chair".	
05.03.04	Field of the Invention and use of Invention	
	The description should preferably begin with a general statement of	
	the invention so as to indicate briefly the subject matter to which the	
	invention relates, e.g. "This invention relates to".	
	Thereafter, the advantages of the invention may be mentioned to	
	bring out clearly the areas of application and preferable use of the	
	invention. The applicant may substantiate industrial applicability of	
	the invention in this part.	
05.03.05	Prior Art and problem to be solved	
	This part should indicate the status of the technology in the field of	
	invention with reference to developments in the field, patents and	
	pending patent applications in the specific art. When the invention	
	relates to an improvement on an existing product or process, a short	
	statement of the closest prior art known to the applicant shall also be	
	given. However, the description should fully and particularly	
	describe the invention, by clearly distinguishing it from such a	

	closest prior art, known to the applicant.	
05.03.06	Objects of the Invention	
	The purpose of this part is to clearly bring out the necessity of the	
	invention. It shall clearly mention the technical problems associated	
	with the existing technology and the solution for that, bringing out	
	the differences between the claimed invention and the prior art. The	
	solution sought by the invention should be clearly brought out as	
	object(s) of inventions with statements like "It has already been	
	proposed " followed by the objects which the	
	inventions has in view e.g. "The principal object of this invention is	
	", "Another object of this invention is",	
	"A further object of this invention is"etc.	
05.03.07	Summary of the Invention	
	The description should include a summary of invention before	
	giving the details of the invention and the method of performing it.	
	The statement should clearly set forth the distinguishing novel	
	features of the invention for which protection is desired. This part	
	is intended to declare different aspects of the invention.	
05.03.08	Detailed Description of the Invention	
	a) Description of an invention is required to be furnished in	
	sufficient detail so as to give a complete picture of the	
	invention and follows the Summary of invention. The nature	
	of improvements or modifications effected with respect to	
	the prior art should be clearly and sufficiently described.	
	The details of invention described should be sufficient for a	
	person skilled in the art to perform the invention. It may	
	include examples / drawings or both for clearly describing	
	and ascertaining the nature of invention. Examples must be	
	included in the description, especially in the case of	
	chemical related inventions.	
	b) The details of invention described should enable a person	

skilled in the art to reduce the invention into practice without further experimentation.

- c) Reference to the drawings should be specific and preferably in the following form: "This invention is illustrated in the accompanying drawings, throughout which, like reference numerals indicate corresponding parts in the various figures. The Specification in respect of a Patent of Addition should contain at the beginning of the description, a definite statement indicating an improvement in or modification of, the original invention, and the serial number of the Application for Patent in respect of the original invention. The Specifications should also contain a short statement of the invention as disclosed in the earlier Specification.
- d) Terms in other languages, if any, used in the description should be accompanied by their English equivalents. The use of vague slang, words and colloquialisms is objectionable and shall be avoided.
- e) When a biological material is described in the specification and when such material is not available to the public and cannot be described adequately as per the provisions of the Act, such material shall be deposited in order to make the application complete. The deposit shall be made with the International Depository Authority under the Budapest Treaty, on or before the date of filing. The International Depository Authority in India is Microbial Type Culture Collection and Gene Bank (MTCC) – Chandigarh. http://ipindia.nic.in/ipr/patent/d_inst_456.pdf.
 For further information on Microbial Type Culture Collection and Gene Bank (MTCC) please visit – http://wdcm.nig.ac.jp/CCINFO/CCINFO.xml?773]; http://www.imtech.res.in/mtcc.]

r	1		
	f)	Reference to such biological material shall be made in the	
		Specification within three months from the date of filing,	
		giving all the available characteristics of the material	
		required for it to be correctly identified or indicated	
		including the name, address of the depository institution and	
		the date and number of the deposit of the material at the	
		institution.	
	g)	Further, the source and geographical origin of the biological	
		material specified in the Specification shall also be	
		disclosed.	
	h)	In the case of Biotechnology related inventions, relevant	
		numbers of the sequence listing shall be mentioned at	
		appropriate place in the specification.	
	i)	Sequence listing should also be given in electronic form.	
		However, the fees with respect to the corresponding number	
		of pages should be paid.	
	j)	Access to the material is available in the depository	
		institution only after the date of the application of patent in	
		India.	
05.03.09	Drawi	ings	Rule 15
	a)	Drawings or sketches, which require a special illustration of	
		the invention, shall not appear in the description itself. Such	
		drawings shall be on separate sheet(s).	
	b)	Drawings shall be prepared neatly and clearly on durable	
		paper sheet.	
	c)	Drawings shall be on standard A4 size sheets with a clear	
		margin of at least 4 cm on the top and left hand and 3 cm at	
		the bottom and right hand of every sheet.	
	d)	Drawings shall be on a scale sufficiently large to show the	
		inventions clearly and dimensions shall not be marked on	
		the drawings.	
L	I		

	e)	Drawings shall be sequentially or systematically numbered	
		and shall bear—	
		i. in the left hand top corner, the name of the applicant;	
		ii. in the right hand top corner, the number of the sheets	
		of drawings, and the consecutive number of each	
		sheet; and	
		iii. in the right hand bottom corner, the signature of the	
		applicant or his agent.	
	f)	No descriptive matter shall appear on the drawings except in	
		the flow diagrams.	
05.03.10	Abstra	act	Rule 13(7)
	a)	Every complete specification shall be accompanied by an	
		abstract to provide technical information on the invention.	
		The abstract shall commence with the title of the invention.	
	b)	The abstract shall be so drafted that it constitutes an	
		efficient instrument for the purposes of searching in the	
		particular technical field, in particular by making it possible	
		to assess whether there is a need to consult the specification	
		itself.	
	c)	The abstract shall contain a concise summary of the matter	
		contained in the specification. The summary shall indicate	
		clearly the technical field to which the invention belongs,	
		technical problem to which the invention relates and the	
		solution to the problem through the invention and principal	
		use or uses of the invention. Where necessary, the abstract	
		shall contain the chemical formula, which characterizes the	
		invention.	
	d)	The abstract may not contain more than one hundred and	
		fifty words. If the specification contains any drawing, the	
		applicant shall indicate on the abstract the figure, or	
		exceptionally, the figures of the drawings which may	

	accompany the abstract when published. Each main feature	
	mentioned in the abstract and illustrated by a drawing shall	
	be followed by the reference sign used in that drawing.	
	e) The Controller may amend the abstract for providing better	
	information to third parties.	
05.03.11	Best Method	Section 10
	The Act specifically requires that the complete specification must	
	describe the best method of performing the invention known to the	
	applicant, including that, which he may have acquired during the	
	period of provisional protection prior to the date of filing the	
	complete specification.	
05.03.12	Claims	Section
	Claims define the contours of rights, if and when a patent is granted	10(4)(c)
	for an invention. Hence, claims are the most critical part of a Patent	
	Application. In a complete specification the description is followed	
	by claims. Since, claims define the scope of legal protection, it is	
	suggested that they should be drafted carefully to cover all the	
	aspects of the protection being sought at the same time adequately	
	distinguishing the prior art from the claimed invention.	
05.03.13	Unity of invention and clarity of claims	Section 10(5)
	a) Claim(s) of a Complete Specification shall relate to a single	
	invention, or to a group of inventions linked so as to form a	
	single inventive concept.	
	b) Claims shall be clear and succinct and fairly based on the matter	
	disclosed in the specification.	
05.03.14	Significance of Claims	
	a) A claim is a statement of technical facts expressed in legal terms	
	defining the scope of the invention sought to be protected. No	
	exclusivity is obtained for any matter described in the Complete	
	Specification unless it is claimed in the claims.	
	b) What is not claimed in the 'claims' stands disclaimed, and is	
l		

 open to public use, even if the matter is disclosed in the description. Claims define the boundaries of legal protection sought by the patentee and form a protective fence around the invention which is defined by the words and phrases in the claims. c) The claims shall define clearly the scope of the invention with conciseness, precision and accuracy, so that others may know the exact boundary into which they should not trespass. d) Each claim is evaluated on its own merit and, therefore, if one of the claims is objected, it does not mean that the rest of the claims are invalid. It is therefore important to make claims on all aspects of the invention to ensure that the applicant gets the widest possible protection. 05.03.15 Scope of claims a) Claims must not be too broad to embrace more than what the applicant has in fact invented. A Claim which is too broad may encroach upon the subject matter which is in public domain or belongs to others. b) However, a claim may not be too narrow also because such a Claim would not be sufficiently effective against potential infringement. An infringer would go scot-free, if the claims were too narrow and hence, the full benefit of the invention may not accrue to the inventor. c) Having many claims, where each claim has a different scope, allows the applicant to have a legal title to different aspects of the invention. A good drafting may begin with broad claims and develops towards claims that are narrower in scope. d) Terms of the claim which confuse the scope of the invention, or claims that are not specific (e.g. Any novel matter) should be avoided. 				
 sought by the patentee and form a protective fence around the invention which is defined by the words and phrases in the claims. c) The claims shall define clearly the scope of the invention with conciseness, precision and accuracy, so that others may know the exact boundary into which they should not trespass. d) Each claim is evaluated on its own merit and, therefore, if one of the claims is objected, it does not mean that the rest of the claims are invalid. e) A claim shall be for the protection of either a product or process,			avoided.	
		e)	A claim shall be for the protection of either a product or process,	

	as the case may be, and shall be in one sentence according to the
	standard practice.
05.03.16	Structure of Claims
	a) The description of invention in the complete specification is to
	be followed by a "statement of Claims" preceded by the
	prescribed preamble, "I / We Claim" as the case may be.
	b) Claims should start from a fresh page, after detailed description
	of the invention and should be serially numbered.
	c) Each claim should be in a single sentence and should be clearly worded.
	d) A claim should not be verbose.
	e) There is no restriction as to the number of claims that can be
	incorporated in the specification. Applicant has to pay
	additional fee, if total number of claims are more than ten.
	f) Each claim should be fairly based on matter disclosed in the
	specification. This means that all the characteristics of the
	invention that form part of the Claims must be fully explained
	in the description.
	g) A claim should be clear in the sense that it should not cause the
	reader to speculate. For example, if words like "thin", "strong",
	"a major part", "such as", "when required" or "any" are used,
	the reader may make a subjective judgment unless such
	expression follows some definite value.
	h) A claim must be specific and not vague, ambiguous or
	hypothetical in nature. Each claim should be complete so that it
	covers the inventive feature and enough elements around it to
	put the invention in the proper context.
	i) In Addition, any term, which is used in the claim, must be
	either found in the description or fairly inferred from the
	description.
	j) Trade Marks are an indication of the origin rather than the

composition or content of goods, and should not be used in Patent Applications where a generic term can be used instead. Trade Marks are only permitted in Claims where it can be shown that their use is unavoidable and does not introduce ambiguity. Where Marks that are registered are mentioned, they should be acknowledged as such. If a Trade Mark is not registered, its owner should be indicated.

- k) A Claim usually consists of three parts:
 - Preamble,
 - Transitional phrase; and
 - Body.
- The introductory phrase identifies the category of the invention and sometimes the purpose (for example, a machine for waxing paper, a composition for fertilizing soil).

m)The transition phrase may be words and phrases such as:

- comprising of
- including
- consisting of
- consisting essentially of
- n) If the invention is an improvement on a product or a process existing in the prior art, the invention should be distinguished very clearly by characterizing the claim with respect to the prior art. In such cases, the claim will have two parts separated by the word 'characterized by' or 'wherein'. The part coming before 'characterized by' is the prior art while that comes after will be the features of the invention. In the following example "A data input device" is the introductory phrase, "comprising" is the transition phrase, and the rest of the claim is the body:

"A data input device comprising: an input surface adapted to be locally exposed to a pressure or pressure force, a sensor means disposed below the input surface for detecting the position of the pressure or pressure force on the input surface and for outputting an output signal representing said position and; an evaluating means for evaluating the output signal of the sensor means."

- o) The first claim is always an independent claim also known as 'Principal Claim'. It should clearly define the essential novel features of the most preferred embodiment of the process/product that constitutes the invention. The claim may be properly characterized with respect to the 'prior art', defining all the technical features essential to the invention or inventive concept. The claim should bring out sufficient details of interrelationship, operation or utility to establish that the invention achieves the intended objectives.
- p) There may be more than one independent claim in a single application if the claims fall under a single inventive concept.
 While there is no restriction as to the number of claims, including independent claims, it is advisable to limit the number of claims, as well as the number of independent claims in a single application so that the claims are all of cognate character and are linked so as to form a single inventive concept. Inclusion of multiple independent claims directed at noncognate aspects of the claimed invention is not desirable. If claims relate to a plurality of distinct invention.
- q) A dependent claim derives antecedence from an independent claim and reads into it the features of the independent claim and may contain additional non-essential features and even the minute aspects and optional features. As for example:

"A wrapper as claimed in Claim 1, wherein a narrow area of the tear tape, spaced from each edge of the tear-tape, is united to a narrow area of the wrapper defined on each side by a line of

	perforations which are covered by the outer portions of the tear-	
	tape, the perforations facilitating tearing of the wrapper to	
	remove the portion bounded to the tear-tape."	
	"A gramophone record according to Claim 1, wherein the	
	percentage of filler employed in the record is from 1 to 70 per	
	cent."	
	"A tool according to Claim 1, wherein the means for guiding	
	the tool and facilitating the removal of the waste metal and the	
	means for preventing the distortion of the spindle comprise two	
	separate plates slidable and removable mounted on the spindle".	
	r) Further independent claims are justified where the single	
	inventive concept covers more than one category e.g. process,	
	product, complementary versions within one category e.g. plug	
	and socket, transmitter and receiver, which work only together.	
	s) Claims should not contain:	
	i. A claim which is unsearchable by reason of the number of	
	alternatives embraced, or the choice of characterizing	
	parameters.	
	ii. Dependent Claims that are not fully limited by the terms	
	of the preceding independent claim, e.g. dependent claims	
	which omit, modify or substitute a feature of an	
	independent claim.	
	t) The practice of including an omnibus claim does not have any	
	legal basis under the Patents Act. In fact, such a claim cannot be	
	allowed as per Section 10(4)(c) of the Act. As such claims are	
	unclear, vague and unsearchable, it is desirable to avoid	
	omnibus claims in a patent application.	
05.04	Priority of a claim	Section
	Each claim of a complete specification shall have a priority date. If	2(1)(w), 11
	the complete specification is filed along with the application, the	
	date of filing of the application is the date of the priority of the	

	claim(s) of the specification if the claim(s) are fairly based on the	
	matter disclosed in the specification.	
05.04.01	General	Section 9, 11
	a) When a Complete Specification is filed pursuant to a	
	Provisional Specification, the priority date thereof shall be	
	the date of filing of the provisional application.	
	b) When a complete specification is filed based on two or more	
	provisional specifications which are cognate, the priority	
	dates for claims arising from each of the provisional	
	specifications will be the date of the respective provisional	
	specification.	
	c) When a complete specification is converted into a	
	provisional specification and a fresh complete specification	
	is filed thereafter, the priority date of claims shall be the	
	date of disclosure of the relevant specification in which the	
	claimed subject matter was first disclosed.	
	d) When a complete specification is filed after the provisional	
	specification, the Controller may on the request of the	
	applicant made any time before the grant, cancel the	
	provisional specification and post-date the provisional	
	specification to the date of complete specification.	
	e) If the Claim is fairly based on the matter disclosed partly in	
	one and partly in another such previous application	
	accompanying provisional specification, the priority date of	
	the claim shall be the date of the later filed Specification.	
	f) Where a complete specification based on a previously filed	
	application in India has been filed within twelve months	
	from the date of that application and the claim is fairly	
	based on the matter disclosed in the previously filed	
	application, the priority date of that claim shall be the date	
	of the previously filed application in which the matter was	

	first disclosed.	
	g) A claim in a complete specification of a patent shall not be	
	invalidated by the reason only of:	
	a. the publication or use of the invention so far as	
	claimed in that claim on or after the priority date of	
	such claim; or	
	b. the grant of another patent which claims the	
	invention, so far as claimed in the first mentioned	
	claim, in a claim of the same or a later priority date.	
05.04.02	Divisional application	Section 11(4)
	In case of a Divisional Application, priority date of the claim(s) is	
	the date of filing of the first mentioned application.	
05.04.03	Convention application	Section 11(6),
	The priority date of the claim(s) of a convention application is the	135
	date of filing of the basic application filed in the convention	
	country.	
05.04.04	Effect of Priority Date of a Claim	Section 11(8)
	The novelty of a claim is dependant on its date of priority. Nothing	
	published on or after the date of priority of a claim can be cited to	
	destroy the novelty of that invention.	

Chapter 6

Divisional Application and Patent of Addition

06.01	Divisional Application	
06.01.01	General	Section 16(1)
	An applicant may, at any time before the grant of a patent, if he so	
	desires, or with a view to remedy the objection raised by the	
	Controller on the ground that claims of a complete specification	
	relate to more than one invention, may divide the application and	
	file further application(s) in respect of invention(s) disclosed in the	
	provisional or complete specification already filed. Examination of	
	a divisional application is always done vis-à-vis the main	
	application. If two or more divisional applications are filed based on	
	a main application, examination of the second or subsequent	
	divisional application shall be done vis-à-vis the main application,	
	and the other divisional application(s), examined earlier, to avoid	
	double patenting. The whole patent family, in such cases, is	
	available to the Examiner on the Official database.	
	The date of filing of a divisional application shall be the same as	
	that of the main application, from which it has been divided.	
	The term of patent for a divisional application shall be twenty years	
	from the date of filing of main application or international filing	
	date in case the application was divided out of National phase	
	application under PCT.	
06.01.02	Contents	Section 16(3)
	The Divisional Application should be accompanied by a Complete	
	Specification. The Divisional Application(s) shall not include any	
	matter not in substance disclosed in the main application. The main	
	application and the Divisional Application(s) may be amended to	
	ensure that neither of the complete specifications includes a claim	

	for any matter claimed in the other.	
06.01.03	Priority	Section 16,
	The Divisional Application is treated as a substantive Application	Explanation
	and is accorded the date of filing of the main Application along	Section 11(4)
	with a separate application number.	
	The Claims of Divisional Application shall have the same priority	
	date as that of the main application. A divisional application shall	
	be examined vis-à-vis the first mentioned application (main or	
	parent) so as to avoid claim overlap resulting in double patenting.	
	A divisional application is treated as a substantial application in the	
	sense that:	
	a) separate fee(s) is required to be paid;	
	b) separate request for examination requires to be made;	
	c) it can be prosecuted separately;	
	d) it results in an independent patent.	
06.01.04	Appropriate office	Rule 4
	If a divisional application is filed in a jurisdiction other than that of	
	the main application, the Examination is done vis-à-vis the main	
	application.	
06.01.05	Reference	Rule 13(2)
	The Complete Specification accompanying the Divisional	
	Application shall contain a specific reference to the main	
	application number.	
06.01.06	Fee	Section 16
	For all purposes under the Patents Act, the Divisional Application	
	is treated as a substantive application and, hence all fee applicable	
	to a patent application shall be payable.	
06.02	Patent Of Addition	
06.02.01	General	Section 54, 55
	a) When an applicant comes up with an improvement or	
	modification of the invention described or disclosed in main	

	application for which he has already applied for or has alternat	
	application for which he has already applied for or has obtained	
	a patent, the applicant may make an application for patent of	
	Addition.	
	b) An Application for a Patent of Addition shall be filed on the	
	same or subsequent date of filing of the Application for main	
	Patent.	
	c) A Patent of Addition shall be granted only after the grant of the	
	main patent.	
	d) When a patentee holds two patents, it is possible to convert one	
	of the independent patents to a patent of addition of the other, if	
	the subject matter was an improvement in or modification to the	
	other patented invention.	
	e) There is no need to pay separate renewal fee for the Patent of	
	Addition during the term of the main patent.	
	f) A patent of addition expires along with the main patent.	
	However, if the main patent is revoked, the patent of addition	
	may be converted into an independent patent, if so requested by	
	the patentee.	
	g) Date of filing shall be the date on which the application for	
	patent of addition has been filed.	
06.02.02	Novelty and inventive step	Section 56
	An application for Patent of Addition cannot be challenged on the	
	ground of lack of inventive step with respect to the disclosure in	
	the main application or patent. But the disclosure in main	
	application or patent may be cited for novelty against the	
	application for patent of addition.	
06.02.03	Reference	Rule 13(3)
	The complete specification of application for patent of addition	· · · ·
	shall include specific reference to the number of main patent or the	
	application for main patent, as the case may be, and a definite	
	statement that the invention comprises an improvement in, or a	
	succession on prises of improvement in, or a	

modification of the invention claimed in the specification of the	
main patent, granted or applied for.	

Chapter 07

Convention Application, International Application and National Phase Application

07.01	Convention Application	
07.01.01	Paris Convention and WTO Agreement	Section 133
	1. This part is directed to applications for patents that enter	
	India through Paris Convention as well as PCT route.	
	2. Paris Convention of 1883 provides reciprocity in filing with	
	right of priority. India became member of Paris Convention	
	in 1998.	
	3. India is also a member of WTO Agreement (1995).	
	4. India is also a member of Budapest Treaty on the	
	International recognition of the deposit of micro-organism	
	for the purpose of patent procedure (1977) and provides a	
	mechanism for depositing biological material in the	
	internationally recognized depository authorities for the	
	purposes of supplementing the description of a Specification.	
	5. India is also a member of Patent Co-operation Treaty.	
07.01.02	Convention Country	Section
	Any country, which is a signatory or party or a group of countries,	2(1)(d), 133,
	union of countries or inter-governmental organizations which are	134
	signatories or parties to an international, regional or bi-lateral treaty,	
	convention or arrangement to which India is also a signatory or party	
	and which affords to the applicants for patents in India or to citizens	
	of India similar privileges as are granted to their own citizens or	
	citizens to their member countries in respect of the grant of patents	
	and protection of patent rights shall be a convention country or	
	convention countries for the purposes of this Act.	

07.01.04	Documents to be submitted	Section 136,
	inventions.	
	applications have been made in respect of each of the said	
	respect of such application shall be the same as if separate	
	applications for protection. However, the fee payable in	
	twelve months from the date of the earliest of the said	
	be made in respect of those inventions at any time within	
	modification of another, a single convention application may	
	inventions which are cognate or of which one is a	
	more convention countries in respect of two or more	
	b) Where applications for protection have been made in one or	
	the earlier or earliest of the said applications was made.	
	in this sub-section shall be reckoned from the date on which	
	similar protection in respect of an invention in two or more convention countries, the period of twelve months referred to	
	the basic application. Where applications have been made for	
	disclosed in the basic application, is the date of making of	
	the complete specification, being a claim based on matter	
	basic application was made, the priority date of a claim of	
	for a patent within twelve months after the date on which the	
	assignee of that person makes an application under this Act	
	application), and that person or the legal representative or	
	respect of an invention in a Convention country (basic	
	a) Where a person has made an Application for a Patent in	
07.01.03	Convention Application	Section 135
	purposes of the Act.	
	convention/treaty/agreement are convention countries for the	
	union of countries or inter-governmental organizations which are members/contracting states to the above	
	Paris Convention and a contracting state to the PCT. Any country,	
	At present, India is a member of WTO and a member country in the	

	Every convention application shall -	138.
	a) be accompanied by a complete specification;	Rule 121
	b) an abstract;	
	c) specify the date on which and the convention country in	
	which, the application for protection, or as the case may be,	
	the first of such applications was made; and	
	d) state that no application for protection in respect of the	
	invention had been made in a convention country before that	
	date by the applicant or by any person from whom he	
	derives title.	
	e) a complete specification filed with a convention application	
	may include claims in respect of developments or, additions	
	to, the invention in respect of which the application for	
	protection was made in a Convention country.	
	f) If the Controller requires, a certified copy of the priority	
	document has to be filed within 3 months from the date of	
	communication by the Controller, of such requirement. If	
	the priority document is in a language other than English, a	
	verified English translation shall be submitted.	
07.01.05	Multiple priorities	Section
	a) When two or more applications for patents constituting one	135(2), 137
	invention have been made in one or more convention countries,	
	one application may be made within twelve months from the	
	date on which the earlier or earliest of those applications was	
	made.	
	b) The priority date of a claim is the date on which the matter was	
	first disclosed in a patent application.	
07.01.06	Other conditions	Section 136,
	a) The term of patent of a convention application shall be twenty	139
	more from the date of filing of the Application in India	
	years from the date of filing of the Application in India.	

	Application shall have the same priority date.	
	c) A Convention Application shall not be post-dated under sub-	
	section (1) of section 17 to a date later than the date on which	
	under the provisions of this Act the application could have been	
	made.	
07.02	International Application under PCT	
07.02.01	PCT International application by Indian applicant	Section 39
	An Indian applicant can file a PCT International application in the	
	following manner:	
	a) Filing in the Indian Patent Office acting as Receiving Office. In	
	such cases, it is advisable that the application be accompanied	
	by permission for foreign filing granted u/s 39 by the Controller.	
	If such permission is sought along with the application, there is	
	a probability that the permission may be deferred and the	
	application may be referred to DRDO / Department of Atomic	
	Energy for their directions.	
	b) Filing directly in the International Bureau of WIPO after taking	
	permission u/s 39 from the Indian Patent Office.	
	c) After filing a patent application in India, anytime before the	
	expiry of 12 months from the date of filing, file an international	
	in IB of WIPO or in Indian Patent Office as Receiving Office.	
	However, if the international filing is within 6 weeks from the	
	date of filing in India, such filing shall be made after taking	
	permission u/s 39 from the Indian Patent Office.	
07.02.02	Indian Patent Office as Receiving Office	Section
	a) An international patent application can be filed in Indian Patent	2(1)(ia),
	Office as a Receiving Office, in request form (PCT / RO / 101)	7(1A), 39
	in triplicate, which can be obtained free of charge from the	PCT/RO/101
	Receiving Office or from the International Bureau of WIPO or	
	can be downloaded from WIPO website.	
	b) In this case, the applicant shall make request for permission	

under Section 39. After the grant of such permission, the Indian Patent Office shall transmit the patent application to the IB. Applicant has to pay the prescribed transmittal fee in addition to the International Application fee and search fee. International Bureau as Receiving Office An international patent application can be directly filed in IB along with the prescribed fee, in request form (PCT / RO / 101), in duplicate. Permission u/s 39 is required for filing directly in IB. Such an application may also be filed electronically. as contained in the request in electronic form and copy of the	PCT.
abstract.	РСТ
c) The request should contain a petition, i.e., a request that the	Applicant's
International Application be processed according to the PCT.	Guide
d) It should further contain the title of the invention with necessary	(International
data concerning the applicant, the inventor and the agent	Phase,
representing the applicant. It must be signed by the applicant or	National
his agent. Declaration of inventorship should be signed by the	Phase).
inventor(s) / the applicants in convention country, as applicable,	
and not by the agent. Where there are two or more applicants,	
each applicant should sign at his choice either the request or, if	
the request is signed by an agent, a separate power of attorney.	
The request should also contain details of priority (where	
applicable) and an indication of competent International	
Searching Authority. Following are the competent International	
Searching Authorities for an Indian Applicant:	
i. Austrian Patent Office (AT)	
ii. Australian Patent Office (AU)	
iii. European Patent Office (EP)	
iv. China Intellectual Property Office (CN)	
v. United States Patent & Trademark Office (US)	
vi. Swedish Patent Office (SE)	
e) The request may contain some optional indications, in	
particular, a priority claim according to the Paris Convention for	
the Protection of Industrial Property.	
f) A certified copy of the priority document is required for each	
priority claimed in the application and the same is to be	
	,

furnished within 16 months from the priority date. The copies for the designated offices are prepared by the International Bureau at no additional cost to the applicant.

- g) It is important to note that International Application filed under new Section 801 (administrative section of PCT) may only be filed with Receiving Offices, which are prepared to accept them, and on such electronic media specified by the Receiving Offices (for further details please see PCT Applicant's Guide).
- h) Language of International Application must be one, which the Receiving Office accepts for that purpose (Rule 12.1(a) of Regulations under the PCT). If Application is filed in any Receiving Office in India it has to be either in English or Hindi. However, an application in Hindi shall be accompanied by a duly verified English translation.
- i) Neither the Treaty nor the Regulations enumerate the languages in which International Applications may be filed. Whether a given language can be used depends on the readiness of the Receiving Office to accept International Applications in that language. Each Receiving Office must, however, accept at least one language for the filing of International Applications, which is both a language accepted by at least one International Searching Authority, competent for the International searching of International Applications filed with that Receiving Office and one of the language of Publication (i.e. Chinese, English, French, German, Japanese, Spanish, Russian or Arabic). In other words, either the International Application in its original language or the translation will be sufficient for the processing by the Receiving Office, for International search and for International publication.
- j) The request must always be filed in a language that is accepted by the Receiving Office and which is also one of the eight

languages of publication.

- k) Claims: The Claims must define the subject matter of the invention for which protection is sought. They must be clear and concise and fully supported by the description.
- With respect to the structure and drafting of Claims, the PCT requirements are largely similar to what is accepted in most Patent Offices.
- m) Drawings: The drawings are only required where they are necessary for the understanding of the invention. This will be the case for example for an engineering type of invention. It will not be the case when an invention cannot be drawn, as is the case for a chemical product. Here again, the requirements are similar to those of most Patent Offices.
- n) Abstract: The abstract is intended to serve the purpose of technical information. The Treaty says clearly that it cannot be taken into account for any other purpose. This means in particular that it cannot be used for the purpose of interpreting the scope of the protection sought.
- o) The abstract consists of a concise summary of the disclosure of the invention as contained in the description, Claims and drawings in preferably within 50 to 150 words. It must be drafted in a way, which allows the clear understanding of the technical problem, the gist of the solution of that problem through the invention, and the principal use of the invention.
- p) Sequence Listing: PCT allows a Designated Office to require that a copy of a sequence listing be filed only on an electronic medium.
- q) For the applicants who do not wish to file the sequence listing part of their International Applications under new Section 801 (administrative section of PCT), the current provisions will continue to apply, including the filing in written form only

	(under Rule 5.2) and the concurrent or subsequent furnishing, as	
	provided under PCT Rule 13 and Section 208, of the sequence	
	listing parts in computer readable form but only for the purposes	
	of International search and / or International preliminary	
	examination. In such cases the current system for calculating the	
	basis fee, on the basis for the total number of sheets of the	
	International Application including the sequence listing part,	
	will continue to apply.	
	r) Guidelines for preparing/drafting an International patent	
	application are provided in PCT Applicant's Guide.	
07.02.04	Functions of Indian Patent Office as Receiving Office	
	1. Patent Office receives the PCT International Application	Section 35.
	from the applicant or from his authorized Agent.	Article 3, 4,
	2. The Office accords the date of receipt of international	11, 14 of PCT.
	application as the international filing date, provided that the	PCT
	Office has found that, at the time of receipt:	Receiving
	i. The applicant does not obviously lack, for reasons of	Office
	residence or nationality, the right to file an	Guidelines
	international application with the Office.	
	ii. The international application is in the prescribed	
	language.	
	iii. The international application contains at least the	
	following elements:	
	- an indication that it is intended as an international	
	application,	
	- the designation of at least one contracting state,	
	- the name of applicant, as prescribed,	
	- a part which on the face of it appears to be a	
	description, a part which on the face of it appears to	
	be claim(s).	
	3. (a) If the Office finds that the international application did	
·		

not, at the time of receipt, fulfill the requirement listed in	
para 2 above, the Office, as provided in the regulations,	
invites the applicant to file the required correction.	
(b) If the applicant complies with the invitation, as provided	
in the regulations, the Office accords the date of receipt of	
the required correction as the international filing date.	
4. (a) Then the Office checks whether the International	
Application contains any of the following defects:	
i. it is not signed as provided in the regulations,	
ii. it does not contain the prescribed indications	
concerning the applicant,	
iii. it does not contain a title,	
iv. it does not contain an abstract,	
v. it does not comply to the extent provided in the	
regulations with the prescribed physical requirements.	
(b) If the Office finds any of the above defects, it invites the	
applicant to correct the international application as soon as	
possible, ordinarily within one month from the date of	
filing, giving a time limit of two months for correction. If	
the applicant fails to make correction within the prescribed	
time limit of two months or the time limit as extended by	
the Office, the application shall be considered withdrawn	
and the Office declares so.	
(c) If the international application refers to drawings which,	
in fact, are not included in that application, the Office	
notifies the applicant accordingly and if the applicant	
furnishes the same within two months or within the time	
limit as may be extended by the Office, the international	
filing date shall be the date on which the drawings are	
received by the Office. Otherwise, any reference to the said	
drawings shall be considered non-existent.	

(d) If the Office finds that within the prescribed time limits the fee prescribed under Art.3(4)(iv) has not been paid, or no fee prescribed under Art.4(2) has been paid in respect of any of the designated states, the international application shall be considered to be withdrawn and the Office declares so.

(e) If the Office finds that fee prescribed under Art.4(2) has been paid in respect of one or more (but less than all) designated states within the prescribed time limit, the designation of those states in respect of which it has not been paid within the prescribed time limit shall be considered and the Office declares so.

(f) If, after having accorded an international filing date to the international application, the Office finds, within the prescribed time limit, that any of the requirement listed in 2(i to iii) above, was not complied with at that date, the application shall be considered as withdrawn and the Office declares so.

- 5. If the language of filing of the International Application is the one acceptable to the Office but not acceptable by the International Searching Authority to carry out International search, the applicant is required to furnish, within one month from the filing date of the Application, the translation into a language among the following:
 - a language accepted by the International Searching Authority to carry out International search;
 - a language of publication by IB (Arabic, Chinese, English, French, German, Japanese, Korean, Portuguese, Russian or Spanish)
- 6. In cases, where the applicant fails to furnish, within the applicable time limit, a translation for the purpose of

International search, the Office invites the applicant to furnish the missing translation. Where the applicant does not furnish the missing translation within the time limit fixed in the invitation, the International Application will be considered withdrawn and the Office declares so.

- 7. Not all the requirements of the International Application are required to be examined by the Office. For instance, the Office does not deal with substantive questions such as, whether the disclosure of the invention in the Application is sufficient and whether the requirement of unity of invention is complied with. It also does not check all the many detailed physical requirements of the International Application.
- 8. Those requirements are only checked to the extent that compliance with such requirements is necessary for the purpose of reasonably informed International publication.
- 9. Typical examples of defects, which may be corrected without affecting the International filing date, are:
 - Non-payment or partial payment of fees;
 - Lack of signature in the request;
 - Lack of a title of the invention;
 - Lack of an abstract;
 - Physical defects.

However, in all such cases, non-correction within the prescribed time limit may lead to the Application being considered withdrawn as mentioned in the foregoing paragraphs.

- 10. All the actions as regards to non compliance of the requirements of the International PCT application are subject to strict observance by the Patent Office of the PCT Receiving Office Guidelines.
- 11. The Office then transmits the "record copy" of the

	<u> </u>	
	International Application to the International Bureau and the	
	"search copy" to the International Searching Authority. The	
	Office keeps a third copy, the "home copy". The transmittals	
	do not take place if, and as long as, national prescriptions	
	concerning national security apply and the provisions of	
	Section 35 follow.	
	12. The Office then mails the record copy promptly to the	
	International Bureau and in any case not later than five days	
	prior to the expiration of the 13th month from the priority	
	date.	
	13. The search copy must be transmitted by the Office to the	
	International Searching Authority at the time of transmittal of	
	the record copy to the International Bureau except, where the	
	search fees has not been paid on time, in which case, the	
	transmittal of search copy takes place after that fees has been	
	paid.	
07.02.05	PCT Fee (may vary from time to time)	ule 16 <i>bis</i> of
	1. All PCT fees are subject to change periodically. For latest R	egulations
	fees, please refer the latest PCT newsletter at URL un	nder the
	www.wipo.int.	CT.
	2. Transmittal fee: as given in the First Schedule.	
	3. Failure to pay fees or underpayment of fees can be corrected	
	under PCT rule 16 bis. An invitation to pay missing fees will	
	be issued by the Receiving Office. Payment can be made	
	within a month from International filing date or later with a	
	late payment fee.	
	4. An Indian applicant, for filing an International Application	
	under Patent Cooperation Treaty, is required to remit the	
	consolidated amount towards International filing fee and	
1		
	search fee in US Dollar by Demand Draft, payable to the	
	search fee in US Dollar by Demand Draft, payable to the Controller of Patents at State Bank of India, New York	

		Branch. Transmittal Fee payable to the Indian Patent Office	
		shall be paid in INR to the Controller of Patents, preferably	
		along with the application but not later than one month from	
		the date of receipt of the International Application.	
07.02.06	Interr	national Search	Article 15, 16,
	1.	International Search report is established by the International	17, 18, 19 of
		Searching Authority designated by the applicant in	PCT.
		International Application. The International Searching	
		Authority provides a written opinion on patentability along	
		with the International Search Report.	
	2.	If the International Application did not claim priority of a	
		previously filed Indian Patent Application, the International	
		search report is normally available within nine months from	
		the International filing date. If priority is claimed, that report	
		is available usually by the 16th month from the priority date.	
		Even where priority is claimed, the International search	
		report is normally available in time before publication of the	
		International Application. This allows time for the applicant	
		to withdraw the Application before publication, if desired.	
	3.	On receipt of the International Search Report the applicant	
		may amend the Claims (under Article 19) in light of the	
		International Search Report with effect in all designated	
		States. The time limit referred to in Article 19 is two months	
		from the date of transmittal of the international search report	
		to the International Bureau and to the applicant by the	
		International Searching Authority, or 16 months from the	
		priority date, whichever time limit expires later. However,	
		any amendment made under Article 19 which is received by	
		the International Bureau after the expiration of the applicable	
		time limit is considered to have been received by the Bureau	
		on the last day of the time limit if it reaches before the	

		technical preparations for international publication have been		
		completed.		
	4.	Such amendments save costs for preparation of different sets		
		of amendments and for local Agents filing such amendments		
		before Designated Offices.		
	5.	Indian Patent Office has been recognized as an International		
		Searching Authority (ISA) and an International Preliminary		
		Examining Authority (IPEA) at the meeting of the General		
		Assemblies of WIPO held in September – October, 2007.		
	6.	Once the Indian Patent Office commences operation as an		
		ISA and an IPEA, the International search and examination		
		reports of the International Applications filed in the Patent		
		Office will be issued by the Office.		
07.02.07	Withd	Irawals in International Application		
	Withd	Withdrawal of Application		
	1.	The applicant may withdraw the international application at	20(1),	
		any time prior to the expiration of 30 months from the	21(2)(a),	
		priority date.	23(2), 39(1),	
	2.	Withdrawal shall be effective on receipt of a notice addressed	40(2) of PCT.	
		by the applicant, at his option, to the International Bureau, to	Rule 4.15(b),	
		the Receiving Office or, where Article 39(1) applies, to the	45 <i>bis</i> .8,	
		International Preliminary Examining Authority.	53.8(b), 90 <i>bis</i> ,

months from the priority date. Withdrawal of the designation of a State which has been elected shall entail withdrawal of the corresponding election under Rule 90*bis*.4.

- 2. Where a State has been designated for the purpose of obtaining both, a national patent and a regional patent, withdrawal of the designation of that State shall be taken to mean withdrawal of only the designation for the purpose of obtaining a national patent, except where otherwise indicated.
- 3. Withdrawal of the designations of all designated States shall be treated as withdrawal of the international application under Rule 90*bis*.1.
- 4. Withdrawal shall be effective on receipt of a notice addressed by the applicant, at his option, to the International Bureau, to the Receiving Office or, where Article 39(1) applies, to the International Preliminary Examining Authority.
- 5. No international publication of the designation shall be effected if the notice of withdrawal sent by the applicant or transmitted by the Receiving Office or the International Preliminary Examining Authority reaches the International Bureau before the technical preparations for international publication have been completed.

Withdrawal of Priority Claims

- The applicant may withdraw a priority claim, made in the international application under Article 8(1), at any time prior to the expiration of 30 months from the priority date.
- 2. Where the international application contains more than one priority claim, the applicant may exercise the right provided for in paragraph (a) of PCT Rule 90*bis*3 in respect of one or more of the priority claims.
- 3. Withdrawal shall be effective on receipt of a notice addressed

by the applicant, at his option, to the International Bureau, to the Receiving Office or, where Article 39(1) applies, to the International Preliminary Examining Authority.

- 4. Where the withdrawal of a priority claim causes a change in the priority date, any time limit which is computed from the original priority date and which has not already expired shall, subject to paragraph (e) of PCT Rule 90*bis*3, be computed from the priority date resulting from that change.
- 5. In the case of the time limit referred to in Article 21(2)(a), the International Bureau may nevertheless proceed with the international publication on the basis of the said time limit as computed from the original priority date if the notice of withdrawal sent by the applicant or transmitted by the Receiving Office or the International Preliminary Examining Authority reaches the International Bureau after the completion of the technical preparations for international publication.

Withdrawal of Supplementary Search Request

- 1. The applicant may withdraw a supplementary search request at any time prior to the date of transmittal to the applicant and to the International Bureau, under Rule 45*bis*.8(a), of the Supplementary International Search Report or the declaration that no such report will be established.
- 2. Withdrawal shall be effective on receipt, within the time limit under paragraph (a) of PCT Rule 90*bis.3bis*, of a notice addressed by the applicant, at his option, to the Authority specified for supplementary search or to the International Bureau, provided that, where the notice does not reach the Authority specified for supplementary search in sufficient time to prevent the transmittal of the report or declaration referred to in paragraph (a) of PCT Rule 90*bis.3bis*, the

communication of that report or declaration under Article 20(1), as applicable by virtue of Rule 45*bis*.8(b), shall nevertheless be effected.

Withdrawal of the Demand, or of Elections

- 1. The applicant may withdraw the demand or any or all elections at any time prior to the expiration of 30 months from the priority date.
- 2. Withdrawal shall be effective upon receipt of a notice addressed by the applicant to the International Bureau.
- 3. If the notice of withdrawal is submitted by the applicant to the International Preliminary Examining Authority, that Authority shall mark the date of receipt on the notice and transmit it promptly to the International Bureau. The notice shall be considered to have been submitted to the International Bureau on the date marked.

Signature

- 1. Any notice of withdrawal referred to in Rules 90*bis*.1 to 90*bis*.4 shall, subject to paragraph (b) of PCT Rule 90*bis*.5, be signed by the applicant or, if there are two or more applicants, by all of them. An applicant who is considered to be the common representative under Rule 90.2(b) shall, subject to paragraph (b), not be entitled to sign such a notice on behalf of the other applicants.
- 2. Where two or more applicants file an international application which designates a State whose national law requires that national applications be filed by the inventor and where an applicant for that designated State who is an inventor could not be found or reached after diligent effort, a notice of withdrawal referred to in Rules 90*bis*.1 to 90*bis*.4 need not be signed by that applicant ("the applicant concerned") if it is signed by at least one applicant and

	ways. It is optional for the applicant and provides, in addition	
	to the International Search Report, a second opinion on the	
	usual criteria of patentability before expenses are incurred for	
	the national phase (for translation, fees and foreign Agents	
	etc.).	
2.	Helps the applicant to adapt the International Application in	
	accordance with the results of the International Search	
	Report;	
3.	If the report is negative, the applicant may decide to abandon	
	the Application. However, the opinions from ISA & IPEA	
	are non-binding on the member countries.	
Intern	ational Preliminary Examining Authorities	
For an	Indian Applicant, the following are competent International	
Prelim	inary Examining Authorities (IPEAs):	
1.	Austrian Patent Office (AT)	
2.	Australian Patent Office (AU)	
3.	European Patent Office (EP) (Only if ISA was AT, EP or SE)	
4.	China Intellectual Property Office (CN)	
5.	United States Patent & Trademark Office (US)	
6.	Swedish Patent Office (SE)	
Dema	nd for International Preliminary Examination	
1.	The demand for international preliminary examination shall	
	be made separately from the international application.	
2.	The demand for international preliminary examination may	
	be made to the Indian Patent Office, International Bureau or	
	to any of the six competent International Preliminary	
	Examining Authorities mentioned above.	
3.	The demand shall contain the prescribed particulars and shall	
	be in the prescribed language and form.	
4.	The demand shall be subject to the payment of the prescribed	

	fees within the prescribed time limit.	
	_	
	5. The demand for International Preliminary Examination has to	
	be made:	
	a. Within 22 months from the date of priority, or	
	b. Within 3 months from the date of transmittal of	
	International Search Report and written opinion to the	
	applicant or the declaration under Article 17(2),	
	whichever is later.	
	6. The fees to be paid by the applicant is given in the PCT	
	Newsletter which is available on the WIPO website,	
	www.wipo.int.	
07.03	PCT National Phase Application	
07.03.01	General	Article 22, 23
	1. The national phase follows the international phase. It is	of PCT.
	necessary for an applicant to file a national phase application	
	in each designated country, where protection is sought for,	
	within the time prescribed under PCT, i.e., within 30 months	
	from the priority date. However, this time limit may be	
	increased through National Laws by each member Country.	
	Indian Patent Law provides a time limit of 31 months from	
	the priority date. Some countries allow extension of such	
	time limit on payment of additional fee.	
	2. For making a national phase application before a Designated	
	Office, the applicant shall:	
	a. pay the prescribed national fee; and	
	b. file a duly verified translation of the basic application,	
	if necessary.	
	3. International filing date is the deemed date of filing in India	
	if the applicant enters the national phase in India by filing a	
	National Phase Application within thirty one months from	
	the date of priority.	

	4.	The international filing allows the preservation of priority	
		from the date of filing of first application in the convention	
		country.	
	5.	This is a simple and economical procedure for the applicants	
		seeking protection for their invention in many countries.	
	6.	After the International Application is filed, the applicant	
		gets an International Search Report (ISR) and a written	
		opinion on the patentability of the subject matter. The	
		applicant may file a demand for an International Preliminary	
		Examination. The applicant, then, may decide to enter a	
		national phase.	
07.03.02	Basic	Requirements to enter National Phase in India	Section 7,
	1.	A PCT National Phase Application is considered as a	10(4A),
		Convention Application under Section 135 of which the	135, 138(4).
		filing date is the date of International Application.	Rule 20, 21.
	2.	The applicant has to file the National Phase Application	Form-6, 13,
		within 31 months from the priority date or International	18.
		Application date, whichever is earlier.	Rule 17.1 (a or
	3.	The jurisdiction of filing is the same as that of the ordinary	b) of PCT
		Application. Address for service in India shall be filed.	Regulations.
	4.	Where the International Application has not been filed or	
		published in one of the official languages (Hindi or English),	
		a translation of the application, description, claims (if	
		amended, both as originally filed and amended together with	
		any statement), drawings, if any, and abstract should be	
		submitted along with the Application.	
	5.	For the National Phase Application, the title, description,	
		drawings, abstract and claims as filed with the International	
		Application under PCT shall be taken as the Complete	
		Specification. However, if the applicant has amended the	
		Complete Specification under Chapter-I and/or Chapter-II of	
			•

the PCT, such amended specification shall be taken as the Complete Specification for the purpose of filing in India. The applicant may make a request to the Controller for amendment of the complete specification which was filed with the National Phase Application, as a separate request in Form-13, along with the application. The fee payable in respect of a National Phase Application is calculated as per the number of pages and claims as they stand in the PCT Application on the date of filing in India. Section 138(4) read with Rule 7(2)(c) mandates that the applicant shall pay the whole fee along with the application, based on such PCT International Application.

- 6. If the applicant makes an amendment for an International Application before ISA and/or IPEA, it shall, if the applicant so desires, be taken as an amendment before the Patent Office.
- In case of a change in name of an applicant, if the change has occurred after the international filing date and has not been reflected in a notification from the International Bureau (Form PCT/IB/306), the change may be effected by filing Form 6 and/or Form 13.
- 8. If PCT/IB/304 is available on the website of WIPO, the Patent Office shall not require the applicant to submit the priority document. If not available on the website of WIPO, the Office may request for the same from the International Bureau.
- 9. However, if the applicant has not complied with the requirements of rule 17.1 paragraph [a or b] of the regulations made under the PCT, he shall submit the priority document to the office before the expiry of thirty one months from the date of priority.

10. Where the applicant does not comply with the requirements	
of (9) above, the Controller shall invite the applicant to file	
the priority document or the translation thereof within three	
months from the date of such invitation. If the applicant fails	
to do so, the claim of the applicant for the priority shall be	
disregarded for the purposes of the Act.	
11. All other formalities that are required for filing and	
processing an ordinary patent application shall apply to a	
National Phase Application.	
12. Processing of a national phase Application will not	
commence before the expiry of 31 months from the date of	
priority. However, the applicant may file an express request	
for processing before 31 months, in Form 18.	

Chapter 08

Examination & Grant

08.01	Request for Examination	Section 11B,
	1. An Application for a Patent will not be examined	35.
	unless the applicant or any other person interested	Rule 24B.
	makes a request for examination. The request is to be	Form-18.
	filed in Form 18 with the fee as prescribed in First	First
	Schedule.	Schedule.
	2. A request for examination has to be made within fort	y-
	eight months from the date of priority of the	
	application or from the date of filing of the	
	application, whichever is earlier. If no such request	
	for examination is filed within the prescribed time	
	limit, the application shall be treated as withdrawn b)y
	the applicant.	
	3. In a case where secrecy direction has been issued und	ler
	Section 35, the request for examination may be made	de
	within six months from the date of revocation of the	;
	secrecy direction, or within forty-eight months from	
	the date of filing or priority, which ever is later.	
	4. The Office will not examine an application unless it i	is
	published and a request for examination is filed.	
	5. When a request for examination is filed by a person	
	interested other than the applicant, the Examination	
	Report is sent to the applicant only, and intimation is	
	given to the person interested.	
08.02	Reference for Examination	Section 11A,
	1. Once a request for examination is received, and the	12.
	application is published under section 11A, the	Rule 24B(2)(i)

		1
	application is taken up for Examination in the	
	chronological order of filing of request for	
	examination.	
	2. The patent application is referred to an Examiner by	
	the Controller for conducting the formal as well as	
	substantive examination as per the subject matter of the	
	invention vis-à-vis the area of specialization of the	
	Examiner. At present, the Patent Office has four	
	examination groups based on the broad area of	
	specialization viz.:	
	a. Chemistry and allied subjects.	
	b. Biotechnology, Microbiology and allied	
	subjects.	
	c. Electrical, Electronics & related subject	
	d. Mechanical and other subjects.	
	The reference to the Examiner is made ordinarily	
	within one month from the date of publication or one	
	month from the date of request for examination,	
	whichever is later, and is made in order in which the	
	request is filed.	
	3. When an application is referred by the Controller, the	
	Examiner makes a report on the patentabilility as well	
	as other matters ordinarily within one month but not	
	exceeding three months from the date of such	
	reference.	
08.03	Examination of application	
08.03.01	Search for anticipation by previous publication and prior	Section 13
	claiming.	
	1. The examiner conducts a search in the Indian Patent	
	Database, starting from 1.1.1912, and all the patent	
	databases of other countries such as: EPO database,	
		1

 of any other complete specification, filed in India, which has been published on or after the date of filing of the applicant's complete specification. 2. The search is conducted with respect to the date of filing of complete specification. 3. The examiner records in his noting, the following items: a. International classification. b. Search strategy adopted. c. Key word(s) used. d. Databases consulted for both Patent and non Patent literature. e. List of search queries. f. Prior art findings and analysis regarding the patentability. g. Limitation on search if any, such as non clarity of claims or multiplicity of inventions or any other 	
 which has been published on or after the date of filing of the applicant's complete specification. 2. The search is conducted with respect to the date of filing of complete specification. 3. The examiner records in his noting, the following items: a. International classification. b. Search strategy adopted. c. Key word(s) used. d. Databases consulted for both Patent and non Patent literature. e. List of search queries. f. Prior art findings and analysis regarding the patentability. 	
 which has been published on or after the date of filing of the applicant's complete specification. 2. The search is conducted with respect to the date of filing of complete specification. 3. The examiner records in his noting, the following items: a. International classification. b. Search strategy adopted. c. Key word(s) used. d. Databases consulted for both Patent and non Patent literature. e. List of search queries. f. Prior art findings and analysis regarding the 	
 which has been published on or after the date of filing of the applicant's complete specification. 2. The search is conducted with respect to the date of filing of complete specification. 3. The examiner records in his noting, the following items: a. International classification. b. Search strategy adopted. c. Key word(s) used. d. Databases consulted for both Patent and non Patent literature. e. List of search queries. 	
 which has been published on or after the date of filing of the applicant's complete specification. 2. The search is conducted with respect to the date of filing of complete specification. 3. The examiner records in his noting, the following items: a. International classification. b. Search strategy adopted. c. Key word(s) used. d. Databases consulted for both Patent and non Patent literature. 	
 which has been published on or after the date of filing of the applicant's complete specification. 2. The search is conducted with respect to the date of filing of complete specification. 3. The examiner records in his noting, the following items: a. International classification. b. Search strategy adopted. c. Key word(s) used. d. Databases consulted for both Patent and non Patent 	
 which has been published on or after the date of filing of the applicant's complete specification. 2. The search is conducted with respect to the date of filing of complete specification. 3. The examiner records in his noting, the following items: a. International classification. b. Search strategy adopted. c. Key word(s) used. 	
 which has been published on or after the date of filing of the applicant's complete specification. 2. The search is conducted with respect to the date of filing of complete specification. 3.  which has been published on or after the date of filing of the applicant's complete specification. 2. The search is conducted with respect to the date of filing of complete specification. 3. The examiner records in his noting, the following items: a. International classification. 	
 which has been published on or after the date of filing of the applicant's complete specification. 2. The search is conducted with respect to the date of filing of complete specification. 3. The examiner records in his noting, the following items: 	
 which has been published on or after the date of filing of the applicant's complete specification. 2. The search is conducted with respect to the date of filing of complete specification. 3. The examiner records in his noting, the following 	
which has been published on or after the date of filing of the applicant's complete specification.2. The search is conducted with respect to the date of filing of complete specification.	
which has been published on or after the date of filing of the applicant's complete specification.2. The search is conducted with respect to the date of	
which has been published on or after the date of filing of the applicant's complete specification.	
which has been published on or after the date of filing	
of any other complete specification filed in India	
complete specification has been claimed in any claim	
whether an invention as claimed in any claims of the	
·	
-	
TKDL (Traditional Knowledge Digital Library) and	
	WIPO database, USPTO database, JPO DATABASE, TKDL (Traditional Knowledge Digital Library) and other paid databases. In addition to the above, PCT Minimum required patent and non-patent literature is searched. The search is conducted to find out any publication which may anticipate the claimed subject matter. Another objective of the search is to ascertain

	public knowledge. An invention is new (novel) if it has	
	not been disclosed in the prior art, where the prior art	
	means everything that has been published, presented or	
	otherwise disclosed to the public before the date of	
	filing of complete specification.	
b)	For the purpose of determining novelty, an application	
	for Patent filed at the Indian Patent Office before the	
	date of filing of complete specification of a later filed	
	application but published after the same is considered	
	for the purposes of prior claiming.	
c)	While ascertaining novelty, the Examiner takes into	
	consideration, inter alia, the following documents:	
	 which have been published before the date of 	
	filing of complete specification.	
	 such Indian Patent Applications which have been 	
	filed before the date of filing of complete	
	specification and published on or after the date of	
	filing of the complete specification, but claims the	
	same subject matter.	
	 also the Examiner may consider such documents 	
	which have been published before in a transaction	
	of a learned society or exhibited before in an	
	authorized manner as designated by the	
	Government within one year from the date of such	
	filing.	
d)	A prior art will be considered as anticipatory if all the	
	features of the invention under examination are	
	present in the cited prior art.	
e)	The prior art should disclose the invention either in	
	explicit or implicit manner.	
f)	Mosaicing of prior art documents is not followed in	

D8.03.03.01General principle Inventive step is a feature of an invention that involves a technical advancement compared to the existing knowledge or having economic significance or both and that makes the invention not obvious to a person skilled in the art. An invention is patentable only if it involves one or more inventive step. In relation to the determination of patentability, an Examiner first conducts an enquiry as to the novelty of the claimed invention and then proceeds to conduct an enquiry on whether the claimed invention involves one or more inventive step.			
neccessarily take away the novelty of a specific disclosure. For instance, a metal spring may not take away the novelty of a copper spring.h) A specific disclosure in the prior art takes away the novelty of a generic disclosure. For instance, a copper spring takes away the novelty of a metal spring.i) In a case where a prior art is cited as an anticipation in the Examination Report, which is not deemed to be an anticipation by reason on Section 29-34, the onus of proving is on the applicant.08.03.03Inventive step08.03.03.01General principle Inventive step is a feature of an invention that involves a technical advancement compared to the existing knowledge or having economic significance or both and that makes the invention not obvious to a person skilled in the art.  a) For determination of inventive step, all or any of the prior art(s) revealed during the search process to perform an enquiry as to whether such prior art(s) disclose(s) the claimed invention, are relied upon. b) Publications existing on the date of filing of complete 		step.	
 prior art(s) revealed during the search process to perform an enquiry as to whether such prior art(s) disclose(s) the claimed invention, are relied upon. b) Publications existing on the date of filing of complete 	08.03.03.02	Determination of inventive step	
perform an enquiry as to whether such prior art(s)disclose(s) the claimed invention, are relied upon.b) Publications existing on the date of filing of complete		a) For determination of inventive step, all or any of the	
disclose(s) the claimed invention, are relied upon.b) Publications existing on the date of filing of complete		prior art(s) revealed during the search process to	
b) Publications existing on the date of filing of complete		perform an enquiry as to whether such prior art(s)	
		disclose(s) the claimed invention, are relied upon.	
specification would be considered as a prior art.		b) Publications existing on the date of filing of complete	
		specification would be considered as a prior art.	

	1		
	c)	However, Indian Applications filed before but	
		published on or after the date of filing of complete	
		specification of the instant application are considered	
		as a prior claiming.	
	d)	Invention as a whole shall be considered. In other	
		words, it is not sufficient to draw the conclusion that a	
		claimed invention is obvious merely because	
		individual parts of the claim taken separately are	
		known or might be found to be obvious.	
	e)	If an invention lies merely in verifying the previous	
		predictions, without substantially adding anything for	
		technical advancement or economic significance in the	
		art, the inventive step is lacking.	
	f)	For the purpose of establishing obviousness of the	
		invention, citing a mosaic of prior arts is permissible,	
		provided such prior art is enabling.	
	g)	If the invention is predictable based on the available	
		prior art, merely requiring workshop improvement by	
		a person skilled in the art, the inventive step is lacking.	
08.03.04	Indust	trial Applicability	Section
	1.	In order for an invention to be patentable, an	2(1)(ac)
		invention must be capable of industrial application.	
		Industrial Application in relation to patentability	
		means that the invention is capable of being made or	
		used in an industry.	
	2.	The Examiner shall assess if the claimed invention is	
		capable of use in any industry or made using an	
		industrial process. Typically, the specification explains	
		the industrial applicability of the disclosed invention in	
		a self-evident manner. Usually industrial applicability	
		is self-evident. If it is not, a mere suggestion that the	
	I		l

	matter would be industrially applicable is not	
	sufficient. A specific utility should be indicated in the	
	specification supported by the disclosure. For example,	
	indicating that a compound may be useful in treating	
	unspecified disorders, or that the compound has	
	"useful biological" properties, would not be sufficient	
	to define a specific utility for the compound. The	
	specific usefulness has to be indicated.	
08.03.05	Inventions not patentable	Section 3
	Under the Patents Act, 1970, the following are not inventions	
	and hence are not considered to be patentable. However,	
	examples given are mere illustrations and may not be	
	conclusive on the subject. Objective decisions may be taken	
	on case to case basis.	
08.03.05.01	An invention which is frivolous or which claims anything	Section 3(a)
	obviously contrary to well established laws is not an	
	invention.	
	Some examples of a frivolous nature and contrary to natural	
	laws are:-	
	 A machine purporting to produce 	
	perpetual motion.	
	 A machine alleged to be giving output 	
	without any input.	
	 A machine allegedly giving 100% 	
	efficiency.	
08.03.05.02	An invention, the primary or intended use or commercial	Section 3(b)
	exploitation of which would be contrary to public order or	
	morality or which causes serious prejudice to human,	
	animal or plant life or health or to the environment is not an	
	invention.	
	Some examples are:	

	a.	Any device, apparatus or machine or method for	
		committing theft/burglary.	
	b.	Any machine or method for counterfeiting of	
		currency notes.	
	с.	Any device or method for gambling.	
	d.	An invention the use of which can cause serious	
		prejudice to human beings, plants and animals.	
	e.	Inventions, the intended use or commercial	
		exploitation of which is found to be injurious to	
		public, animal or plant life or health, such as, a	
		method of adulteration of food.	
	f.	An invention, the primary or intended use of which	
		is likely to violate the well accepted and settled	
		social, cultural, legal norms of morality, e.g. a	
		method for cloning of humans.	
	g.	An invention, the primary or proposed use of which	
		would disturb the public order e.g. a device for	
		house-breaking.	
	h.	However, if the primary or intended purpose or	
		commercial exploitation of a claimed invention is	
		not causing serious prejudice to human, animal or	
		plant life or health or to the environment, such	
		subject matter may be considered to be an invention	
		and may be patentable. For instance, a pesticide.	
08.03.05.03	The mer	e discovery of a scientific principle or the	Section 3(c)
	formulat	tion of an abstract theory or discovery of any living	
	thing or	non-living substance occurring in nature is not an	
	invention	<i>n</i> .	
	i) A	claim for discovery of scientific principle is not	
	co	onsidered to be an invention, but such a principle	
	w	hen used with a process of manufacture resulting in	

	1 1 1 1 1 1 1 1	
	a substance or an article may be considered to be an	
	invention.	
	ii) A scientific theory is a statement about the natural	
	world. These theories themselves are not considered	
	to be inventions, no matter how radical or	
	revolutionary an insight they may provide, since they	
	do not result in a product or process. However, if the	
	theory leads to practical application in the process of	
	manufacture of an article or substance, it may well be	
	patentable. A claim for formulation of abstract theory	
	is not considered to be an invention. For example, the	
	fact that a known material or article is found to have a	
	hitherto unknown property is a discovery and not an	
	invention. But if the discovery leads to the conclusion	
	that the material can be used for making a particular	
	article or in a particular process, then the article or	
	process could be considered to be an invention.	
	iii)Finding out that a particular known material is able to	
	withstand mechanical shock is a discovery and	
	therefore not patentable, but a claim to a railway	
	sleeper made of the material would not fall foul of	
	this exclusion, and would be allowable if it passed the	
	tests for novelty and inventive step. Similarly, finding	
	of a new substance or micro-organism occurring	
	freely in nature is a discovery and not an invention.	
08.03.05.04	The mere discovery of a new form of a known substance	Section 3(d)
	which does not result in the enhancement of the known	
	efficacy of that substance or the mere discovery of any new	
	property or new use for a known substance or of the mere	
	use of a known process, machine or apparatus unless such	
	known process results in a new product or employs at least	

one new reactant is not an invention.

Section 3(d) provides an explanatory clause to make it more clear which reads as follows:

"Explanation:- For the purposes of this clause, salts, esters, ethers, polymorphs, metabolites, pure form, particle size, isomers, mixtures of isomers, complexes, combinations and other derivatives of known substance shall be considered to be the same substance, unless they differ significantly in properties with regard to efficacy".

According to this provision, the following are not inventions and hence not patentable:

(a) mere discovery of a new form of a known substance which does not result in the enhancement of the known efficacy of that substance;

(b) the mere discovery of any new property of a known substance;

(c) the mere discovery of new use for a known substance;

(d) the mere use of a known process unless such known process results in a new product or employs at least one new reactant;

(e) the mere use of a known machine or apparatus.

The explanation to Section 3(d) further clarifies that the salts, esters, ethers, polymorphs, metabolites, pure form, particle size, isomers, mixtures of isomers, complexes, combinations and other derivatives of known substance may be considered to be the same substance. It however states that such salts, esters, ethers, polymorphs, metabolites, pure form, particle size, isomers, mixtures of isomers, complexes, combinations and other derivatives of such known substance may be considered as patentable only if they differ significantly in properties with regard to efficacy.

The Examiner on a case to case basis applies the test as to what constitutes such salts, esters, ethers, polymorphs, metabolites, pure form, particle size, isomers, mixtures of isomers, complexes, combinations and other derivatives to differ significantly in properties with regard to efficacy from the known substance. The complete specification may bring out clearly and categorically in the description, as to how the subject matter differs significantly in properties with regard to efficacy from the known substance thereof, at the time of filing of the application or subsequently by way of an amendment of specification under section 59.

In a recent case in relation to a pharmaceutical substance, the Madras High Court held that efficacy means therapeutic efficacy. It was held that:

"going by the meaning for the word "efficacy" and "therapeutic"... what the patent applicant is expected to show is, how effective the new discovery made would be in healing a disease having a good effect on the body? In other words, the patent applicant is definitely aware as to what is the "therapeutic effect" of the drug for which he had already got a patent and what is the difference between the therapeutic effect of the patented drug and the drug in respect of which patent is asked for."

"Due to the advanced technology in all fields of science, it is possible to show by giving necessary comparative details based on such science that the discovery of a new form of a known substance had resulted in the enhancement of the known efficacy of the original substance and the derivatives so derived will not be the

	another in a known way is not an invention.	
	known devices each functioning independently of one	
08.03.05.06	The mere arrangement or re-arrangement or duplication of	Section 3(f)
	of Section 59.	
	be incorporated in the Specification, subject to the provisions	
	further support of synergy. However, such submitted data may	
	synergism can be accepted in a reply to the office action as a	
	the Application itself. The subsequent submissions regarding	
	the description by way of comparison at the time of filing of	
	patentable. Synergistic effect should be clearly brought out in	
	satisfy the requirement of synergistic effect in order to be	
	admixing, or a process of producing such substances should	
	In general all the substances which are produced by mere	
	which is the actual characteristic of a combination invention.	
	effects. The features should be functionally linked together	
	show a combinative effect beyond the sum of their individual	
	groups of features be one of functional reciprocity or that they	
	invention requires that the relationship between the features or	
	a combination invention. The existence of a combination	
	A mere aggregation of features must be distinguished from	
	be patentable.	
	and polymer composition etc, and hence may be considered to	
	considered as mere admixture, e.g., a soap, detergent, lubricant	
	An admixture resulting in synergistic properties is not	
	invention.	
	or a process for producing such substance is not an

08.03.05.05	A substance obtained by a mere admixture resulting only in	Section 3(e)
	Vs. Union of India, W.P. No. 24760/06).	
	same substance, since the properties of the derivatives differ significantly with regard to efficacy." (Novartis AG	

In order to be patentable, an improvement on something known before or a combination of different matters already known, should be something more than a mere workshop improvement; and must independently satisfy the test of invention or an 'inventive step'. To be patentable, the improvement or the combination must produce a new result, or a new article or a better or cheaper article than before. A combination of old known integers may be so combined that by their working inter-relation, they produce a new process or an improved result. Mere collocation of more than one integers or things, not involving the exercise of any inventive faculty, does not qualify for the grant of a patent. (*Biswanath Prasad Radhey Shyam Vs. Hindustan Metal Industries (1979) 2 SCC, 511*).

A new and useful application of an old principle may be good subject-matter. An improvement on something known may also afford subject-matter; so also a different combination of matters already known. A patentable combination is one in which the component elements are so combined as to produce a new result or arrive at an old result in a better or more expeditious or more economical manner. If the result produced by the combination is either a new article or a better or cheaper article than before, the combination may afford subject-matter of a patent. (*Lallubhai Chakubhai Vs. Chimanlal and Co. (AIR 1936 Bom 99.)*

An invention claiming a mere juxtaposition of known devices in which each device functions independently is not considered patentable. Merely placing side-by-side old integers so that each performs its own function independently of the others is not a patentable combination. [As for example: a flour mill provided with sieving means]. However, where the old integers when placed together have some working interrelation, producing a new or improved result, then there could be a patentable subject matter in the working interrelation brought about by the collection of the integers.

When two or more features of an apparatus or device are known, and they are juxtaposed without any interdependence on their functioning, they should be held to have been already known. (*Rampratap v. Bhabha Atomic Research Center*, 1976 IPLR 28 P. 35), e.g., an umbrella with fan (388/Bom/73), bucket fitted with torch, clock and transistor in a single cabinet. These are not patentable, since they are nothing but mere arrangement and rearrangement of items without having any working interrelationship between them and are devices capable of functioning independently of each other.

As for instance, in the case of an application for a patent in respect of an apparatus for producing metallic bellows, the hydraulic machine and the roll forming machine disclosed therein were functioning as separate machines independently of each other and as such had no novel feature. Hence, there is no invention when a claim is made on known types of hydraulic forming and roll forming machines functioning independently of each other.

A new combination may be the subject matter of a patent although every part of the combination, *per se*, is old, for here the new article is not the parts themselves but the assembling and working of the parts, together. The merit of a new combination very much depends upon the result produced. Where a slight alteration turns that which was

	practically useless into what is useful and important, it is fit	
	subject matter for a patent.(Lallubhai Chakkubhai v.	
	Shamaldas Sankalchand Shah, AIR 1934 Bom 407).	
08.03.05.07	A method of agriculture or horticulture is not an invention.	Section 3(h)
	Examples of subject matters excluded from patentability	
	under this provision are:	
	(a) A method of producing a plant, even if it involved a	
	modification of the conditions under which natural phenomena	
	would pursue their inevitable course (for instance a green	
	house).	
	(b) A method of producing improved soil from the soil	
	with nematodes by treating the soil with a preparation	
	containing specified phosphorathioates.	
	(c) A method of producing mushrooms.	
	(d) A method for cultivation of algae.	
08.03.05.08	Any process for the medicinal, surgical, curative,	Section 3(i)
	prophylactic, diagnostic, therapeutic or other treatment of	
	human beings or any process for a similar treatment of	
	animals to render them free of disease or to increase their	
	economic value or that of their products is not an invention.	
	This provision excludes from patentability, the following:	
	(a) Medicinal methods: As for example a process of	
	administering medicines orally, or through injectables, or	
	topically or through a dermal patch.	
	(b) Surgical methods: As for example a stitch-free incision for	
	cataract removal.	
	(c) Curative methods: As for example a method of cleaning	
	plaque from teeth.	
	(d) Prophylactic methods: As for example a method of	
	vaccination.	
	(e) Diagnostic methods: Diagnosis is the identification of	

(j) Patent may however be obtained for surgical, therapeutic	
purposes is not therapy.	
(i) Application of substances to the body for purely cosmetic

of treatment and as such not patentable.	
the process relating to therapy may be considered as a method	
prevention as well as treatment or cure of disease. Therefore,	
(f) Therapeutic methods: The term "therapy" includes	
test) is considered to be diagnostic.	
of the general physical state of an individual (e.g. a fitness	
history and symptoms and by applying tests. Determination	
the nature of a medical illness, usually by investigating its	

	micro-organisms but including seeds, varieties and species	
	and essentially biological processes for production or	
	propagation of plants and animals are not inventions.	
	The subject matters excluded under this provision are:	
	(a) plants in whole or in part	
	(b) animals in whole or in part	
	(c) seeds	
	(d) varieties and species of plants and animals	
	(e) essentially biological process(es) for production or	
	propagation of plants and animals.	
	Microorganisms, other than the ones discovered from the	
	nature, may be patentable. For instance, genetically modified	
	microorganisms may be patentable subject to other	
	requirements of Patentability.	
	A new process of preparation of a vaccine under specific	
	scientific conditions, the vaccine <i>useful</i> for protecting poultry	
	against contagious bursitis infection was held to be patentable	
	by the Court on the ratio that the statute does not make a	
	manner of manufacture as un-patentable even if the end	
	products contains a living organism. (Dimminaco – A.G. Vs.	
	Controller of Patents & Designs and Others).	
	Plant varieties are provided protection in India under the	
	provisions of the 'Protection of Plant Varieties and Farmers'	
	Rights Act, 2002.	
08.03.05.10	A mathematical or business method or a computer	Section 3(k)
	programme per se or algorithms are not inventions and	
	hence not patentable.	
	a. Under this provision, mathematical methods, business	
	methods, computer programmes per se and algorithms	
	are not considered as patentable subject matter.	
	b. 'Mathematical methods' are considered to be acts of	

mental skill. A method of calculation, formulation of equations, finding square roots, cube roots and all other methods directly involving mathematical methods are therefore not patentable. With the development in computer technology, mathematical methods are used for writing algorithms and computer programs for different applications and the claimed invention is sometimes camouflaged as one relating to the technological development rather than the mathematical method itself. These methods, claimed in any form, are considered to be not patentable.

- c. "Business Methods" claimed in any form are not patentable subject matter. The term 'Business Methods' involves whole gamut of activities in a commercial or industrial enterprise relating to transaction of goods or services. With the development of technology, business activities have grown tremendously through e-commerce and related B2B and B2C business transactions. The claims are at times drafted not directly as business methods but apparently with some technical features such as internet. networks, satellites. telecommunications etc. This exclusion applies to all business methods and, therefore, if in substance the claims relate to business methods, even with the help of technology, they are not considered to be a patentable subject matter.
- d. Algorithms in all forms including but not limited to, a set of rules or procedures or any sequence of steps or any method expressed by way of a finite list of defined instructions, whether for solving a problem or otherwise, and whether employing a logical, arithmetical or

	computational method, recursive or otherwise, are
	excluded from patentability.
	e. Patent applications, with computer programme as a
	subject matter, are first examined with respect to (b), (c)
	and (d) above. If the subject matter of an application
	does not fall under these categories, then, the subject
	matter is examined with a view to decide whether it is a
	computer programme per se.
	f. If the claimed subject matter in a patent application is
	only a computer programme, it is considered as a
	computer programme per se and hence not patentable.
	Claims directed at 'computer programme products' are
	computer programmes per se stored in a computer
	readable medium and as such are not allowable. Even if
	the claims, inter alia, contain a subject matter which is
	not a computer programme, it is examined whether such
	subject matter is sufficiently disclosed in the
	specification and forms an essential part of the invention.
	g. If the subject matter of a patent application is not found
	excluded under the foregoing provisions, it shall be
	examined with respect to other criteria of patentability.
08.03.05.11	A literary, dramatic, musical or artistic work or any otherSection 3(1)
	aesthetic creation whatsoever including cinematographic
	works and television productions is not an invention.
	Writings, music, works of fine arts, paintings, sculptures,
	computer programmes, electronic databases, books,
	pamphlets, lectures, addresses, sermons, dramatic-musical
	works, choreographic works, cinematographic works,
	drawings, architecture, engravings, lithography, photographic
	works, applied art, illustrations, maps, plans, sketches, three-
	dimensional works relating to geography, topography,

	translations, adaptations, arrangements of music, multimedia	
	productions, etc. are not patentable. Such works fall within the	
	domain of the Copyright Act, 1957.	
08.03.05.12	A mere scheme or rule or method of performing mental act	Section 3(m)
	or method of playing game is not an invention.	
	A mere scheme or rule or method of performing mental	
	act or method of playing game, are excluded from	
	patentability, because they are considered as outcome of mere	
	mental process. For example,	
	a. Method of playing chess.	
	b. Method of teaching.	
	c. Method of learning.	
08.03.05.13	A presentation of information is not an invention.	Section 3(n)
	Any manner, means or method of expressing information	
	whether visual, audible or tangible by words, codes, signals,	
	symbols, diagrams or any other mode of representation is not	
	patentable. For example, a speech instruction means in the	
	form of printed text where horizontal underlining indicated	
	stress and vertical separating lines divided the works into	
	rhythmic groups is not patentable. For instance, railway time	
	table, 100years calendar etc.	
	In the matter of application No. 94/Cal/2002, the	
	Controller held that the Patent system was meant for	
	protecting only one kind of creativity i.e. technological	
	creativity and since the claimed invention relates to business	
	method and method of presenting information, it is not	
	allowed.	
08.03.05.14	Topography of integrated circuits is not an invention.	Section 3(o)
	Since protection of Layout Designs of Integrated Circuits	
	is governed separately under the Semiconductor Integrated	
	Circuit Lay-out Designs Act, 2000, three-dimensional	

	configuration of the electronic circuits used in microchips and	
	semiconductor chips is not patentable.	
08.03.05.15	An invention which in effect, is traditional knowledge or	Section 3(p)
	which is an aggregation or duplication of known properties	
	of traditionally known component or components is not an	
	invention.	
	Traditional Knowledge, being knowledge already	
	existing, is not patentable. An example is the antiseptic	
	properties of turmeric for wound healing. Another example is	
	the pesticidal and insecticidal properties of <i>neem</i> .	
	The Examiner conducts an investigation by using the	
	Traditional Knowledge Digital Library (TKDL) and other	
	resources to decide as to whether the claimed subject matter	
	falls within the purview of this provision.	
08.03.06	Sufficiency of Disclosure	Section 10
	Sufficiency of disclosure is yet another aspect, which is	
	checked by the Examiner while examining a patent	
	application. The Examiner will look for whether:	
	a. the specification is properly titled.	
	b. the subject matter is fully and particularly	
	described in the specification.	
	c. the claims define the scope of the invention	
	properly.	
	d. the Specification describes the best method of	
	performing the invention or not.	
	e. the source and geographical origin, in case of	
	inventions related to biological materials, has	
	been disclosed.	
	f. approval obtained from Biodiversity Authority,	
	wherever applicable.	
	g. accession number and other details of the	

	depository are given, if applicable	
08.03.07	Unity of Invention	Section 10(5)
	a) The Claims of a Specification shall relate to a single	
	inventive concept. In case, an application comprises a	
	plurality of inventive concepts the examiner refers to	
	the same in his report. The application may be divided	
	in order to meet the objection of plurality of distinct	
	inventions.	
	b) The determination whether a group of inventions is so	
	linked as to form a single inventive concept shall be	
	made without regard to whether the inventions are	
	claimed in separate claims or as alternatives within a	
	single claim.	
	c) Unity of invention between process and apparatus or	
	means requires that the apparatus or means have been	
	specifically designed for carrying out the process, or at	
	least a step of the process.	
	d) Independent claims of different categories may relate	
	to a single inventive concept. For example:	
	1. Claims for a product and process specially	
	adapted for manufacture of the product.	
	2. Claims for a process and apparatus or means	
	specifically designed for carrying out the	
	process.	
	3. A mould for casting an article, a method of	
	making that mould, a process of casting the	
	article by using the said mould will constitute a	
	single invention.	
	4. A locking system containing plug and socket	
	wherein separate independent claims for a plug	
	and socket may constitute a single inventive	

	concent	
	concept.	
	5. A broadcasting system comprising transmitter	
	and receiver.	
	6. If an invention relates to a new type of spray	
	bottle, claims may be directed to the spray	
	bottle itself (a product) and a method of making	
	the spray bottle (a process).	
	7. In case of a genetically modified Gene	
	Sequence/ Amino Acid Sequence claims may	
	be directed to a Gene sequence / Amino Acid	
	sequence, a method of expressing the sequence,	
	an antibody against that protein / sequence, a	
	kit containing such antibody / sequence.	
	8. In case of a drug or pharmaceutical product,	
	claims may be directed to a drug or	
	pharmaceutical product, a process of making	
	the product, a composition containing the drug.	
08.03.08	Report of Examiner	Section 3, 4,
	1. The examiner makes a report after carrying out	12, 13
	detailed examination with respect to the following	
	matters:	
	a. whether the application and the specification	
	and other documents relating thereto are in	
	accordance with the requirements of the Act	
	and rules made thereunder;	
	b. whether there is any lawful ground of objection	
	to the grant of patent under the Act;	
	c. the result of investigations under Section 13.	
	2. The examiner prepares the report after conducting a	
	prior art search to ascertain the novelty, and examining	
	as to whether the invention disclosed in the	

	specification is inventive and industrially applica	ıble.
	The Examiner also examines whether the inventi	on
	belongs to one of the categories of non-patentabl	e
	inventions coming under Section 3 and 4, and wh	hether
	the application is in conformity with all the provi	isions
	of the Act.	
08.04	Consideration of the Report by Controller and issuar	nce of Section 3, 4,
	FER	14, 15, 18, 21
	1. The Controller considers the report of the examination of the exami	ner
	ordinarily within one month from the date of the	
	receipt of such report and a gist of objections, if	any, is
	sent to the applicant in the form of a report - Firs	t
	Examination Report (FER) - along with the appli	ication
	and specification, if required. If there is no objec	tion to
	the grant of patent and no pre-grant opposition up	nder
	Section 25(1) is pending, the patent is granted at	the
	earliest.	
	2. The FER is sent to the applicant, even when the	request
	for examination has been filed by a person intere	ested.
	An intimation regarding the issue of FER is give	n to
	such person interested.	
	3. First Examination Report may contain office	
	objections relating to:	
	a. Lack of novelty, inventive step and industrial	1
	applicability.	
	b. Subject matter relating to a category, which f	alls
	within the purview of Sections 3 and 4.	
	c. Non-fulfillment of any other requirement unc	der the
	Act.	
	4. The applicant is required to comply with all the	
	requirements imposed upon him by the Act as	

communicated through FER or subsequent communication, at the earliest. However, if applicant fails to respond to the FER, within twelve months from the date of issuance of FER, the application is deemed to have been abandoned under Section 21(1). A communication to that effect is sent to the applicant for information. 5. If the response / amendment filed by the applicant do not satisfy the requirements laid down by the Act, the Controller offers an opportunity of hearing and decides the case on merits. 6. If for reasons beyond the control of the applicant, the applicant re-files the documents after twelve months from the date of issuance of FER, the Controller may decide to proceed with the case based on the evidence made available to him for such delay. 7. When the applicant re-files the documents within twelve months, the application has to be examined in a fresh manner by the examiner. Upon examination, if it is found that the requirements of the Act have been

- met, the Patent is granted.
- 8. If the applicant contests any of the objections communicated to him by the Controller or he re-files his specification or other documents, along with his observations as to whether or not the specification is to be amended, an opportunity of being heard is given, if requested by the applicant.
- 9. After hearing the applicant, the Controller may specify or permit such amendment as he thinks fit and grant the patent. The Controller may refuse to grant the patent unless the amendments so specified are made or

	any other requirements of the Act and Rules are not	
	complied with.	
	10. If the Controller differs with the report of the Examiner	
	at any stage of the Examination and Grant Process, he	
	shall record the reasons for such disagreement in the	
	file.	
	11. No refusal of patent is done without giving an	
	opportunity of being heard under Section 14. An order	
	refusing an application under Section 15 shall be a	
	speaking order. Such an order under Section 15 is	
	appeallable before the Intellectual Property Appellate	
	Board.	
08.05	Post-dating of Application	Section 9(4),
	1. The application for patent may be post-dated to a date not	15, 17
	later than six months from the date of application on a	
	request made by the applicant at any time before the grant	
	of patent along with the prescribed fee.	
	i. Where such request is made before the examination	
	of application, the same may be allowed and the	
	examination shall be conducted with reference to	
	the date so post-dated.	
	ii. Where such request is made after the issuance of	
	First Examination Report, the same may be	
	allowed subject to fresh examination with reference	
	to the date so post-dated.	
	2. If the application or specification (or drawings if any) or	
	any document is required to be amended under section 15	
	to comply with the requirements of the Act or the Rules,	
	the Controller may direct that the application or	
	specification or other documents related thereto be deemed	
	to have been made on the date on which the requirements	
	is have been made on the date on which the requirements	

	are complied with or the date on which it is re-filed after	
	complying with the requirements. In case this provision is	
	invoked, the application shall be examined afresh with	
	reference to the date as directed by the Controller.	
	3. Following may be instances in which Section 17(2) may be	
	invoked by the Controller:	
	i. A missing part is brought-in through an	
	amendment, for the purpose of meeting the office	
	objections during Section 15 proceedings, by the	
	applicant.	
	ii. A new drawing is brought-in through an	
	amendment for the purpose of explaining the	
	amended specification, and without such amended	
	drawing the amended specification cannot be	
	explained.	
08.06	Pre-Grant Opposition	Section 11A,
	a. Any person may file an opposition by way of	15, 25(1).
	representation to the Controller against the grant of	Rule 55.
	Patent, at the appropriate office, at any time after	
	publication of patent application u/s 11A, but before	
	the grant of Patent on any of the grounds mentioned	
	in Section $25(1)$. The date of grant of Patent is the	
	date on which the Controller orders the grant of	
	patent in the file. Simultaneously, the patent number	
	is generated and the fact of granting the patent is	
	available on the official website.	
	b. If any pre-grant opposition is received after the grant	
	of the patent, the Controller shall return the pre-	
	grant opposition to the opponent and shall intimate	
	such opponent about the fact of grant of the patent.	
	If the opponent is a person interested, he may file a	

formal post grant opposition.

- c. A Patent is not granted before the expiry of six months from the date of publication under Section 11A. Therefore, a person may file the pre-grant opposition within the assured period of six months from the date of Publication, to make sure that the pre-grant opposition is filed before the grant of patent.
- d. The representation shall include a statement and evidence, if any, in support of such representation and a request for hearing, if so desired.
- e. The Controller shall consider the representation only after a Request for Examination for that Application has been filed.
- f. The Pre-Grant Opposition, if available on record, is considered by the Controller along with the report of the Examiner.
- g. On consideration of the opposition, if the Controller is of the opinion that the opposition is devoid of any merit, an opportunity of hearing shall be granted to the opponent, if requested. After hearing the opponent, if the Controller is still of the opinion that the opposition shall be refused, a speaking order shall be issued rejecting the pre-grant opposition, ordinarily within one month.
- h. However, if the Controller is of the opinion that pregrant opposition has merit and the application shall be refused or amended, a notice is given to the applicant along with a copy of the representation. The applicant shall, if he so desires, give reply to that representation along with his statement and

	evidence, if any, in support of his application within	
	three months from the date of the notice.	
	i. The Controller shall consider the statement and	
	evidence filed by the applicant and may either refuse	
	the grant of patent or ask for amendment of the	
	complete specification to his satisfaction before the	
	grant of patent.	
	j. After considering the representation and	
	submissions made during the hearing, the Controller	
	shall proceed further simultaneously, either rejecting	
	the representation and granting the patent or	
	accepting the representation and refusing the grant,	
	ordinarily within one month from the completion of	
	the above proceedings. If the application for patent	
	is to be refused on consideration of the pre-grant	
	opposition u/s 25(1), a speaking order of refusal	
	shall be issued under Section 15.	
08.07	Grant of Patent	
08.07.01	Compliance of conditions under the Act	Section 18,
	The Patent is granted as expeditiously as possible when	43.
	1. the application has not been refused by the Controller	Rule 28, 28A,
	by virtue of any power vested in him by this Act, or	29, 30, 31.
	2. the application has not been found to be in	
	contravention of any of the provisions of the Act, or	
	For instance,	
	a. All objections raised by the examiner have been met	
	and documents returned with the FER have been	
	resubmitted after complying with the requirements,	
	within 12 months from the date of the FER.	
	b. In cases where the FER contains reference to a prior art	
	b. In cases where the r Er contains reference to a prior art	
	which was published before the date of filing of	

	complete specification but after the date of priority of
	the application, the applicant will have to prove that
	the priority date of the claim of his complete
	specification is earlier than the date on which the
	relevant document was published. The priority date of
	such claim is the date on which the matter was first
	disclosed in the relevant specification. In the
	alternative, the applicant may amend his complete
	specification to overcome the objection in respect of
	such document. In the absence of above mentioned
	proof or amendment, the application is liable to be
	refused, after following the procedure elaborated in
	Rule 28, 28-A
c.	In cases where the FER contains reference to a prior art
	which was published after the date of filing of his
	complete specification but claiming an earlier priority
	date, the applicant will have to prove that the priority
	date of the claim of his complete specification is earlier
	than the date on which such document was published.
	The priority date of such claim is the date on which the
	matter was first disclosed in the relevant specification.
	In the alternative, the applicant may amend his
	complete specification to overcome the objection in
	respect of such document. In the absence of above
	mentioned proof or amendment, a reference to the
	other specification shall be inserted by way of notice to
	the public in the applicant's specification, after
	following the procedure elaborated in Rule 29-31.
d.	When there is no pre-grant representation pending
	before the grant of Patent or when the Pre-Grant

	applicant, the date of grant of patent is the date on	
	which the patent is granted by the Controller in the file.	
	The patent number is simultaneously generated. As the	
	Patent Office has moved to complete electronic	
	processing, the fact of grant of Patent by the Controller	
	and the Patent Number is reflected on the official	
	website on real time basis.	
08.07.02	Consequences of grant	Form-27
	a. On the grant of patent, every patent is allotted a serial	
	number by the electronic system. A Certificate of	
	Patent is generated in the prescribed format and an	
	entry in the e-register is made simultaneously. In the	
	present electronic system, the date of recordal of Patent	
	in the Register of Patents is the same as the date of	
	grant of Patent by the Controller.	
	b. The complete specification as granted is made	
	available to public through official website.	
	c. The application, specification and other related	
	documents are open for public inspection on payment	
	of prescribed fee.	
	d. The fact that the patent has been granted is published	
	in the official journal of the Patent Office.	
	e. On the grant of patent, the patentee is required to pay	
	the accumulated fee within 3 months from the date of	
	recordal of Patent in the Register of Patents, which is	
	now the same as the date of Certificate of Patent.	
	f. A post-grant opposition under section 25(2) can be	
	filed by any person interested within 12 months from	
	the date of publication of grant.	
	g. Every patentee and licensee has to furnish a statement	
	regarding the working of the patented invention on	
1	1	

	commercial scale in India at regular intervals (not less	
	than six months) in the prescribed format.	
08.07.03	Date of Patent	Section 45
	a. The date of Patent is the date of filing of the	
	Application. However, in case of a PCT National Phase	
	application, the date of filing is the international filing	
	date.	
	b. The time for payment of first renewal fee is reckoned	
	from the date of recordal in the register of patents.	
	However, since the introduction of electronic	
	processing of patent applications, the date of recordal is	5
	same as the date of generation of Certificate of Patents.	
08.07.04	Conditions subject to which a Patent is granted	Section 47
	a. any machine, apparatus or other article in respect of	
	which the patent is granted or any article made by using	5
	a process in respect of which the patent is granted, may	
	be imported or made by or on behalf of the government	Ţ
	for the purpose merely of its own use;	
	b. any process in respect of which the patent is granted	
	may be used by or on behalf of the government for the	
	purpose merely of its own use;	
	c. any machine, apparatus or other article in respect of	
	which the patent is granted or any article made by the	
	use of the process in respect of which the patent is	
	granted, may be made or used, and any process in	
	respect of which the patent is granted may be used, by	
	any person, for the purpose merely of experiment or	
	research including the imparting of instructions to	
	pupils; and	
	d. in the case of a patent in respect of any medicine or	
	drug, the medicine or drug may be imported by the	

	government for the purpose merely of its own use or for	
	distribution in any dispensary, hospital or other medical	
	institution maintained by or on behalf of the	
	government or any other dispensary, hospital or	
	medical institution which the Central Government may,	
	having regard to the public service that such dispensary,	
	hospital or medical institution renders, specify in this	
	behalf by notification in the Official Gazette.	
08.07.05	Rights of Patentee	Section 48
	a. In case of a patented product, the patentee shall have	
	the exclusive right to prevent third parties, from the act	
	of making, using, offering for sale, selling or importing	
	for those purposes that product in India.	
	b. In case of a patented process, the patentee shall have	
	the exclusive right to prevent third parties, from the act	
	of using that process, and from the act of using,	
	offering for sale, selling or importing for those purposes	
	the product obtained directly by that process in India.	
08.07.06	Rights of co-owners	Section 50, 51
	a. Where a patent is granted to two or more persons, each	
	of those persons shall, unless an agreement to the	
	contrary is in force, be entitled to an equal undivided	
	share in the patent.	
	b. Subject to the provisions contained in this section and	
	in Section 51, where two or more persons are registered	
	as grantee or proprietor of a patent, then, unless an	
	agreement to the contrary is in force, each of those	
	persons shall be entitled, by himself or his agents, to the	
	rights conferred by Section 48 for his own benefit	
	without accounting to the other person or persons.	
	c. Subject to the provisions contained in this section and	
	1	

<u>г</u>	· · · · · · · · · · · · · · · · · · ·	1
	in section 51 and to any agreement for the time being in	
	force, where two or more persons are registered as	
	grantee or proprietor of a patent, then, a licence under	
	the patent shall not be granted and a share in the patent	
	shall not be assigned by one of such persons except	
	with the consent of the other person or persons.	
	d. Where a patented article is sold by one of two or more	
	persons registered as grantee or proprietor of a patent,	
	the purchaser and any person claiming through him	
	shall be entitled to deal with the article in the same	
	manner as if the article had been sold by a sole	
	patentee.	
	e. Subject to the provisions contained in this section, the	
	rules of law applicable to the ownership and devolution	
	of movable property generally shall apply in relation to	
	patents, and nothing contained in sub-section (1) or	
	sub-section (2) shall affect the mutual rights or	
	obligations of trustees or of the legal representatives of	
	a deceased person or their rights or obligations as such.	
	f. Nothing in this section shall affect the rights of the	
	assignees of a partial interest in a patent created before	
	the commencement of this Act.	
08.07.07	Term of Patent	Section 53
	The term of Patent is 20 years from the date of filing of	
	application in respect of all the patents, including those for	
	which the term had not expired on 20 th May, 2003, when	
	Patent (Amendment) Act 2002 came into force, provided that	
	the renewal fee is paid every year before the due date or within	
	the extended period (maximum six months).	

Chapter-9

Post-grant opposition

09.01	Post-grant opposition	Section 2(1)(t),
	1. Any person interested can file a Notice of Opposition	25(2).
	against the grant of Patent in the prescribed format, in	Rule 55A, 60,
	duplicate, within twelve months from the date of	126, 127.
	publication of grant of patent at the appropriate Office.	Form 7.
	2. The date of grant of patent is the date on which the	
	Controller grants a patent and since the granting of patent	
	is now only done through electronic module, the date and	
	time of grant is available to the public on a real time basis	
	through the official website. Consequently, any opposition	
	filed after the date of grant will be treated as a post grant	
	opposition.	
	3. The opponent shall state the nature of his interest in the	
	matter.	
	4. Person interested includes a person engaged in, or in	
	promoting research in the same field as that to which the	
	invention relates. It may be an organization that has a	
	manufacturing or trading interest in the goods connected	
	with the patented article or which has a financial interest in	
	manufacturing such goods or which possesses Patents	
	relating to the same subject.	
	5. The post-grant opposition can be filed on the grounds as	
	mentioned in Section 25(2), but no other grounds.	
	6. After receipt of Notice of Opposition, the Controller shall	
	notify the patentee about the fact of receipt of such notice,	
	without any delay.	
	7. A copy of the statement and evidence, if any, shall be	

delivered to the patentee by the opponent.

- 8. If the patentee desires to contest the opposition, he shall file a reply statement setting out fully the grounds upon which the opposition is contested, and evidence if any, in support of his case within a period of two months from the date of receipt of the copy of opponent's written statement and evidence, if any, and deliver a copy to the opponent.
- 9. If the patentee does not desire to contest or does not file his reply and evidence within two months, the patent shall be deemed to have been revoked and the Controller shall issue the order of revocation of Patent and the fact of revocation is entered in the register of patents.
- 10. After receipt of reply from the patentee, the opponent may file his evidence in reply within one month from the date of delivery to him of a copy of the patentee's reply statement and evidence. Evidence in reply of the opponent shall be strictly confined to the matters in the patentee's evidence. The opponent shall deliver a copy of his reply statement and evidence to the patentee.
- 11. No further evidence shall be delivered by either party, except with the leave or direction of Controller.
- 12. With respect to further evidence filing, either party shall do so before the Controller's notification on the fixation of the date of hearing.
- 13. Where a specification or other document in a language other than English is referred to in the notice, statement or evidence, an attested translation thereof in duplicate in English should be furnished along with such notice, statement or evidence, as the case may be.

14. Evidence shall be filed on affidavits as required under Rule126.

	15. Exhibits shall be filed as required under Rule 127.	
09.02	Constitution of Opposition Board	Rule 56, 57,
	1. After receipt of Notice of Opposition, an Opposition Board	58, 59, 60
	is constituted by the Controller, by order, to examine such	
	notice including all the documents filed under rule 57-60 in	
	connection with opposition by the opponent as well as	
	patentee.	
	2. The Board shall submit the report with reasons on each	
	ground taken in the Notice of Opposition after	
	examining all statements, documents and evidence	
	submitted by the parties, as a joint recommendation	
	within three months from the date on which all such	
	documents were forwarded to them.	
	3. The Opposition Board consists of three members with one	
	of them as Chairman.	
	4. The examiner may be a member of the Board. But, the	
	examiner who has dealt with the application for patent	
	during the prosecution proceedings for grant of patent	
	thereon shall not be included as a member of the Board.	
	5. If further evidence is taken on record by the Controller, by	
	an order in writing, the same shall be forwarded to the	
	Opposition Board for their consideration. This shall also	
	apply when such further evidence is taken on record after	
	the receipt of report from Opposition Board.	
09.03	Hearing	Rule 62
	1. After receiving the recommendation of Opposition Board	
	the Controller shall fix without undue delay, a date and	
	time for the hearing of the opposition and inform the	
	parties, at least ten days in advance.	
	2. On receipt of the notice of hearing, if either party desires	
	to be heard, he shall inform the Controller by a notice	

along with the prescribed fee.

- 3. The Controller may require the members of Opposition Board to be present in the hearing
- 4. The Controller may refuse to hear any party which has not given such notice and fee.
- 5. If either party intends to rely on any Publication at the hearing not already mentioned in the notice of opposition, statement or evidence, he shall give to the other party and to the Controller a notice of his intention to do so, together with details of such publication. Such notice shall be given at least five days before the date of hearing.
- 6. After hearing the party or parties desirous of being heard, or if neither party desires to be heard, then without a hearing, and after taking into consideration the recommendation of Opposition Board, the Controller shall decide the opposition, i.e., he may revoke the patent, or order amendments in the Patent or refuse the opposition and issue a speaking order.
- 7. If amendment of specification or any other document is ordered by the Controller, the patentee shall submit such amended documents to the office within a reasonable time, as directed by the Controller.

Chapter - 10

Post-grant procedures

10.01Maintenance of Par	ent – renewai	Section 53, 142
To keep a patent in	force, the renewal fees shall be payable at	(4).
the expiration of the	second year from the date of the patent or	Rule 80.
of any succeeding	year and the same shall be remitted to the	Form-4.
patent office before	e the expiration of the second or the	
succeeding year.		
Further, renewal of	a patent can be done beyond the due date in	
the extended period	l of six months from that date by filing	
Form-4 along with t	ne prescribed fee. This period of six months	
is not extendable.		
a. Where a patent	is granted later than two years from the	
date of filing	of the application, the fees which have	
become due in	the meantime may be paid within a period	
of three months	from the date of the recording of the patent	
in the register.	The date of recording of patent in the	
register of pa	ents is communicated to the applicant	
through a lette	r which accompanies the Certificate of	
Patent. The per	iod for payment of renewal fees may be	
extended by a	maximum of six months by filing Form-4	
with the require	d fee.	
b. If a patent is g	anted before the expiry of two years from	
the date of fil	ing of application, the first renewal fee	
becomes due in	n respect of the third year. However, the	
renewal fee sha	Il be paid before the expiry of second year.	
This period is e.	stendable by maximum six months.	
c. First Renewal	ee for a patent becomes due in respect of	
the third year co	ounted from the date of filing of application	

	for patent. However, the renewal fee for third year has to	
	be paid before the expiry of second year. For clarification,	
	the renewal fee may be paid before the expiration of the	
	fourth year from the date of Patent for the fifth year and so	
	on.	
	d. While paying the renewal fee, the patentee shall quote	
	correctly the patent number, date of patent and the year in	
	respect of which the renewal fee is being paid. Any	
	mistake in the above said particulars may lead to a lapse of	
	patent.	
	e. For the Patent of Addition no renewal fee is required to be	
	paid.	
	f. Annual renewal fee may be paid for 2 or more years in	
	advance.	
10.02	Restoration of Lapsed Patents	Section 60.
	a. When a Patent has ceased to have effect due to non-	Rule 84, 94.
	payment of renewal fees within the prescribed time, the	Form-15.
	Patent may be restored by filing an application for	
	ratent may be restored by ming an appreation for	
	restoration, in Form-15, within eighteen months from the

	restoration, in Form-15, within eighteen months from the date on which the patent ceased to have effect. Such an application can be made by the patentee / assignee, or his	
	restoration, in Form-15, within eighteen months from the date on which the patent ceased to have effect. Such an application can be made by the patentee / assignee, or his legal representative and in case of joint applicants, then,	
	restoration, in Form-15, within eighteen months from the date on which the patent ceased to have effect. Such an application can be made by the patentee / assignee, or his legal representative and in case of joint applicants, then, with the leave of the Controller, any one or more of them without joining the others.	
	 restoration, in Form-15, within eighteen months from the date on which the patent ceased to have effect. Such an application can be made by the patentee / assignee, or his legal representative and in case of joint applicants, then, with the leave of the Controller, any one or more of them without joining the others. b. The applicant has to state, the circumstances which led to 	
	restoration, in Form-15, within eighteen months from the date on which the patent ceased to have effect. Such an application can be made by the patentee / assignee, or his legal representative and in case of joint applicants, then, with the leave of the Controller, any one or more of them without joining the others.	
	 restoration, in Form-15, within eighteen months from the date on which the patent ceased to have effect. Such an application can be made by the patentee / assignee, or his legal representative and in case of joint applicants, then, with the leave of the Controller, any one or more of them without joining the others. b. The applicant has to state, the circumstances which led to the failure of payment of renewal fees. The application 	
	 restoration, in Form-15, within eighteen months from the date on which the patent ceased to have effect. Such an application can be made by the patentee / assignee, or his legal representative and in case of joint applicants, then, with the leave of the Controller, any one or more of them without joining the others. b. The applicant has to state, the circumstances which led to the failure of payment of renewal fees. The application must include a statement fully setting out the circumstances that led to the failure to pay the renewal fee. 	
	 restoration, in Form-15, within eighteen months from the date on which the patent ceased to have effect. Such an application can be made by the patentee / assignee, or his legal representative and in case of joint applicants, then, with the leave of the Controller, any one or more of them without joining the others. b. The applicant has to state, the circumstances which led to the failure of payment of renewal fees. The application must include a statement fully setting out the circumstances that led to the failure to pay the renewal fee. This statement may be supported by evidence and copies of 	
	 restoration, in Form-15, within eighteen months from the date on which the patent ceased to have effect. Such an application can be made by the patentee / assignee, or his legal representative and in case of joint applicants, then, with the leave of the Controller, any one or more of them without joining the others. b. The applicant has to state, the circumstances which led to the failure of payment of renewal fees. The application must include a statement fully setting out the circumstances that led to the failure to pay the renewal fee. 	

	failure to pay was unintentional and there has been no
	undue delay in applying for restoration.
	d. The Controller may call for further evidence to justify that
	the failure to pay was unintentional and that there has been
	no undue delay for making the application.
	e. If a patentee has failed to register a change of name before
	cessation he must first apply under Rule 94 for alteration in
	the register. If he changed his name after cessation he must
	prove his identity. In both cases he must draw and sign the
	application in his new name but in the latter case must add
	'formerly known as' to his identification.
10.02.01	Procedure for disposal of application for restoration Section 60, 61,
	a. When the Controller is prima facie satisfied that the failure 62.
	to pay renewal fee was unintentional and there had been no Rule 84, 85, 86.
	undue delay, the application for restoration will be Form-14.
	published in the official journal.
	b. If the Controller is satisfied that a prima facie case for
	restoration has not been made, the Controller may issue a
	notice to the applicant to that effect. Within one month
	from the date of notice, if the applicant makes a request to
	be heard on the matter, a hearing shall be given and the
	restoration application may be disposed. If no request for
	hearing is received within one month from the date of
	notice by the Controller, the application for restoration is
	refused. In case of rejection of the application for
	restoration, a speaking order shall be issued.
	c. Any person interested may give Notice of Opposition, in
	the prescribed manner, to the application within two
	months of the date of Publication in the official journal on
	the grounds that the failure to pay the renewal fee was not
	unintentional or that there has been undue delay in the
	· · · · · · · · · · · · · · · · · · ·

making of the application.

- d. The Notice of Opposition shall include a statement setting out the nature of the opponent's interest, the grounds of opposition, and the facts relied upon. The notice of opposition shall be sent to the applicant expeditiously by the Controller.
- e. The procedure specified in rules 57 to 63 for post grant opposition for filing of written statement, reply statement, reply evidence, hearing and cost shall apply in this case.[See Chapter 9- Post-grant opposition]
- f. When no opposition is received within a period of two months from the date of publication of the application for restoration, or opposition, if any, is disposed of in favour of the Patentee, the Controller shall issue an order allowing the application for restoration. The unpaid renewal fee and the additional fee, as mentioned in the first schedule, shall be paid within one month from the date of order of the Controller.
- g. The fact that a patent has been restored shall be published in the official journal.
- h. To protect the persons who have begun to use the applicant's invention between the date when the Patent ceased to have effect and the date of Publication of the Application for restoration, every order for restoration includes the provisions and other conditions, as the Controller may impose, for protection and compensation of the above-mentioned persons. No suit or other proceeding shall be commenced or prosecuted in respect of an infringement of a Patent committed between the date on which the Patent ceased to have effect and the date of the Publication of the Application for restoration for restoration of the patent.

10.03	Registration of assignments/Transfer of Right	Section 68, 69.
	a. An assignment of a patent or of a share in a patent, a	Rule 90, 91, 92.
	mortage, licence or the creation of any other interest in a	Form-16.
	patent shall be valid only if the same were in writing and	
	the agreement between the parties concerned is reduced to	
	the form of a document embodying all the terms and	
	conditions governing their rights and obligations and has	
	been duly executed.	
	b. Any person who becomes entitled by assignment,	
	transmission or operation of law to a patent or to a share in	
	patent or becomes entitled as a mortgagee, licencee or	
	otherwise to any other interest in a patent, may apply in	
	writing in Form-16 to the Controller, for the registration of	
	his title or as the case may be of notice of his interest in the	
	register. Such an application can also be made by the	
	assignor, mortgagor, licensor or other party as the case may	
	be.	
	c. Where such application is made for the registration of title	
	or notice of interest of any person, the Controller, upon	
	proof of title or interest to his satisfaction, shall enter in the	
	register such particulars as are appropriate.	
	d. If there is any dispute between the parties the Controller	
	may refuse to take any action to make an entry in the	
	register, until the rights of the parties have been determined	
	by a competent court.	
	e. Except for the purpose of making an application for	
	registration of right, title or interest in the register of	
	patents or for an application for rectification of the register	
	of patents in the IPAB, a document in respect of which no	
	entry has been made in the register shall not be admitted by	
	the Controller or by any court as evidence of the title of	

	any person to a patent or to a share or interest therein	
	unless the Controller or the court, for reasons to be	
	recorded in writing, otherwise directs.	
	f. If requested by the patentee / licensee, the terms of the	
	license may be kept confidential and not disclosed to any	
	person, except under the order of a Court.	
10.04	Surrender Of Patents	Section 63.
	a. The patentee may at any time offer to surrender his patent	Rule 57, 58, 59,
	through an application on plain paper. On receipt of such an	60, 61, 62, 63.
	offer the Controller publishes the offer in the Official	Form-14.
	Journal and also notifies every person (other than the	
	patentee) whose name appears in the register as having an	
	interest in the patent.	
	b. An opposition against the offer to surrender the patent may	
	be filed by any person interested in Form 14 (in duplicate)	
	within 3 months from the date of publication of such offer	
	in the Official Journal. The Controller shall inform the	
	Patentee on receipt of such notice.	
	c. The procedure relating to filing of written statement, reply	
	statement leaving evidence and hearing of the opposition is	
	similar to that of the opposition to the grant of Patents as	
	per Rules 57-63 [See Chapter 9- Post-grant opposition].	
	d. In case, the Controller accepts the patentee's offer to	
	surrender the patent, he may direct the patentee to return the	
	patent and on the receipt of which, the Controller shall by	
	order, revoke it and publish such revocation in the official	
	journal.	
10.05	Working of Patents	Section 83,
	a. Patents are granted to encourage inventions and to secure	146.
	that the inventions are worked in India on a commercial	Rule 131(2)
	scale and to the fullest extent that is reasonably practicable	Form-27
	1	1

		without undue delay	
		without undue delay.	
	b.	The Controller has the power to call for the information	
		such as periodical statements as to the extent to which the	
		patented invention has been commercially worked in India,	
		as may be specified in the notice issued to that effect at any	
		time during the continuance of the Patent	
	c.	A patentee or a licensee shall furnish such information	
		within two months from the date of such notice or within	
		such further time as the Controller may allow.	
	d.	The patentee and every licensee shall furnish a statement as	
		to the extent to which the patented invention has been	
		worked on a commercial scale in India, in Form 27, in	
		respect of every calendar year, within three months of the	
		end of each year.	
10.06	Ar	nendments after the grant of patents	Section 57, 59.
	a.	After the grant of patent, the patentee may apply in Form-	Rule 57, 58, 59,
		13 for an amendment of the application for patent, complete	60, 61, 62 63,
		specification or any document relating thereto to be	81, 82, 83.
		amended subject to such conditions, if any, as the	Form-13, 14.

10.07 Procedure to be followed, after the grant of patent, in Section 44	4.

	cas	se of death of an applicant	Rule 75.
	a.	If the applicant had died before the grant of patent, but	Form-10, 16.
		the patent was granted in his name, a person in whose	
		name the patent ought to have been granted may make a	
		request to the Controller for substitution. The Controller	
		may amend the patent by substituting the name of the	
		deceased applicant with the name of such claimant. Such	
		a request has to be made in Form-10.	
	b.	If the applicant dies after the patent has been granted,	
		any person who becomes entitled to the patent or to a	
		share in the patent, by operation of law, may make a	
		request for registration of his title. Such a request shall	
		be made in Form-16.	
10.08	Re	gister of Patents	Section 67, 72.
	a.	A register of patents is available to public at each Patent	Rule 88, 93, 94.
		Office location and contains details about the patentee,	
		notifications in respect of assignments, transmissions,	
		patents, licences under patents, and amendments, extension	
		and revocations of patents.	
	b.	A copy of, or extracts from, the register of patents, certified	
		to be a true copy under the hand of the Controller or any	
		officer duly authorized by the Controller is admissible in	
		evidence in all legal proceedings.	
	c.	Upon grant of a patent, the Controller enters in the Register	
		of Patents the names, addresses and nationality of the	
		patentee, title of the invention including the categories to	
		which the invention relates, date of the patent, date of	
		granting thereof and address for service of the patentee. The	
		fact of payment of renewal fee shall also be entered in the	
		register of patents.	
	d.	The Controller shall also enter in the register of patents,	

			1
		particulars regarding proceedings under the Act, before the	
		Controller or in the Courts in respect of every patent.	
	e.	An application for alteration of name, nationality, address	
		or address for service as entered in the register of patents	
		may be made to the Controller in respect of any Patent. The	
		Controller may require such proof of the alteration as he	
		may think fit before acting on the request. If the Controller	
		allows such a request, entries in the register are altered	
		accordingly.	
	f.	If a patentee makes a request in writing along with the	
		prescribed fees for entering an additional address for service	
		in India and the Controller is satisfied that the request shall	
		be allowed, the additional address shall be entered in the	
		register.	
	g.	Entries in the register for each patent are available to the	
		public on the official website.

Chapter-11

Appeals

11.01	Appellate Board and Appeals	
11.01.01	Appellate Board	Section 116,
	a. An Appellate board, established under the Section 83 of the	117A(2)
	Trade Marks Act, 1999, is the Appellate Board for the purposes	
	of Patents Act, 1970. An appeal lies to the Appellate Board from	
	any decision, order or directions of the Controller or Central	
	Government passed under the provisions mentioned in Section	
	117A(2) only and not against any other decision or direction.	
	The Board has been constituted for speeding up legal	
	proceedings.	
	b. The Appellate Board became operational on and from 2nd April,	
	2007 vide S.O. 507(E) published in the Gazette of India, Part II,	
	Section 3, Sub-section (ii)	
11.01.02	Appeals	Section
	a. An appeal lies from the decision, order or direction made or	117A(2), 81.
	issued under the Patents Act by the Central Government or any	
	act or order of the Controller for the purpose of giving effect to	
	any such decision order or direction.	
	b. Further, an appeal shall lie from any decision, order or direction	
	of the Controller or Central Government under Sections 15, 16,	
	17, 18, 19, 20, 25(4), 28, 51, 54, 57, 60, 61, 63, 66, 69(3), 78,	
	84(1) to (5), 85, 88, 91, 92 and 94 of the Patents Act.	
	c. No appeal lies from an Order of the Controller granting	
	extension of time when such extension is provided in any	
	provision of the Act or of the rules.	
11.02	Appeal procedure	Section
	a. Every appeal from the decision of the Controller under relevant	117E, 117F.

sections as mentioned in Section 117A (2) shall be accompanied by the certified copy of the decision, order or direction appealed against. Such application shall be in the form and fee prescribed. b. Every appeal should be made within three months from the date of the decision, order or direction of the Controller or of the Central Government, as the case may be or within such further time as the Appellate Board may in accordance with the Rules made by it allow. The Controller shall have the right to appear and be heardс. i. in any legal proceedings before the Appellate Board in which the relief sought includes alteration or rectification of the register or in which any question relating to the practice of the patent office is raised; ii. in any appeal to the Appellate Board from an order of the Controller on an application for grant of patent— A. which is not opposed, and the application is either refused by the Controller or is accepted by him modifications, subject to any amendments, conditions or limitations, or B. which has been opposed and the Controller considers that his appearance is necessary in the public interest. d. The Controller shall appear in any case, if so directed by the Appellate Board. e. The Controller may, in lieu of appearing, unless the Appellate Board otherwise directs, submit a statement in writing signed by him, giving such particulars as he thinks proper of the proceedings before him relating to the matter in issue or of the grounds of any decision given by him or of the practice of the patent office in like cases, or of other matters relevant to the issues and within his knowledge as the Controller may deem it

necessary,	and	such	statement	shall	be	evidence	in	the
proceeding	5.							

Chapter-12

Revocation of Patent

12.01	Revocation of Patent	
12.01.01	Revocation before High Court or Appellate Board	Section 64
	a. Any person interested or the Central Government may	
	make a petition on any of the grounds, specified for	
	revocation of Patent under Section 64 of the Patents	
	Act, before the Appellate Board. A Patent may also be	
	revoked by the High Court on a counter-claim in a suit	
	for infringement of patent.	
	b. Grounds for revocation before the Appellate Board as	
	well as the High Court are elaborated in Section 64.	
	c. Without prejudice to the provisions contained in (a)	
	above, a patent may be revoked by the High Court on	
	the petition of the Central Government, if the High	
	Court is satisfied that the patentee has without	
	reasonable cause failed to comply with the request of	
	the Central Government to make, use or exercise the	
	patented invention for the purposes of government	
	within the meaning of Section 99 upon reasonable	
	terms.	
12.01.02	Revocation by Controller on direction of Central	Section 65
	Government	
	a. Where at any time after grant of a patent, the Central	
	Government is satisfied that a patent is for an	
	invention relating to atomic energy for which no	
	patent can be granted under sub-section (1) of section	
	20 of the Atomic Energy Act, 1962 (33 of 1962), it	

	may direct the Controller to revoke the patent, and	
	thereupon the Controller, after giving notice, to the	
	patentee and every other person whose name has been	
	entered in the register as having an interest in the	
	patent, and after giving them an opportunity of being	
	heard, may revoke the patent.	
	b. In such proceedings, the Controller may allow the	
	patentee to amend the complete specification in such	
	manner as he considers necessary instead of revoking	
	the patent.	
12.01.03	Revocation by Central Government	Section 66
	Where the Central Government is of opinion that a patent	
	or the mode in which it is exercised is mischievous to the	
	State or generally prejudicial to the public, it may, after	
	giving the patentee an opportunity to be heard, make a	
	declaration to that effect in the Official Gazette and	
	thereupon the patent shall be deemed to be revoked.	
12.01.04	Revocation by Controller for non-working	Section 85
	a. Where, in respect of a patent, a compulsory licence	
	has been granted, the Central Government or any	
	person interested may, apply to the Controller for an	
	order revoking the patent on the ground:	
	i. that the patented invention has not been	
	worked in the territory of India, or	
	ii. that reasonable requirements of the public with	
	respect to the patented invention have not been	
	satisfied, or	
	iii. that the patented invention is not available to	
	the public at a reasonably affordable price.	
	c. Such an application can be made only after the	
	expiration of two years from the date of the order	

	granting the first compulsory licence.	
d.	Such an application shall contain such particulars as	
	may be prescribed, the facts upon which the	
	application is based, and, in the case of an application	
	other than the one made by the Central Government, it	
	shall also set out the nature of the applicant's interest.	
e.	Such applications shall ordinarily be decided within	
	one year from the date of presentation to the	
	Controller.	

Chapter 13 Compulsory Licensing

13.01	W	orking of patents - General principles	Section 83, 89
	a.	Patents are granted to encourage inventions and to secure that the	
		inventions are worked in India on a commercial scale and to the	
		fullest extent that is reasonably practicable without undue delay.	
	b.	Patents are not granted merely to enable patentees to enjoy a	
		monopoly for the importation of the patented article.	
	c.	The protection and enforcement of Patent rights contribute to the	
		promotion of technological innovation and to the transfer and	
		dissemination of technology, to the mutual advantage of producers	
		and users of technological knowledge and in a manner conducive	
		to social and economic welfare, and to a balance of rights and	
		obligations.	
	d.	Patents granted do not impede protection of public health and	
		nutrition and should act as instrument to promote public interest	
		especially in sectors of vital importance for socio-economic and	
		technological development of India.	
	e.	Patents granted do not in any way prohibit Central Government in	
		taking measures to protect public health.	
	f.	The Patent right shall not be abused by the patentee or person	
		deriving title or interest on Patent from the patentee, and the	
		patentee or a person deriving title or interest on Patent from the	
		patentee does not resort to practices which unreasonably restrain	
		trade or adversely affect the international transfer of technology.	
	g.	Patents are granted to make the benefit of the patented invention	
		available at reasonably affordable prices to the public.	
	h.	Patented inventions are worked on a commercial scale in the	
		territory of India without undue delay and to the fullest extent that	
		is reasonably practicable;	

	i. The interests of any person for the time being working or	
	developing an invention in the territory of India under the	
	protection of a patent are not unfairly prejudiced.	
13.02	Compulsory License	
	An application for grant of a compulsory license may be made under	
	the following provisions:	
	a. Section 84.	
	b. Section 91.	
	c. Section 92.	
	d. Section 92A.	
13.02.01	Compulsory License under Section 84	Section 84
	a. Any person interested may make an application to the Controller	Form-17
	for grant of Compulsory License for a patent after the expiry of	
	three years from the "date of grant" of the patent on the following	
	grounds:	
	i. that the reasonable requirements of public with respect to	
	the patented invention have not been satisfied, or	
	ii. that the patented invention is not available to the public at	
	reasonably affordable price, or	
	iii. that the patented invention is not worked in the territory of	
	India.	
	Such an application may also be made by the licensee.	
	b. No person shall be stopped from alleging the grounds i-iii above by	
	reason of any admission made by him in the licence or otherwise or	
	by reason of his having accepted such a licence.	
	c. In considering such an application, the Controller shall take into	
	account-	
	i. the nature of the invention, the time which has elapsed	
	since the sealing of the patent and the measures already	
	taken by the patentee or any licensee to make full use of	
	the invention;	
	ii. the ability of the applicant to work the invention to the	
	public advantage;	
	1	l

		1
	iii. the capacity of the applicant to undertake the risk in	
	providing capital and working the invention, if the	
	application were granted;	
	iv. as to whether the applicant has made efforts to obtain a	
	licence from the patentee on reasonable terms and	
	conditions and such efforts have not been successful within	
	a reasonable period as the Controller may deem fit.	
	Reasonable period shall be construed as a period not	
	ordinarily exceeding a period of six months. However,	
	these circumstances shall not be applicable in case of	
	national emergency or other circumstances of extreme	
	urgency or in case of public non-commercial use or on	
	establishment of a ground of anti-competitive practices	
	adopted by the patentee.	
13.02.01.01	Reasonable requirements of the public	Section 84(7)
	The reasonable requirements of the public shall be deemed not to have	
	been satisfied—	
	I. if, by reason of the refusal of the patentee to grant a licence	
	or licences on reasonable terms,—	
	i. an existing trade or industry or the development	
	thereof or the establishment of any new trade or	
	industry in India or the trade or industry in India or the	
	trade or industry of any person or class of persons	
	trading or manufacturing in India is prejudiced; or	
	ii. the demand for the patented article has not been met to	
	an adequate extent or on reasonable terms; or	
	iii. a market for export of the patented article	
	manufactured in India is not being supplied or	
	developed; or	
	iv. the establishment or development of commercial	
	activities in India is prejudiced; or	
	II. if, by reason of conditions imposed by the patentee upon the	
	grant of licences under the patent or upon the purchase, hire	
1	or use of the patented article or process, the manufacture, use	

		·
	or sale of materials not protected by the patent, or the	
	establishment or development of any trade or industry in	
	India, is prejudiced; or	
	III. if the patentee imposes a condition upon the grant of licences	
	under the patent to provide exclusive grant back, prevention	
	to challenges to the validity of patent or coercive package	
	licensing; or	
	IV. if the patented invention is not being worked in the territory	
	of India on a commercial scale to an adequate extent or is not	
	being so worked to the fullest extent that is reasonably	
	practicable; or	
	V. if the working of the patented invention in the territory of	
	India on a commercial scale is being prevented or hindered	
	by the importation from abroad of the patented article by—	
	i. the patentee or persons claiming under him; or	
	ii. persons directly or indirectly purchasing from him; or	
	iii. other persons against whom the patentee is not taking	
	or has not taken proceedings for infringement.	
13.02.01.02	Contents of application	Section 84
	Such an application shall contain a statement setting out the nature of	Form-17
	the applicant's interest, the facts upon which the application is based	
	and the terms and conditions of the licence the applicant is willing to	
	accept.	
13.02.01.03	Procedure	Section 86, 87,
	a. Where the Controller is satisfied, upon consideration of an	88, 89, 90.
	application for compulsory licence, that a prima facie case has	Rule 62, 96, 97,
	been made out, he shall direct the applicant to serve copies of the	98, 99, 100, 101.
	application upon the patentee and any other person appearing from	Form-14
	the register to be interested in the patent in respect of which the	
	application is made, and shall publish the application in the official	
	journal.	
	b. The patentee or any other person desiring to oppose the application	
	may, within two months from the date of publication of the	

r		
	application or within such further time as the Controller may o	n
	application (made either before or after the expiration of th	e
	prescribed time) allow, give to the Controller notice of opposition.	
	c. The notice of opposition shall include grounds on which th	e
	application is opposed and the terms and conditions of the licence	,
	if any, the opponent is prepared to grant to the applicant and sha	1
	be accompanied by evidence in support of the opposition.	
	d. The opponent shall serve a copy of his notice of opposition an	d
	evidence on the applicant and notify the Controller when suc	h
	service has been effected.	
	e. No further statement or evidence shall be delivered by either part	у
	except with the leave of or on requisition by the Controller.	
	f. The Controller shall forthwith fix a date and time for the hearing of	of
	the case and shall give the parties not less than ten days notice of	of
	such hearing.	
	g. The procedure specified in sub-rules (2) to (5) of rule 62, shall, s	0
	far as may be, apply to the procedure for hearing under this rule a	s
	they apply to the hearing in opposition proceedings.	
	h. If, upon consideration of the evidence, the Controller is satisfie	d
	that a prima facie case has not been made out, he shall notify th	e
	applicant accordingly, and unless the applicant requests to be hear	d
	in the matter, the Controller shall refuse the application. Th	e
	applicant shall make such a request within one month from the dat	e
	of such notification.	
	i. If the applicant requests for a hearing within the time allowed, th	e
	Controller shall, after giving the applicant an opportunity of bein	g
	heard, determine whether the application may be proceeded with o	r
	whether it shall be refused and issue a speaking order on the matter	r
	as expeditiously as possible.	
13.02.01.04	Terms and conditions	Section 90
	In settling the terms and conditions of a licence, the Controlle	er
	endeavours to secure -	
	a. that the royalty and other remuneration, if any, reserved to th	e

being the holder of a licence under the patent, the Controller may,	
-	
	being the holder of a licence under the patent, the Controller may, if he makes an order for the grant of a licence to the applicant, order the existing licence to be cancelled, or may, if the thinks fit, instead of making an order for the grant of a licence to the applicant, order the existing licence to be amended. Compulsory license in case of two or more patents held by the same patentee Where two or more patents are held by the same patentee and an applicant for a compulsory licence establishes that the reasonable requirements of the public have not been satisfied with respect to some

	advantage possible.	
	b. No order under such an application shall be made unless the	
	Controller is satisfied –	
	i. that the applicant is able and willing to grant, or procure the	
	grant to the patentee and his licensees if they so desire, of a	
	licence in respect of the other invention on reasonable terms;	
	and	
	ii. that the other invention has made a substantial contribution to	
	the establishment or development of commercial or industrial	
	activities in the territory of India.	
	c. Controller, if satisfied, that the grounds alleged have been	
	established by the applicant, he may make an order on such terms	
	as he thinks fit granting a licence under the first mentioned patent	
	and a similar order under the other patent if so requested by the	
	proprietor of the first mentioned patent or his licensee.	
	However, such a licence granted by the Controller shall be non-	
	assignable except with the assignment of the respective patents.	
	d. The procedure as mentioned in Sections 87, 88, 89 and 90 shall	
	apply to licences a licence granted under this provision.	
13.02.03	Compulsory licence on notification by Central Government	Section 83, 87,
10.02.00	a. If the Central Government is satisfied, in respect of any patent in	88, 89, 90, 92
	force in circumstances of national emergency or in circumstances	Form-17
	of extreme urgency or in case of public non-commercial use, that it	10111-17
	is necessary that compulsory licenses should be granted at any time	
	after the sealing thereof to work the invention, it may make a	
	declaration to that effect, by notification in the Official Gazette,	
	and thereupon the following provisions shall have effect, that is to	
	say -	
	i. the Controller shall, on application made at any time after the	
	notification by any person interested, grant to the applicant a	
	licence under the patent on such terms and conditions as he	
	thinks fit;	
	ii. in settling the terms and conditions of a licence granted under	
1	this section, the Controller shall endeavour to secure that the	

	articles manufactured under the patent shall be available to the	
	public at the lowest prices consistent with the patentees	
	deriving a reasonable advantage from their patent rights.	
	iii. The procedure as mentioned in Sections 83, 87, 88, 89 and 90	
	shall apply in relation to the grant of such licences as they	
	apply in relation to the grant of licences under Sec. 84.	
	iv. However, where the Controller is satisfied on consideration of	
	the application that it is necessary in-	
	I. a circumstance of national emergency; or	
	II. a circumstance of extreme urgency; or	
	III. a case of public non-commercial use,	
	which may arise or is required, as the case may be, including	
	public health crisis relating to Acquired Immuno Deficiency	
	Syndrome, Human Immune Deficiency Virus, Tuberculosis,	
	Malaria or other epidemics, the procedure as mentioned in	
	Section 87 shall not apply. However, the Controller shall, as	
	soon as may be practicable, inform the patentee of the patent	
	relating to the application for such non-application of Section	
	87.	
13.02.04	Compulsory licence for export of patented pharmaceutical	Section 92A
	products in certain exceptional circumstances	Form-17
	a. Compulsory licence shall be available for manufacture and export	
	of patented pharmaceutical product to any country having	
	insufficient or no manufacturing capacity in the pharmaceutical	
	sector for the concerned product to address public health problems,	
	provided compulsory licence has been granted by such country or	
	such country has, by notification or otherwise, allowed importation	
	of the patented pharmaceutical products from India.	
	b. The Controller shall, on receipt of an application in the prescribed	
	manner, grant a compulsory licence solely for manufacture and	
	export of the concerned pharmaceutical product to such country	
	under such terms and conditions as may be specified and published	
	by him.	
	c. The provisions of (a) and (b) shall be without prejudice to the	
1		1

		avtant to which pharmacautical products produced under a	
		extent to which pharmaceutical products produced under a	
		compulsory licence can be exported under any other provision of	
		this Act.	
	d.	'Pharmaceutical products' means any patented product, or product	
		manufactured through a patented process, of the pharmaceutical	
		sector needed to address public health problems and shall be	
		inclusive of ingredients necessary for their manufacture and	
		diagnostic kits required for their use.	
13.02.05	Te	rmination of Compulsory License	Section 94
	a.	Patentee or any other person deriving title or interest in the patent,	
		may make an application for termination of compulsory licence	
		granted under Section 84 on the ground that the circumstances that	
		gave rise to the grant thereof no longer exist and such	
		circumstances are unlikely to recur.	
	b.	The holder of the compulsory licence shall have the right to object	
		to such termination.	
	c.	While considering such an application, the Controller shall take	
		into account that the interest of the person, who had previously	
		been granted the licence, is not unduly prejudiced.	

Chapter 14

Use of patent for purposes of Government

14.01	Use of patent for the purpose of Government	Section 99
	An invention is said to be used for the purpose of Government if it	
	is made, used, exercised or vended for the purposes of Central	
	Government, a State Government or a Government undertaking.	
14.02	Power of Central Government to use inventions	Section 100
	a. Where an invention has, before the priority date of the relevant	
	claim of the complete specification, been duly recorded in a	
	document, or tested or tried, by or on behalf of the government	
	or a government undertaking, otherwise than in consequence of	
	the communication of the invention directly or indirectly, by	
	the patentee or by a person from whom he derives title, any use	
	of the invention by the Central Government or any person	
	authorized in writing by it for the purposes of government may	
	be made free of any royalty or other remuneration to the	
	patentee.	
	b. If and so far as the invention has not been so recorded or tried	
	or tested as aforesaid, any use of the invention made by the	
	Central Government of any person authorized by it as above	
	said, at any time after grant of the patent or in consequence of	
	any such communication as aforesaid, shall be made upon	
	terms as may be agreed upon either before or after the use,	
	between the Central Government or any person authorised by	
	Central Government and the patentee, or, as may in default of	
	agreement be determined by the High Court on a reference	
	under Section 103.	
	In case of any such use of any patent, the patentee shall be paid	
	not more than adequate remuneration in the circumstances of	

each case, taking into account the economic value of the use of the patent.

- c. The authorisation by the Central Government in respect of an invention may be given either before or after the patent is granted and either before or after the acts in respect of which such authorisation is given or done, and may be given to any person, whether or not he is authorised directly or indirectly by the applicant or the patentee to make, use, exercise or vend the invention or import the machine, apparatus or other article or medicine or drug covered by such patent.
- d. Where an invention has been used by or with the authority of the Central Government for the purposes of government then except in case of national emergency or other circumstances of extreme urgency or for non-commercial use, the government shall notify the patentee as soon as practicable of the fact and furnish him with such information as to the extent of the use of the invention as he may, from time to time, reasonably require. Where the invention has been used for the purposes of a government undertaking, the Central Government may call for such information as may be necessary for this purpose from such undertaking.
- e. The right to make, use, exercise and vend an invention for the purposes of government shall include the right to sell on noncommercial basis, the goods which have been made in exercise of that right, and a purchaser of goods so sold, and a person claiming through him, shall have the power to deal with the goods as if the Central Government or the person authorised by the Central Government were the patentee of the invention.
- f. Where in respect of a patent which has been the subject of an authorisation, there is an exclusive licensee or where such patent has been assigned to the patentee in consideration of

	royalties or other benefits determined by reference to the use of	
	the invention (including payments by way of minimum	
	royalty), the notice shall also be given to such exclusive	
	licensee or assignor, as the case may be, and the reference to	
	the patentee shall be deemed to include a reference to such	
	assignor or exclusive licensee.	
14.03	Rights of third parties	Section 101
	a. In relation to any use of a patented invention, or an invention in	
	respect of which an application for a patent is pending, made	
	for the purposes of government	
	i. by the Central Government or any person authorised by	
	the Central Government under section 100; or	
	ii. by the patentee or applicant for the patent to the order	
	made by the Central Government,	
	the provisions of any licence, assignment or agreement granted	
	or made, between the patentee or applicant for the patent (or	
	any person who derives title from him or from whom he	
	derives title) and any person other than the Central Government	
	shall be of no effect so far as those provisions—	
	i. restrict or regulate the use for the purposes of	
	government of the invention, or of any model,	
	document or information relating thereto, or	
	ii. provide for the making of payments in respect of any	
	use of the invention or of the model, document or	
	information relating thereto for the purposes of	
	government	
	and the reproduction or publication of any model or document	
	in connection with the said use for the purposes of government	
	shall not been deemed to be an infringement of any copyright	
	subsisting in the model or document.	
	b. Where the patent, or the right to apply for or obtain the patent,	

has been assigned to the patentee in consideration of royalties or other benefits determined by reference to the use of the invention then, in relation to any use of the invention made for the purposes of government by the patentee to the order of the Central Government, sub-section (3) of section 100 shall have effect as if that use were made by virtue of an authority given under that section, and any use of the invention for the purposes of government by virtue of sub-section (3) of that section shall have effect as if the reference to the patentee included a reference to the assignor of the patent, and any sum payable by virtue of that sub-section shall be divided between the patentee and the assignor in such proportion as may be agreed upon between them or as may in default of agreement be determined by the High Court on a reference under Section 103.

- c. Where by virtue of sub-section (3) of section 100, payments are required to be made by the Central Government or persons authorised under sub-section (1) of that section in respect of the use of an invention for the purposes of government, and where in respect of such patent there is an exclusive licensee authorised under his licence to use the invention for the purposes of government, such sum shall be shared by the patentee and such licensee in such proportions, if any, as may be agreed upon between them or as may in default of agreement be determined by the High Court on a reference under section 103 to be just, having regard to any expenditure incurred by the licensee
 - i. in developing the said invention; or
 - ii. in making payments to the patentees other than royalties or other benefits determined by reference to the use of the invention in consideration of the licence.

14.04	Acquisition of inventions	Section 102
	a. The Central Government may, if satisfied that it is necessary	
	that an invention which is the subject of an application for a	
	patent or a patent should be acquired from the applicant or the	
	patentee for a public purpose, publish a notification to that	
	effect in the Official Gazette, and thereupon the invention or	
	patent and all rights in respect of the invention or patent shall,	
	by force of this section, stand transferred to and be vested in the	
	Central Government.	
	b. Notice of the acquisition shall be given to the applicant, and,	
	where a patent has been granted, to the patentee and other	
	persons, if any, appearing in the register as having an interest in	
	the patent.	
	c. The Central Government shall pay to the applicant, or as the	
	case may be, the patentee and other persons appearing on the	
	register as having an interest in the patent such other	
	compensation as may be agreed upon between the Central	
	Government and the applicant or the patentee and other	
	persons; or, as may, in default of agreement, be determined by	
	the High Court on a reference under section 103 to be just	
	having regard to the expenditure incurred in connection with	
	the invention and, in the case of a patent, the term thereof, the	
	period during which and the manner in which it has already	
	been worked (including the profits made during such period by	
	the patentee or by his licensee whether exclusive or otherwise)	
	and other relevant factors.	
14.05	Reference of disputes to High Court	Section 103
	a. Any dispute as to the exercise by the Central Government or a	
	person authorised by it of the powers conferred by section 100,	
	or as to terms for the use of an invention for the purposes of	
	government thereunder or as to the right of any person to	

receive any part of a payment made in pursuance of sub-section (3) of that section or as to the amount of compensation payable for the acquisition of an invention or a patent under section 102, may be referred to the High Court by either party to the dispute in such manner as may be prescribed by the rules of the High Court.

- b. In any proceedings under this section to which the Central Government is a party, the Central Government may
 - i. if the patentee is a party to the proceedings, petition by way of counter-claim for revocation of the patent on any ground upon which a patent may be revoked under section 64; and
 - ii. whether a patentee is or is not a party to the proceedings, put in issue the validity of the patent without petitioning for its revocation.
- c. If in such proceedings as aforesaid any question arises whether an invention has been recorded, tested or tried as is mentioned in section 100, and the disclosure of any document regarding the invention, or of any evidence of the test or trial thereof, would, in the opinion of the Central Government, be prejudicial to the public interest, the disclosure may be made confidentially to the advocate of the other party or to an independent expert mutually agreed upon.
- d. In determining under this section any dispute between the Central Government and any person as to terms for the use of an invention for the purposes of government, the High Court shall have regard to any benefit or compensation which that person or any person from whom he derives title, may have received, or may be entitled to receive, directly or indirectly in respect of the use of the invention in question for the purposes of government.

- e. In any proceedings under this section, the High Court may at any time order the whole proceedings or any question or issue of fact arising therein to be referred to an official referee, commissioner or an arbitrator on such terms as the High Court may direct, and 0072eferences to the High Court in the foregoing provisions of this section shall be construed accordingly.
 a. Where the invention claimed in a patent was made by a person who at time it was made was in the service of the Central
 - who at time it was made was in the service of the Central Government or of a State Government or was an employee of a government undertaking and the subject-matter of the invention is certified by the relevant government or the principal officer of the government undertaking to be connected with the work done in the course of the normal duties of the government servant or employee of the government undertaking, then, notwithstanding anything contained in this section, any dispute of the nature referred to in sub-section (1) relating to the invention shall be disposed of by the Central Government conformably to the provisions of this section so far as may be applicable, but before doing so the Central Government shall give an opportunity to the patentee and such other parties as it considers have an interest in the matter to be heard.

Patent Agents

15.01	Patent Agents	Section 126,
	a. A patent application can be filed and prosecuted by an Applicant	127
	himself or through a registered Indian patent agent. The Register of	
	Patent Agents containing the names and addresses of all the registered	
	patent agents is available at: www.ipindia.nic.in	
	b. The Patents Act read with the Patents Rules prescribe the	
	qualifications and the eligibility for becoming a patent agent. In order	
	to get registered as a patent agent one has to pass an examination	
	conducted by the Controller General of Patents annually. The	
	notification concerning the examination is published in the official	
	website www.ipindia.nic.in and also in at least one prominent	
	newspaper.	
	c. In order to apply for registration as a patent agent, one has to be a	
	citizen of India, above the age of 21, and should have a Bachelor's	
	degree in Science or Engineering from a recognized Indian University	
	or possesses such other equivalent qualifications as the Central	
	Government may specify in this behalf.	
	d. All matters relating to registration and subsequent procedures are dealt	
	with in the Office of The Controller General of Patents, Designs and	
	Trademarks, Mumbai.	
15.02	Disqualifications for registration as a patent agent	Rule 114
	A person shall not be eligible to be registered as a patent agent, if he -	
	a. has been adjudged by a competent court to be of unsound mind;	
	b. is an undischarged insolvent;	
	c. being a discharged insolvent, has not obtained from the court a	
	certificate to the effect that his insolvency was caused by misfortune	
	without any misconduct on his part;	
	d. has been convicted by a competent court, whether within or outside	
	India of an offence to undergo a term of imprisonment, unless the	

	offence of which he has been convicted has been pardoned or unless	
	on an application made by him, the Central Government has, by order	
	in this behalf, removed the disability;	
	e. being a legal practitioner has been guilty of professional misconduct;	
	or	
	f. being a chartered accountant, has been guilty of negligence or	
	misconduct.	
15.03	Rights of patent agents	Section 127
	A patent agent is entitled-	
	a. to practice before the Controller; and	
	b. to prepare all documents, transact all business and discharge such other	
	functions as may be prescribed in connection with any proceedings	
	before the Controller under this Act.	
15.04	Subscription and verification of certain documents by a Patent Agent	Section 128
	All applications and communications to the Controller under this Act may	
	be signed by a patent agent authorized in writing in this behalf by the	
	person concerned.	
15.05	Restrictions on Practice as Patent Agents	Section 129
	Only a person registered as a patent agent is authorized to practice. In the	
	case of a partnership, the firm may be described or held out as Patent	
	Agent, only if all of the partners of the Firm are registered as patent agents.	
	No company or other body corporate shall practice, describe itself or hold	
	itself out as Patent Agents or permit itself to be so described or held out.	
	Each person in the associate group if any constituted should be a registered	
	Agent and duly authorized by the concerned person on behalf they act.	
15.06	Power of Controller to refuse to deal with certain agents	Section 131
	The Controller may refuse to recognize as agent in respect of any business	
	under this Act:	
	a. any individual whose name has been removed from, and not restored	
	to, the register;	
	b. any person who has been convicted of an offence under section 123;	
	c. any person, not being registered as a patent agent, who in the opinion	
	of the Controller is engaged wholly or mainly in acting as agent in	

		applying for patents in India or elsewhere in the name or for the	
		benefit of the person by whom he is employed;	
	4		
	a.	any company or firm, if any person whom the Controller could refuse	
		to recognize as agent in respect of any business under this Act, is	
		acting as a director or manager of the company or is a partner in the	
		firm.	
	e.	any person who neither resides nor has a place of business in India.	
15.07	Po	ower of Controller to remove the name of a Patent Agent	Section 130.
	a.	The name of any person from the Register can be removed if the	Rule 116.
		Controller is satisfied that: –	
		i. his/her name has been entered in the Register by error on	
		account of misrepresentation or suppression of material fact;	
		or	
		ii. he/she has been convicted of any offence and sentenced to a	
		term of imprisonment or has been guilty of misconduct in his	
		professional capacity which in the opinion of the Controller	
		renders him unfit to be kept in the register.	
	b.	The Controller shall take such decision after giving that person a	
		reasonable opportunity of being heard and after any further inquiry, as	
		he thinks fit to make.	
	c.	Besides, the name of the Patent agent can be removed also when:	
		i. request has been received from the Patent Agent to that effect;	
		Oľ	
		ii. he/she is dead; or	
		iii. if he/she has defaulted in the payment of fees specified in the	
		First Schedule by more than three months after they are due.	
	d.	The decision of the removal of the name of any person from the	
		Register of Patent Agents shall be published and will be communicated	
		to the person concerned.	
15.08	Re	estoration of names of Patent Agents	Rule 117
	a.	Restoration of names of persons removed from the register of Patent	Form-23
		Agents can be made by the Controller, on Application made in form 23	
		within two months from the date of such removal.	
	<u> </u>		

b.	The restoration of name to the register shall be published and	
	communicated to the person concerned.	
с.	If the name of a person is entered in the register of Patents Agents, his	
	name shall be continued therein for a period of one year from the date	
	on which his last annual fee became due.	

Offences and Penalties

16.01	Contravention of S.35 or 39	Section 118
	If any person fails to comply with any direction given under section 35	
	or makes or causes to be made an application for the grant of a patent in	
	contravention of section 39, he shall be punishable with imprisonment	
	for a term which may extend to two years, or with fine, or with both.	
16.02	Falsification of entries in register, etc.	Section 119
	If any person makes, a false entry in any register kept under the Patents	
	Act or provides any writing or evidence as a result of which the entry in	
	the register results into a false entry, knowing the entry or writing to be	
	false, then he is punishable with imprisonment for a term that may	
	extend to two years or with fine or with both.	
16.03	Unauthorized Claim of Patent Rights	Section 120
	If any person falsely represents that any article sold by him is patented	
	in India or is the subject of an Application for a Patent in India, he shall	
	be punishable with fine that may extend to rupees one lakh.	
16.04	Wrongful use of words, "Patent Office"	Section 121
	If any person uses on his place of business or any document issued by	
	him which would reasonably lead to the belief that either his place of	
	business is the Patent Office or is officially connected with the Patent	
	Office, he shall be punishable with imprisonment for a term that may	
	extend to 6 months, or with fine, or with both.	
16.05	Refusal or failure to supply information	Section 122
	If any person refuses or fails to furnish information as required under	Form-27
	Sections 100(5) and 146, he shall be punishable with fine which may go	
	up to rupees ten lakh (one million). Section 100(5) provides that any	
	person including Government undertaking using a patented invention	
	for the purpose of Government has to furnish any information on the	
	use of invention as required by the Central Government and Section 146	
	provides that the patentee has to furnish a statement regarding the	

		•
	working of the patented invention in a commercial scale in India in	
	Form 27. This has to be done annually within 3 months of the end of	
	each calendar year for that calendar year. If he furnishes false	
	information knowingly he shall be punishable with imprisonment that	
	may extend to 6 months or with fine or with both.	
16.06	Practice by non-registered persons	Section 123
	Any person practicing as a Patent Agent without registering himself as	
	such is liable to be punished with a fine of rupees one lakh for the first	
	offence and rupees five lakh for subsequent offence.	
16.07	Offences by Companies	Section 124
	a. When an offence is committed by a company, the company as well as	
	every person in charge of, and responsible to the company for the	
	conduct of its business at the time of the commission of the offence,	
	shall be deemed to be guilty and shall be liable to be proceeded against	
	and punished accordingly.	
	However, if such person proves that the offence was committed without	
	his knowledge or that he exercised all due diligence to prevent the	
	commission of the office, he shall not be liable.	
	b. Notwithstanding anything contained above, where an offence under	
	this Act has been committed by a company and it is proved that the	
	offence has been committed with the consent, connivance or that the	
	commission of the offence is attributable to any neglect on the part of	
	any director, manager, secretary or other office of the company, such	
	director, manager, secretary or other officer shall also be deemed to be	
	guilty of that offence.	

General Powers of Controller

17.01	Powers of a Civil Court	Section 77
	Subject to any rules made in this behalf, the Controller in any	Rule 136
	proceedings before him under this Act, have the powers of a Civil	Order XLVII of
	Court while trying a suit under the Code of Civil Procedure, 1908 (Act	CPC, 1908.
	No. 5 of 1908) in respect of the following matters, namely: —	
	a. Summoning and enforcing the attendance of any person and	
	examining him on oath;	
	b. Requiring the discovery and production of any document;	
	c. Receiving evidence on affidavits;	
	d. Issuing commissions for the examination of witnesses of documents;	
	e. Awarding costs;	
	f. Reviewing his own decision on application made within the	
	prescribed time and in the prescribed manner;	
	g. Setting aside an order passed ex-parte on application made	
	within the prescribed time and in the prescribed manner;	
	h. Any other matter which may be prescribed.	
17.02	Awarding Costs	Section 77(1)(e)
	a. Any order for costs awarded by the Controller in exercise of	Rule 63, 136
	the powers conferred upon him is executable as a decree of a	
	civil court. In all proceedings before the Controller, costs may	
	be awarded by the Controller, as he considers reasonable,	
	having regard to all the circumstances of the case.	
	b. However, the amount of costs awarded in respect of any matter	
	set forth in the Fourth Schedule shall not exceed the amount specified therein.	
	c. Notwithstanding anything contained in (a) above, the	
	Controller may, in his discretion, award a compensatory cost in	
	any proceeding before him which in his opinion is false or	

	vexatious.	
17.03	Review	Section 77(1)(f).
	a. Any person considering himself aggrieved by any order or dec	cree Rule 130.
	of the Controller from which an appeal is allowed but no app	beal Form-4, 24.
	has been preferred, or from which no appeal is allowed, and w	vho, Section 114 &
	from the discovery of new and important matter or evidence whi	ich, Order XLVII of
	after the exercise of due diligence was not within his knowledge	e or CPC, 1908.
	could not be produced by him at the time when the order or dec	ree
	was passed or order made, or on account of some mistake or en	rror
	apparent on the face of the record or for any other suffici	ient
	reason, desires to obtain a review of the decree passed or or	der
	made against him, may apply for a review of the order or decree	e to
	the Controller.	
	b. An application to the Controller for the review of his decis	ion
	under clause (f) of sub-section (1) of section 77 shall be ma	ade
	within one month from the date of communication of such decis	ion
	to the applicant or within such further period not exceeding of	one
	month thereafter as the Controller may on a request allow.	
	c. An application for review shall be accompanied by a statem	ient
	setting forth the grounds on which the review is sought.	
	d. Where the decision in question concerns any other person	in
	addition to the applicant, the Controller shall forthwith transmi	it a
	copy of each of the application and the statement to the ot	her
	person concerned.	
	e. An application to the Controller for setting aside an order pas	sed
	by him ex-parte under clause (g) of sub-section (1) of section	. 77
	shall be made within one month from the date of communication	n of
	such order to the applicant or within such further period	not
	exceeding one month as the Controller may on a request allow a	and
	shall be accompanied by a statement setting forth the grounds	on
	which the application is based. Where the order concerns any ot	iher
	person in addition to the applicant, the Controller shall, forthw	vith
	transmit a copy each of the application and the statement to	the
	other person concerned.	

17.04	Petition for Obviating an Irregularity	Rule 137.
	Any document for the amendment of which no special provision is	Nippon Steel
	made in the Act may be amended and any irregularity in procedure,	Corporation Vs.
	which in the opinion of the Controller may be obviated without	Union of India
	detriment to the interests of any person, may be corrected if the	
	Controller thinks fit and upon such terms as he may direct.	
	While considering a petition under Rule 137, only such an irregularity	
	is allowed to be obviated which is without detriment to the interests of	
	any person. Further, only such amendments for which there is no	
	special provision in the Act and which may be made without detriment	
	to the interests of any person are allowable. Generally, a failure to Act	
	within prescribed time shall not be considered as an irregularity which	
	can be obviated under this Rule, as the Patents Act and Rules clearly	
	mentions, wherever extensions are allowed.	
17.05	Mention of Inventor in Patent	Section 28.
	If the controller is satisfied, upon a request or claim made in	Rule 57, 58, 59, 60,
	accordance with the provisions of this section —	61, 62, 63.
	i) that the person in respect of or by whom the request or claim is	Form 8.
	made is the inventor of an invention in respect of which application	
	for a patent has been made, or of a substantial part of that	
	invention; and	
	ii) that the application for the patent is a direct consequence of his	
	being the inventor, the Controller shall, subject to the provisions of	
	this section, cause him to be mentioned as inventor in any patent	
	granted in pursuance of the application in the complete	
	specification and in the register of patents:	
	a. Such a request or claim shall be accompanied by a statement	
	setting out the circumstances under which the claim is made.	
	b. However, the mention of any person as inventor under this section	
	shall not confer or derogate from any rights under the patent.	
	c. A request that any person shall be mentioned as aforesaid may be	
	made in the prescribed manner by the applicant for the patent or	
	(where the person alleged to be the inventor is not the applicant or	
	one of the applicants) by the applicant and that person.	

17.06	Di	rections Not Otherwise Prescribed	Rule 128
		1970, isof".

	a.	Where for the proper prosecution or completion of any	
		proceedings under the Act or these rules, the Controller is of the	
		opinion that it is necessary for a party to such proceedings to	
		perform an Act, file a document or produce evidence, for which	
		provision has not been made in the Act or these rules, he may, by	
		notice in writing, require such party to perform the Act, file the	
		document or produce the evidence specified in such notice.	
	b.	Where an applicant or a party to a proceeding desires to be heard	
		or not heard, the Controller may, at any time, require him to	
		submit his statement in writing giving such information as the	
		Controller may deem necessary within the time specified by him.	
17.07	Ex	cercise of Discretionary Power by the Controller	Section 80.
	a.	Before acting adverse to any party, the Controller shall give an	Rule 129.
		opportunity of being heard to the party. The discretionary powers	
		shall be exercised with due care and caution and not in an	
		arbitrary manner. Such reasons shall be taken judiciously and the	
		reasons shall be recorded in the file. However, this will not apply	
		to actions resulting from "deemed" provisions in the Act and	
		Rules.	
	b.	A party desiring a hearing shall make the request for such hearing	
		to the Controller at least ten days in advance of the expiry of the	
		time-limit specified in respect of the proceeding.	
	c.	Before exercising any discretionary power under the Act or these	
		rules which is likely to affect an applicant for a patent or a party to	
		a proceeding adversely, the Controller shall give such applicant or	
		party, a hearing, after giving him or them, ten days' notice of such	
		hearing ordinarily.	
17.08	Po	wer of Controller to Correct Clerical Errors, etc.	Section 78.
	a.	Without prejudice to the provisions contained in sections 57 and	Rule 122.
		59 as regards amendment of applications for patents or complete	
		specifications or other documents relating thereto and subject to	
		the provisions of section 44, the Controller may, in accordance	
		with the provisions of this section, correct any clerical error in any	
		1 · · · · · · · · · · · · · · · · · · ·	

	patent or in any specification or other document filed in pursuance	
	of such application or in any application for a patent or any	
	clerical error in any matter which is entered in the register.	
b.	A correction may be made in pursuance of this section either upon	
	a request in writing made by any person interested and	
	accompanied by the prescribed fee, or without such a request.	
c.	Where the Controller proposes to make any such correction as	
	aforesaid otherwise than in pursuance of a request, he shall give	
	notice of the proposal to the patentee or the applicant for the	
	patent, as the case may be, and to any other person who appears to	
	him to be concerned, and shall give them an opportunity to be	
	heard before making the correction.	
d.	Where a request is made for the correction of any error in a patent	
	or application for a patent or any document filed in pursuance of	
	such an application, and it appears to the Controller that the	
	correction would materially alter the meaning or scope of the	
	document to which the request relates and ought not to be made	
	without notice to persons affected thereby, he shall require notice	
	of the nature of the proposed correction to be published in the	
	official journal.	
e.	Such a request for the correction of a clerical error in any	
	document shall be accompanied by a copy of the document	
	highlighting the corrections clearly along with the prescribed fees.	
f.	Within the prescribed time after any such publication as aforesaid	
	any person interested may give notice to the Controller of	
	opposition to the request, and, where such notice of opposition is	
	given, the Controller shall give notice thereof to the person by	
	whom the request was made, and shall give to him and to the	
	opponent an opportunity to be heard before he decides the case.	
g.	The procedure specified in rules 58 to 63 relating to the filing of	
	reply statement, leaving evidence, hearing and costs shall, so far	
	as may be, will be applicable to the above proceedings.	

	as may be, will be applicable to the above proceedings.	
17.09	Ex-parte decision	
	Before proceeding ex-parte against any party, the Controller shall	

issue a notice to the concerned party clearly stating therein that if the
party fails to attend the hearing so fixed, he shall be proceeded ex-
parte. Such notice shall be sent by Registered Post with
acknowledgment due.

Chapter 18 General Services

18.01	General Services
	a. Patent Office provides certain statutory and non- statutory services
	for the dissemination of information related to patent processing.
	b. It may be noted that references to some of these services have
	already been made in the relevant Chapters.
	c. These services are enumerated in the following paragraphs as per
	standards set by the Patent Office.
18.02	Official Journal Section 145
	a. Every Friday the Controller publishes the Official Patent Journal
	electronically, which is made available on the official website of the
	Patent Office.
	b. The journal contains the following information:
	i. Section 11A publication, including early publication.
	ii. Withdrawal of Patent Applications.
	iii. Cessation of Patents.
	iv. Restoration of lapsed Patents.
	v. Post-Grant amendments.
	vi. Amendment of Patent granted to a deceased applicant.
	vii. Assignment after grant.
	viii. Post-Grant Oppositions.
	ix. Working of Patents.
	x. Revocation of Patents.
	xi. Compulsory Licences.
	xii. Rectification of Register by the Appellate Board.
	xiii. Details of Government use.
	xiv. General matters.
	xv. Surrender of patents.
	c. Publications under the Designs Act form the last part of the Journal
	published.

18.03	Information relating to Patent Applications and Patents S	Section 153.
	a. At the request of a person (on plain paper), the Controller provides	Rule 134.
	the following information regarding a Patent or an Application for a	
	Patent. Separate requests shall be made in respect of each item:	
	i. as to when a Complete Specification following a	
	Provisional Specification has been filed or an Application	
	for Patent is deemed to be abandoned;	
	ii. as to when the information under Section 8 has been filed;	
	iii. as to when Publication of Application has been made under	
	Section 11 A;	
	iv. as to when an Application has been withdrawn under	
	Section 11B;	
	v. as to when a request for examination has been made under	
	Section 11B;	
	vi. as to when the examination report has been issued under	
	Section 12;	
	vii. as to when an Application for Patent has been refused;	
	viii. as to when a Patent has been granted;	
	ix. as to when a renewal fee has been paid;	
	x. as to when the term of a Patent has expired or shall expire;	
	xi. as to when an entry has been made in the Register or	
	Application has been made for the making of such entry; or	
	xii. as to when any Application is made or action taken	
	involving an entry in the Register, publication in the	
	Official Journal or otherwise, if the nature of the	
	Application or action is specified in the request.	
	b. The report of the Examiner to the Controller under Section 12 is not	
	open to public unless directed by a Court of Law.	
	c. Except (b) above, most of the information relating to patents is	
	available on the official website. However, the information	
	available on the official website of the Patent Office would not be	
	sufficient for legal proceedings, for which a person may take	
	recourse to (a) above.	
18.04	Inspection and supply of copies of documents S	Section 72, 147,

		r
	a. After the publication of application, the application along with the	154.
	complete specification, provisional specification, drawing, if any,	Rule 27, 74A,
	and the abstract may be inspected at the appropriate Patent Office.	132.
	b. After the grant of a patent, the application along with the complete	
	specification, provisional specification, drawing, if any, and abstract	
	and related thereto may be inspected at the concerned Patent Office.	
	c. Request for inspection may be made in plain paper along with the	
	prescribed fee.	
	d. A person may obtain copies of any document open to public upon	
	payment of the prescribed fee.	
	e. Certified copy (as may be required for legal proceedings) of any	
	document open to public may be obtained upon payment of	
	prescribed fee.	
	f. Register of Patents may be inspected during the working hours of	
	the Patent Office by making a written application along with the	
	prescribed fee.	
	g. Certified copies of any entry in the Register is available upon the	
	payment of prescribed fee.	
	h. If a Certificate of Patent is lost or destroyed, an application for a	
	Duplicate Certificate of Patent may be made on a plain paper clearly	
	mentioning the grounds for issue of the same.	
18.05	Annual report of the Patent Office	Section 155
	The Patent Office publishes an annual report comprising statistical	
	information pertaining to the activities of Patent Office. Such report is	
	placed before both the Houses of Parliament, whereupon the report is	
	made available on the official website.	
18.06	Information available at the Website	
	The official website provides the following information:	
	a. Indian Patent Information Retrieval System (IPIRS) provides	
	information on:	
	i. Granted Patents;	
	ii. Published Patent Applications;	
	iii. Controller's decisions; and	

	iv. Patent Application status.	
b.	The objective of the IPIRS is to facilitate search in relation to Indian	
	Patents / Patent Applications for the purpose of novelty and	
	inventive step and to enable applicants or any other person to	
	procure information pertaining to the status of a Patent Application.	
с.	List of registered Patent Agents.	
d.	Examination schedule for Patent Agents.	
Ot	ffice Orders / Circulars by the Controller General are made available	
on	n the website.	

Chapter 19 Scientific Advisors

19.01	Scientific Advisors	Section 115
	a. In any suit for infringement or in any proceeding before a	
	Court under this Act, the Court may at any time, suo moto or	
	on an application made by a party, appoint an independent	
	Scientific Advisor to assist the Court or to inquire and report	
	upon any such questions of fact or of opinion (not involving a	
	question of interpretation of law) as it may formulate for the	
	purpose.	
	b. The remuneration of the Scientific Advisor shall be fixed by	
	the Court and shall include the cost of preparing/making a	
	report and appropriate fee for Scientific Advisor for any day	
	on which he/she may be required to attend the hearing of the	
	Court, and such remuneration shall be defrayed out of funds	
	provided by the Parliament under law for such purpose.	
19.02	Roll of Scientific Advisors	Rule 103
	The Controller maintains a panel/list of scientific advisors for the	
	purpose of Section 115. The panel/list is updated annually. The	
	panel/list contains the names, addresses, specimen signatures and	
	photographs of scientific advisors, their designations,	
	information regarding their educational qualifications, the	
	disciplines of their specialisation and their technical, practical	
	and research experience. The panel/list is also accessible / made	
	available on the official website of the Patent Office at url:	
	www.ipindia.nic.in	
19.03	Qualifications and procedure for empanelment / enrollment	Rule 103, 104,
	a. Any person who—	105, 106

	i. holds a degree in science, engineering, technology or	
	equivalent;	
	ii. has at least fifteen years' practical or research	
	experience; and	
	iii. holds or has held a responsible post in a scientific or	
	technical department of the Central or State	
	Government or in any other organization,	
	is qualified to have his/her name entered in the panel/list/roll	
	of scientific advisors. However, where the Controller is of	
	the opinion that it is necessary or expedient to do so, he may,	
	by order, for reasons to be recorded in writing, relax any of	
	the qualifications specified above, with respect to any	
	person, if such person is otherwise well qualified.	
	b. Any person interested may apply at any time to the	
	Controller for inclusion of his/her name in the roll of	
	scientific advisors furnishing his/her bio-data.	
	c. The list/roll is updated and published annually.	
19.04	Removal from the roll/panel of Scientific Advisor	Rule 107
	a. The Controller may remove the name of any person from the	
	roll of scientific advisors, if—	
	i. such person makes a request for such removal; or	
	ii. the Controller is satisfied that his/her name has been	
	entered in the roll by error or account of	
	misrepresentation or suppression of any material fact;	
	or	
	iii. such person has been convicted for an offence and	
	sentenced to a term of imprisonment or has been	
	guilty of misconduct in his professional capacity and	
	the Controller is of the opinion that his/her name	
	should be removed from the roll:	
	b. Before removing the name of any person from the roll of	

scientific advisors under this rule, such person shall be given	
a reasonable opportunity of being heard.	

Miscellaneous provisions

20.01	Affidavits	Section 79.
	a. Notwithstanding anything to the contrary as and when	Rule 126.
	directed by the Controller, in all proceedings before the	
	Controller under this Act, evidence shall be given by way	Diplomatic and
	of an affidavit	Consular
	b. In cases where the Controller deems it appropriate to do	Officers (Oaths
	so, he may take oral evidence in lieu of, or in addition to,	and Fees) Act,
	evidence by way of an affidavit, or may allow any party	1948.
	to be cross-examined on the contents stated in his/her	
	affidavit.	Notifications
	c. The affidavits required to be filed before the Controller of	u/s 14 of the
	Patents under the Act or rules shall be duly sworn in the	Notaries Act,
	manner as prescribed under Clause (e) below.	1952.
	d. Affidavits shall be confined to such facts as the deponent	
	is able, of his own knowledge, to prove except in	
	interlocutory matters, where statements of belief of the	
	deponent may be admitted, provided the grounds thereof	
	are given.	
	e. Affidavits shall be sworn to as follows:	
	i) In India - before any Court or person having by law	
	authority to receive evidence, or before any officer	
	empowered by such court as aforesaid to administer oaths	
	or to take affidavits;	
	ii) In any country or place outside India - before a diplomatic	
	or consular officer, within the meaning of the Diplomatic	
	and Consular Officers (Oaths and Fees) Act, 1948 (41 of	
	1948); in such country or place or before a notary public	

	of the country or place, recognised by the Central	
	Government under section 14 of the Notaries Act, 1952	
	(53 of 1952); or before a Judge or Magistrate of the	
	country or place.	
	f. Alterations and interlineations shall, before an Affidavit	
	is sworn to or affirmed to be authenticated by the initials	
	of the person before whom the Affidavit is sworn to.	
20.02	Exhibits	Rule 127
	Where there are exhibits to be filed in an opposition matter or	
	any other proceeding, a copy or impression of each exhibit shall	
	be supplied to the other party at his request and expense; if	
	copies or impressions of the exhibits cannot conveniently be	
	furnished, the originals shall be left with the Controller for	
	inspection by the person interested by prior appointment. The	
	exhibits in original if not already left with Controller, shall be	
	produced at the hearing.	
20.03	Officers and employees of Patent Office – Duties	Section 76
	An officer or employee of the Patent Office shall not, except	
	when required or authorised by this Act or under a direction in	
	writing of the Central Government or Appellate Board or the	
	Controller or by order of a Court—	
	a. furnish information on a matter which is being, or has	
	been, dealt with under this Act; or	
	b. prepare to assist in the preparation of a document	
	required or permitted by or under this Act to be lodged in	
	the patent office; or	
	c. conduct a search in the records of the Patent Office.	
20.04	Hearing to be in public	Rule 139
20.04	freating to be in public	
20.04	Where the hearing is held before the Controller of any dispute	
20.04		
20.04	Where the hearing is held before the Controller of any dispute	

	after t	the date of the publication of the complete specification, the	
	hearir	ng of the dispute shall be in public unless the Controller,	
	after consultation with the parties to the dispute, who appear in		
	perso		
20.05	Agency – Power of Attorney		Rule 135.
	a.	The authorisation of an agent for the purposes of the Act	Form-26.
		and the rules shall be in Form 26 or in the form of a	
		Power of Attorney.	
	b.	Where any such authorisation has been made, service	
		upon the agent of any document relating to the	
		proceeding or matter under the Act or the rules shall be	
		deemed to be service upon the person so authorising and	
		all communications directed to be made to a person in	
		respect of the proceeding or matter may be addressed to	
		such agent, and all appearances before the Controller	
		relating thereto may be made by or through such agent.	
	с.	If it is considered necessary, require the personal	
		signature or presence of an applicant, opponent or party	
		to such proceeding or matter.	
	d.	As a matter of practice, an application may be accepted	
		without a Power of Attorney, for the purpose of saving	
		priority. However, any subsequent papers can be filed	
		only after submitting the required Power of Authority.	
		Office will not take any action if a Form-26 /	
		authorisation of agent is not present on the record. In	
		cases where a General Power of Attorney from an	
		applicant has already been filed in the Office, a copy	
		attested by the agent shall be filed for subsequent filing.	

Chapter 21 Time Limits

21.01	Time limits	
21.01		
	Time limits for various actions while prosecuting a patent	
	application and also for post grant procedures have been either	
	specifically provided in the Patents Act or prescribed through the	
	Patents Rules. These time limits are required to be followed strictly	
	by every person concerned. Failure to adhere to the legally imposed	
	time limits may turn out to be detrimental to the interests of the	
	applicants, patentees or any other person interested.	
21.02	Petition for extension of time	Rule 138
	Time limits prescribed in the Rules for an action or any proceedings	
	thereunder may be extended by the Controller for a period of one	
	month, if he thinks it fit to do so and upon such terms as he may	
	direct. He may do so based on a petition under Rule 138. However,	
	the time limits prescribed under Rules 24B, 55(4) and 80(1A) are	
	not extendable under this provision.	
	Any request for extension made under the Rules shall be made	
	before the expiry of the prescribed period.	
	As Rule 138 specifically stipulates that any time limit prescribed by	
	the Patents Rules can be extended by one month only, any further	
	extension shall not be allowable by invoking any other provision,	
	such as Rule 137, except wherever specifically allowed by the Act	
	or Rules viz. Rules 13(6), 80(1A), 130.	
1		

	Description	Time	Provision
